MISS SAVANNAH STATE COLLEGE—Verlene Patricia Brown is a Senior from Metter, Georgia, majoring in Social Science.

**HOMECOMING EDITION
1965**

PRESIDENT'S MESSAGE

DR. HOWARD JORDAN, JR.

SAVANNAH STATE COLLEGE
STATE COLLEGE BRANCH
SAVANNAH, GEORGIA

OFFICE OF
THE PRESIDENT

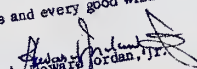

GREETINGS TO ALUMNI AND FRIENDS ON HOMECOMING DAY

Once again, it is my happy privilege to welcome the Savannah State College Alumni and friends who have come back home to share with us this annual Homecoming celebration. These Homecoming days are good for us. They broaden our outlook. If we are at all disheartened, we receive new inspiration, new enthusiasm, and new ideas. Your presence here today is a great source of comfort, and through your interest, support, and assistance, Savannah State College will continue to strive to move forward in the academic world.

It is my wish that I could take each of you personally on a tour through our new buildings, which are as new and modern as the NEW VISTAS we explore. As time permits, I hope that you will visit each of them, so as to see the facilities that are now available to our faculty and student body. Our buildings, programs and personnel are dedicated to discovery and inquiry - to seeking new knowledge and skills essential to the growth and development of young minds and bodies.

It is my great pleasure to extend warm greetings to our friends from Albany State College. I am sure that our athletic competition on the gridiron will be an outstanding example of fine sportsmanship, and we look forward, with enthusiasm, to many such meetings in the years ahead.

Mrs. Jordan and I hope to greet each of you personally after the game. Always remember, you carry with you our prayers and every good wish to you and yours.

Howard Jordan, Jr.
President

ALBANY STATE COLLEGE

OFFICE OF THE PRESIDENT

Albany State College is, indeed, pleased to extend greetings to Savannah State College on the occasion of Homecoming, for a very close relationship exists between these two sister institutions.

Savannah State College has compiled a splendid record of accomplishments regarding significant contributions to the educational development of the United States. We congratulate you on this record of magnificence and wish for you continued success in all of your endeavors. Certainly, Albany State College, as a loyal friend and colleague of many years, is anxious to cooperate with you in all matters of importance.

As for the football games, the good reason that brings us together on this day, we are only desirous that the best team emerge victorious. We know that the game and the affairs incident thereto will strengthen our bond of mutual admiration and concern.

You have our very best wishes and highest esteem.

Most cordially yours,

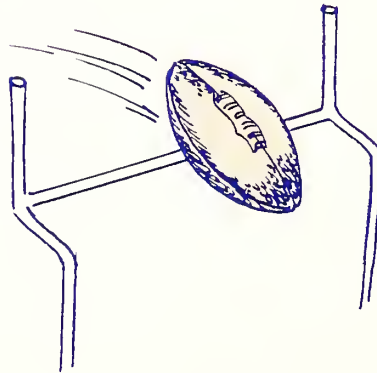

THOMAS MILLER JENKINS

Miss Albany State,
Gloria Webb

How awfully sweet are the echoes that start

When memory plays an old tune on the heart.—Ella Cook

O. W. O'Neal, Head Football

TO THE ALUMNI

**REMEMBER
WHEN?**

C. G. Wiley was president of SSC.

The first regular summer school was conducted at SSC.

Dr. Benjamin F. Hubert was president of SSC.

The high school and normal departments were discontinued and the school became a four-year college, offering the bachelor's degree in agriculture and home economics.

The College began to offer degree programs with majors in English, the natural sciences, social sciences, and business administration.

The College served as the state land-grant institution for Negroes.

James A. Colston was president of SSC.

Dr. W. K. Payne was president of SSC.

The Regents of the University System of Georgia changed the name of the College from Georgia State College to Savannah State College.

THE FOLLOWING BUILDINGS WERE BUILT:

Adams Hall
Willie Powell Laboratory
Morgan Hall
Willcox Gymnasium
Herty Hall
Camilla Hubert Hall
The Information Cabin
The Community House
Wright Hall
The Library
The Technical Science Building

THE BAND

*Your old men shall dream
dreams, your young men shall
see visions.—Old Testament*

The SSC Marching Tigers.

AN OPEN INVITATION TO PROSPECTIVE STUDENTS

It is my happy pleasure to extend a cordial invitation to all prospective college students to enter Savannah State College.

Here at Savannah State we take special pride in the matchless natural beauty of our campus, and in our beautifully designed buildings, because we know that these will lend inspiration to the young people who gather here to grasp the opportunity to acquire the basic skills, attitudes, habits, appreciations, and understandings requisite for the good life. We are proud that our College is modern in all particulars, and we are constantly striving to improve and expand our offerings and facilities.

At Savannah State College the general curriculum is concerned with the major disciplines that:

1. Acquaint the students with broad areas of knowledge and human experience;
2. Give them an understanding of themselves, their culture and physical environment;
3. Provide the students with a sound intellectual and moral foundation upon which character and professional and vocational opportunities may rest.

Students enjoy life here at the College. It is a friendly campus where each individual is respected, and where the members of the College family study, work, and play together.

It is our sincere hope that this booklet will provide you with answers to your questions about the College. As you make your educational plans, we hope that you will seriously consider joining our educational family at Savannah State College.

Cordially,

Howard Jordan, Jr.
President

SSC and Florida A & M

AN INTRODUCTION TO SSC

Savannah State College, in its long history of 76 years, is located off Taylor Road and Falligant Avenue, in the historic city of Savannah, which is the oldest city and chief seaport of the state, as well as the first capital.

The campus, comprising one hundred and thirty-six acres, presents a setting of matchless natural beauty.

The College now includes six divisions and 14 departments which give students a wide variety of courses from which to select. The major divisions are Business Administration, Education, Humanities, Natural Sciences, Social Sciences, and Technical Sciences. Through the offerings of these divisions, students may prepare for varied careers in the areas of modern foreign languages, English and literature, biology, chemistry, mathematics and physics, physical education, home economics, music, history, economics, sociology, political science, engineering technology, and industrial education.

A dormitory to house 100 women students was opened at the beginning of the Fall Quarter, 1964. This two-story brick structure was constructed at a cost of approximately \$280,000. It includes grooming rooms for beauty culture, a snack kitchen, a laundrette, and a combination room for lounging, reception and recreation. Two young ladies are housed in a room.

A dormitory for 180 women at a cost of approximately \$520,000 has been completed and is now in use.

A two-story air-conditioned classroom building at a cost of approximately \$500,000 has been completed and now in use. It is located on Taylor Road, south of the Technical Sciences Building across the street from Powell Hall. The new building consists of 15 classrooms, data processing facilities, a language laboratory, a reading clinic, and an administrative area with office space for 33 instructors.

A \$400,000 annex to Wiley Gymnasium has been open since last February. This new physical education facility consists of a swimming pool, classrooms, and additional spectator seating for indoor sports.

A Music and Fine Arts Building at an approximate cost of \$500,000 is under construction. This building will include a Little Theatre for dramatics, and will be ready for occupancy during the Summer Session 1966.

A four-unit, all weather, lighted tennis court has been erected adjacent to the athletic field, and is now in use.

Construction of a dormitory to accommodate 180 men is under way. This dormitory is being built at the entrance of the campus, on the corner of Falligant Avenue and Taylor Road. It will be a modern three-story facility, and will consist of ninety bedrooms of the studio type. This building will include a lobby, recreational areas, and an apartment for the housing director, barber shop, room for TV viewing, and laundromat. This new facility will be completely air-conditioned and constructed at an approximate cost of \$600,000. It is estimated that this dormitory will be ready for occupancy in September 1966.

The above listed facilities along with the facilities already available at Savannah State College will provide the student and faculty with a desirable environment for greater learning activities.

For the Biennium of 1966-68 Savannah State College has requested from the Board of Regents the following facilities: A new Dining Hall-Cafeteria; A Natural Science Building; A technical Home Economics Building; A Nursery School for Early Childhood Education and a Student Union Building.

MELDRIM HALL — Administration Building

THE INTELLECTUAL CENTER OF THE CAMPUS

ASA H. GORDON LIBRARY — Named in honor of Dr. Asa H. Gordon, who was the first member of the college faculty to publish a book. He served the college as Dean of Faculty and Director of Research and Publications.

The library of the college is one of its most prized possessions. The adequacy of its resources and the nature of its services to students and faculty largely determine the quality of the academic program. On the Savannah State College campus, the library is an indispensable unit which undergirds the instructional program as well as contributes to the recreational and reading interests. The library is not an adjunct to teaching but the heart of the learning process.

The library staff and faculty are busy assembling a notable book collection to be used in active support of the academic curriculum. Assembling a book collection is not enough! The librarian and his staff actively encourage students to use books with an emphasis on the role that books play in the intellectual life of the academic community. The resources of the library include 51,250 volumes, several thousand pamphlets, 640 periodicals, and 26 newspapers. The London Times, the New York Times, the Savannah Morning News, and the Savannah Evening Press, are on microfilm, in addition to book materials in micro-print.

“Let’s Listen to a Story,” hour under the direction of Mrs. Althea Anderson, Circulation Librarian, is held weekly for the children of the community. Dr. Samuel Johnson said, “Those who do not read can have nothing to think and say.” The Great Books Discussion Group, under the sponsorship of the library has been organized to encourage people to read and meet together to discuss great books.

Dr. J. W. Jamerson, local dentist, and E. J. Josey, Librarian, are the co-leaders of the group. Exhibitions of paintings by some of the world’s great artists are displayed in the library periodically. A recently inaugurated lecture series has truly made the library a market place of ideas.

All in all, the library of Savannah State College is an essential instrument in the life of the academic community.

BUILDINGS

W. K. PAYNE HALL — A two-story air-conditioned building comprised of 15 classroom data processing facilities, a language laboratory, a reading clinic, and administrative are with office space for 33 instructors, was named in honor of the late President William J. Payne, who served as fifth president of the college from 1950 up until his death in 1966. Dr. Payne also served the college in the capacity of Chairman of the Department of Education and Dean of Faculty.

HUBERT HALL
Technical Sciences Center

THE GENERAL CURRICULUM

The General Education Program proposes to provide opportunities for all students to acquire the basic skills, attitudes, habits, appreciations and understandings requisite for the good life.

It seeks to guarantee to all students competency in communication and thinking. It further proposes to orient students toward and to sensitize them to human and universal good and to the worth and dignity of every human being.

At this college the general curriculum is preoccupied with the major disciplines that:

1. Acquaint the students with broad areas of knowledge and human experience;
2. Give them an understanding of themselves, their culture and physical environment;
3. Provide the students with a sound intellectual and moral foundation upon which character and professional and vocational opportunity may rest.

The program is concerned generally with freshman and sophomore students. However, some attention is devoted to students on the junior and senior level of their intellectual maturation. In this respect, general education is an integral phase of the experience of all students who matriculate for a degree at the College.

The General Education Program is under the general supervision of the General Education Committee and the Coordinator of General Education. The Committee consists of students and faculty members.

THE DIVISIONS

The formal instructional program of Savannah State College comprises the general curriculum, areas of major and minor concentration, and terminal curricula. The program is organized within these seven divisions:

THE DIVISION OF BUSINESS ADMINISTRATION

THE DIVISION OF EDUCATION

Department of Elementary Education

Department of Secondary Education

Department of Health, Physical Education and Recreation

THE DIVISION OF HUMANITIES

Department of English

Department of Fine Arts

Department of Modern Languages

THE DIVISION OF NATURAL SCIENCES

Department of Biology

Department of Chemistry

Department of Mathematics and Physics

THE DIVISION OF SOCIAL SCIENCES

THE DIVISION OF TECHNICAL SCIENCES

Department of Home Economics

Department of Engineering Technology

DIVISION OF BUSINESS ADMINISTRATION

HAYWARD S. ANDERSON, D.B.A., Chairman

A high school student who is preparing for a career in business via the college route should direct his efforts toward becoming proficient in mathematics and English at the high school level. Proficiency in mathematics allows him to make quick use of quantitative tools in solving business problems. Proficiency in English permits him to communicate his ideas. The ability to do both are significant attributes of business personnel.

Though not essential, since the college offers the necessary fundamentals, a student may also take such courses as bookkeeping, shorthand, and other business subjects which are offered at his respective high school. Such an approach, at least, allows the student to make a tentative judgment as to whether or not he is favorably inclined toward specific subject areas. It should be pointed out unequivocally, however, that business training, on the college level, embraces much more than typewriting and shorthand.

Since more and more high school students are arriving at college with typing skills, it is recommended that a course in typewriting be taken. Entering students are exempted from typewriting courses in which they meet the course standards.

Whether or not students interested in the secretarial or teaching programs should take shorthand in high school, since they are required courses in these college curricula, is a debatable question. Evidence at our institution suggests that the student might well spend the time that he might devote to shorthand in high school to additional preparation in grammar and composition, if he is not already proficient in these areas.

One of the advantages of majoring in business is that one is preparing himself for a wide variety of employment possibilities. Opportunities exist for self-employment, for employment in private industry, and for employment with the government—national, state and local.

Some positions, for which training in business at Savannah State College is designed to prepare students include:

Entrepreneurs	Secretaries
Accountants	Stenographers
Bookkeepers	Typists
Salesmen	Business Managers
Economists	Teachers of Business

To realize the aims of a person desiring training in business, Savannah State College's Division of Business offers courses leading to the degree of bachelor of science and terminal, two-year program leading to a certificate of proficiency.

A student who pursues a degree in business at this institution may concentrate his efforts in one of the following areas: (1) General Business Administration, (2) Accounting, (3) Economics, (4) Secretarial Science, and (5) The Program for Teachers of Business Education. In each of the above curricula, consideration has been given to the course requirements for graduate study.

Because of the numerous job opportunities that exist currently for accountants and secretaries, students should become familiar with the attributes of successful accountants and secretaries as well as the nature of the job opportunities that are available.

A student may find a challenging career in the field of accounting if he has analytical ability, if he has a facility with figures, and if he derives personal enjoyment while doing work which requires the use of these attributes.

While numerous lists have been compiled which suggest attributes of a good secretary, the attributes of loyalty and a mastery of shorthand and typewriting are frequently mentioned. While the following list is by no means all inclusive, it, nevertheless, gives some further insight into the desired attributes of a good secretary. A prospective employer recently wrote that he had a secretarial vacancy but in order to meet the job specifications the secretary had to have the following: a pleasing personality, facility with English, a mastery of telephone etiquette, courtesy, neatness in both appearance and work, and the ability to work with others. Aspiring secretaries can acquire and develop many of these attributes early.

Because occupations within the field of business are numerous and because the specific required attributes within each occupation may vary, high school students are encouraged, in addition to utilizing their own counselors, to visit colleges and counsel with professors and counselors for guidance in career selection.

Business Students Training for Tomorrow's Responsibilities

DIVISION OF EDUCATION

CALVIN L. KIAH, Ed.D., Chairman

The Division of Education at Savannah State College is a member of the Association of Colleges for Teachers Education. It offers twelve curricula in teacher preparation and a program of basic training for teacher-librarians. These programs are approved by the State Department of Education. This means that satisfactory completion of any program brings automatic certification in the field of study pursued.

A person majoring in Education at Savannah State College is the concern of every division and department of the College, therefore, the resources and facilities—as well as the interest and efforts of the entire institution, are at his disposal.

Aside from a strong academic classroom program in general, specialized, and professional education, the teaching major at Savannah State College has rich, varied, and meaningful laboratory experience which brings one into constant contact with children and youth.

COLLEGE-WIDE PROVISION FOR TEACHER EDUCATION

The Division comprises three departments: the Department of Elementary Education; the Department of Health, Physical Education and Recreation; and the Department of Secondary Education. The preparation of teachers is, however, a college-wide commitment. Because every division and department at the College is involved in training teachers in some subject matter field, this function engages the constant interest and efforts, staff resources, and facilities of the entire institution.

Students entering the Division of Education do not only get classroom experiences to enable them to become good teachers but the curriculum also enables them in meeting the responsibility in nursery centers and the community. (top) Mrs. Owens challenging students in classroom in order to prepare them to meet the demands and responsibilities in society.

DEPARTMENT OF HEALTH, PHYSICAL EDUCATION, AND RECREATION

The essential aim of the Department of Health, Physical Education and Recreation is to afford professional training for pre-service and in-service teachers of health, physical education, and recreation in the elementary and secondary schools. A parallel aim is advisement. The aim is to provide for all students instruction in the basic principles of health and recreational activity needed for wholesome living.

In pursuance of the foregoing aims, this Department provides a four-fold program of instruction. For students who plan to become professional workers in the field of health, physical education, and recreation—either in schools or in other agencies—the department offers a sequence of specialized training to the degree of Bachelor of Science in Education, with a concentration in health, physical education, and recreation.

In addition, for all students enrolled in teacher education curricula at Savannah State College, this department provides basic training in supervision of one or more phases of a comprehensive health, physical education, and recreation program in the schools of Georgia. This phase of the work is provided either in selected specialized courses or in a minor sequence. Further, for all students enrolled at the college this department provides instruction in the fundamental concepts and activities of health, physical education, and recreation as an essential phase of general education.

Finally, this department serves the college community through instruction and leadership in the intramural program. The intramural program is, in effect, a laboratory in which students enjoy practicing the skills learned in general service courses and religiously competing with their peers.

It is not only the policy of the Savannah State College curriculum to train the mind but the college also offers a well-rounded program for the training of the body.

DIVISION OF HUMANITIES

FORREST O. WIGGINS, Ph.D., Chairman

The Division of Humanities, as its name implies, is concerned primarily with transforming the individual into a human and humane person. The technique for realizing this aim is that of serious study of the human heritage as it has been recorded in literature, music, art, and philosophy. In this manner the student deepens his appreciation, sharpens his intellect, enhances his critical powers, and incorporates himself in the mainstream of the best that has been thought and felt.

The Division of Humanities provides opportunities for majoring in English, music, the fine arts, French, and Spanish. The curricula in these areas are designed also to prepare teachers. Thus students who elect to teach become purveyors of the humanistic tradition. The College provides a means also for meeting the national need for persons trained in foreign languages. As future linguists and/or teachers, students have an unusual opportunity at Savannah State College. A strong faculty in modern language in addition to a recently installed laboratory assures the students the means of thoroughly preparing themselves in this area.

Forrest O. Wiggins, Professor and head of the division of humanities, lectures to students in one of several language courses.

THE DEPARTMENT OF FINE ARTS

MUSIC

In the area of music, the Department of Fine Arts at Savannah State College offers a major program leading to the degree of Bachelor of Science in Music Education and two minor programs—one for prospective teachers in the secondary schools and a nonteaching program. All of the curricula have been approved by the three national accrediting agencies—The Music Teachers National Association, the National Association of Schools of Music and the Music Educators National Conference, as well as by the State Board of Certification and the Board of Regents of the University System of Georgia.

Courses include intensive work in theory, history and literature, performance, applied music, conducting and music education. Although 75 hours are required for state certification, a total of 82 hours constitutes the four-year music requirement at the College. Previous training of at least two years in any applied area is required of all prospective majors, but skilled aptitude is recognized and accepted in lieu of this requirement if necessary. Most majors must pursue four years of training in piano, voice, or another instrument as well as the same amount of time in their applied major area. In addition to the music courses, all candidates for a degree take a large complement of courses in general education and the professional sequences.

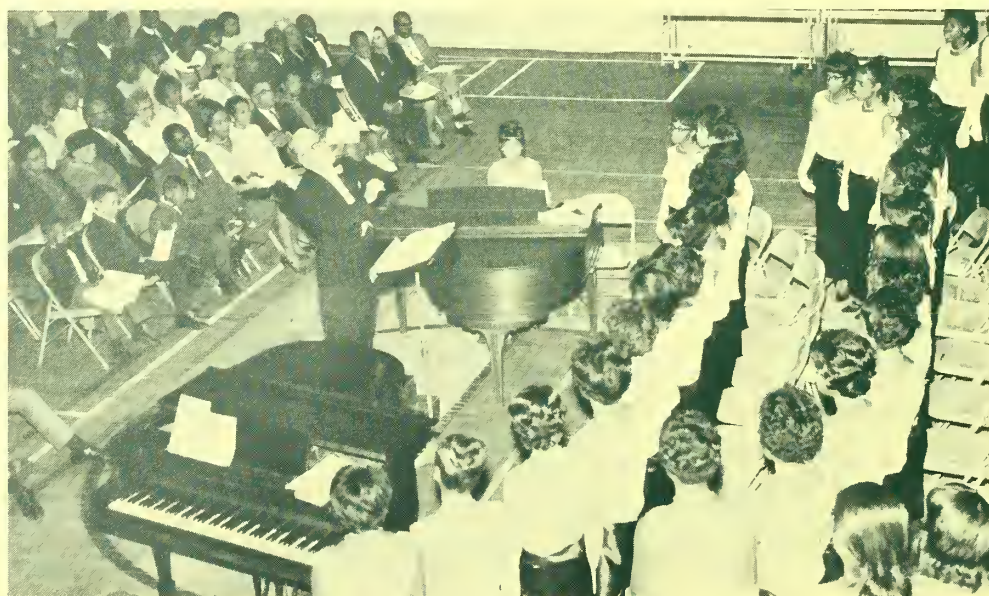

The five musical organizations—The Marching Band, The Concert Band, The Choral Society, The Women's Glee Club and The Men's Glee Club—are each directed by a full-time faculty member and provide ample opportunity for students inside and outside of the department to receive experiences in public performance which range from programs on the

campus at assemblies, church services, vespers, and special programs, to local television appearances, concerts in the community, athletic games away from home, and concert tours in several states.

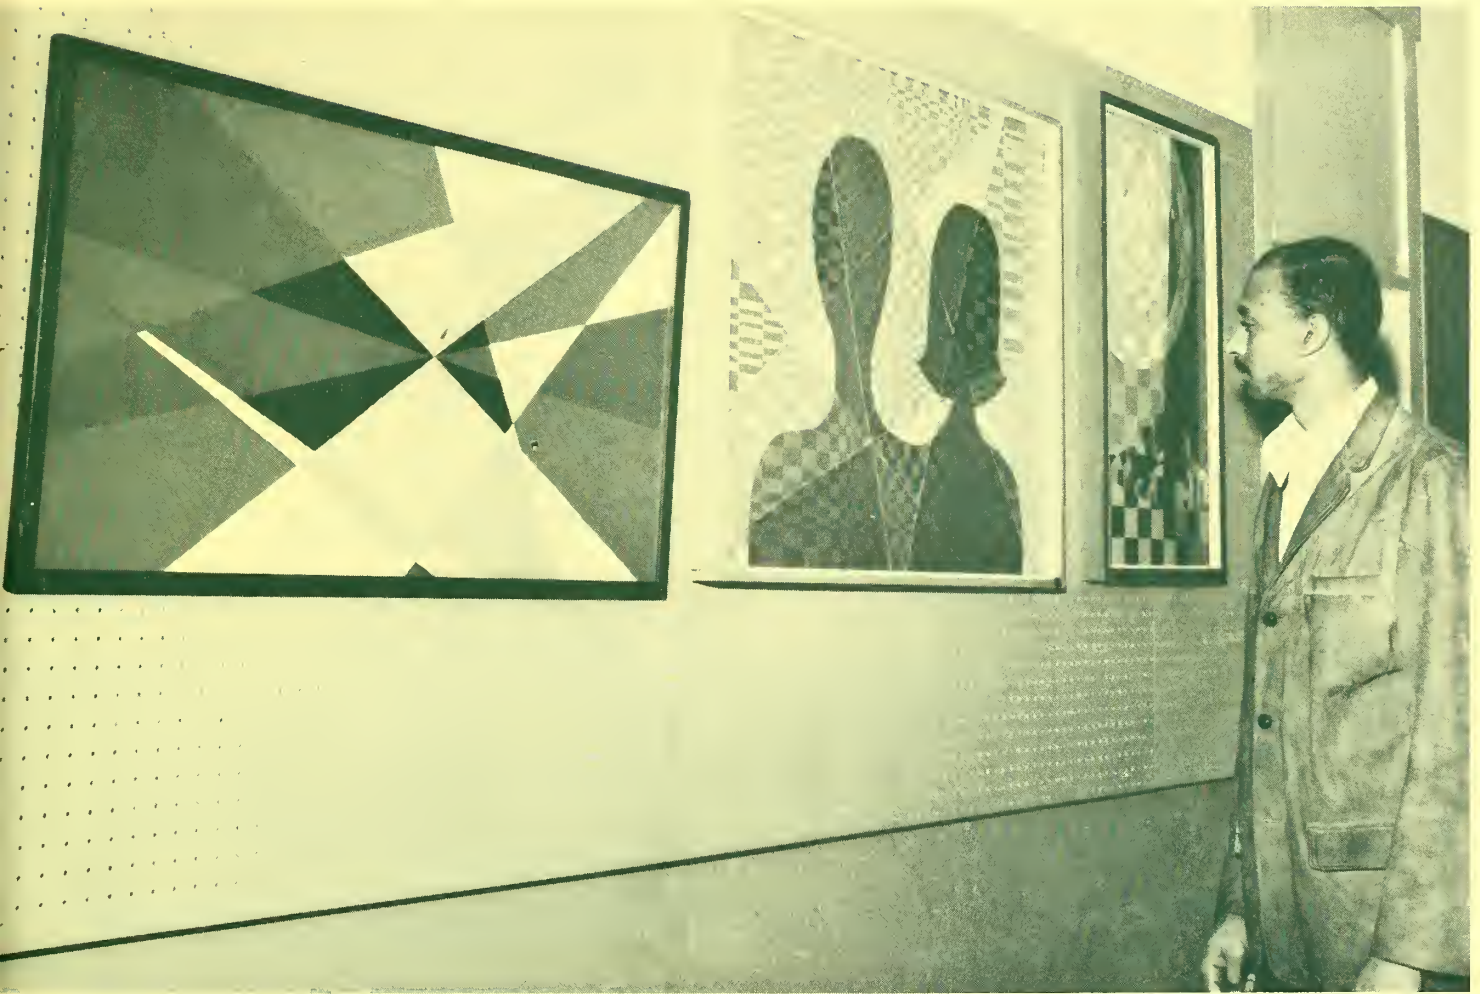

One of the most important operations in this department is the awarding each year of a number of scholarships, called grants-in-aid, which are given to capable, worthy applicants in all organizations upon recommendation of the department. Depending upon the aptitude, academic standing, and financial need of the student, these awards are sufficient at times to provide tuition for a full year. Grants are made, however, only to applicants who file the necessary forms, are recommended by the department, and are approved by the Committee on Scholarships. Recipients, encouraged to apply in the spring, are usually notified during the summer, well in advance of the opening of the Fall Quarter.

As for facilities, the Department at the present time occupies the entire third floor of Hill Hall and the Morgan Hall Annex, but plans have just been completed for the construction of a new Fine Arts Building which will house the entire Department. The present facilities provide space for classes, organizational rehearsals, practice periods, listening room, and offices. Pianos are provided for practice, and band instruments are provided, both without charge. Complete uniforms, robes, stoles, and blazers are also furnished to members of the various organizations.

For any additional information concerning the Department please feel free to address your inquiries to Dr. Coleridge A. Braithwaite, Chairman, Department of Fine Arts, Savannah State College.

Dr. Coleridge A. Braithwaite conducting the Savannah State College Choral Society. The group, composed of students from every academic discipline, is carefully screened and trained in musical technique.

SSC student, Lee Fluker, views with appreciation the paintings of fine arts student Paul Johnson.

The rewards can be great for a person with or without "artistic talent." To gain these rewards, one needs only the desire to learn and a good place in which to learn. The Art Department at Savannah State College provides students with an adequate environment for learning. If one has the desire, then one can progress at Savannah State College.

The Art Department is located in new quarters, specially designed and equipped with modern studios and lecture rooms being brought up-to-date, making it possible to teach the latest use of books and methods in lithography, etching, serigraphy, ceramic, sculpture, and painting.

Students who have studied art at Savannah State College have reaped many rewards. Some have won large sums of money in art competition. Some are enjoying the success of exhibiting their art at qualified galleries. One former student is in the Pentagon in Washington, D. C., where he is using the knowledge

of art acquired here. Others have successful careers as teachers of art. And, still others have gone on to more advanced studies in schools throughout the country.

Art students at Savannah State College occasionally have opportunities of getting first-hand experience, as a number of art jobs of short duration come into the Art Department. There are some jobs of a more permanent nature waiting to be filled.

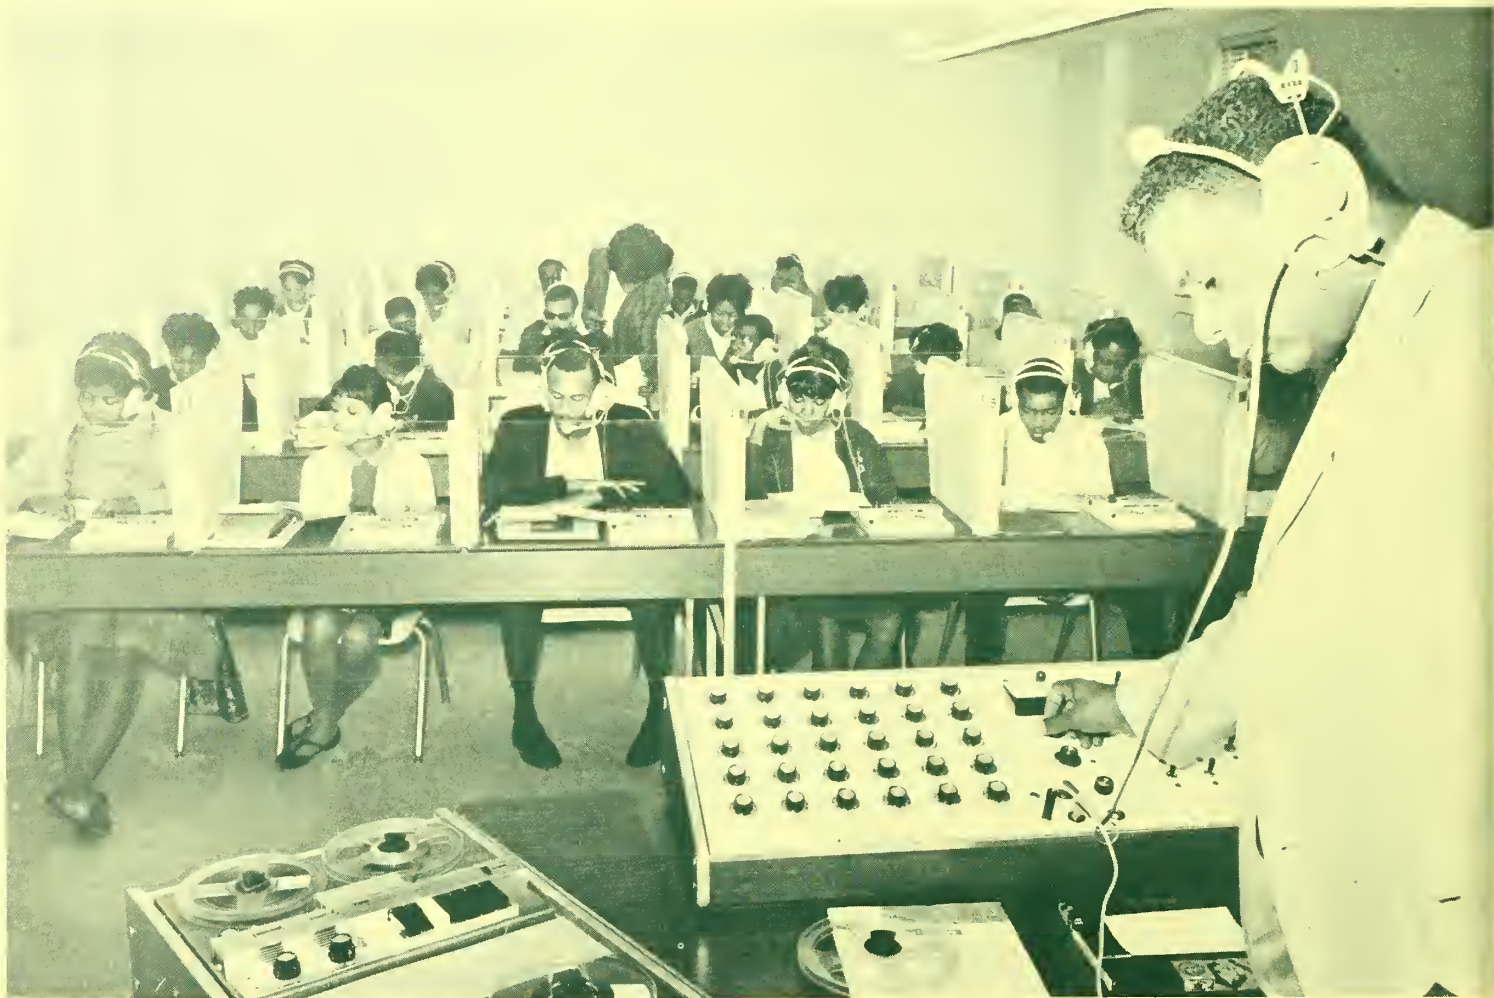

The Art Department is prepared and eager to help students in many ways. The rewards can be plentiful for those who are seeking; and when they acquire a Bachelor of Science Degree in Art Education, they will find that rewards other than salary, position, dignity, or fame await them. They may learn, ultimately, to enrich their lives with things which do not pass so quickly; for, to know and to be able to enjoy knowing is indeed a divine reward.

MODERN LANGUAGES

The Department of Modern Languages offers instruction in three languages: French, German and Spanish. The primary aim of the members of the Department is to teach the student to understand, speak, read and write these languages so that he may communicate with others who speak them. This instruction is carried on in daily recitations in the classroom and also in a modern twenty booth laboratory where the student can increase his proficiency by listening to and repeating exercises of various types especially prepared for this purpose. For students who wish to develop more than an elementary pro-

ficiency in French or Spanish, the Department offers courses leading to a minor in either language. It also offers courses leading to the degree of Bachelor of Science in Education with a concentration either in French or Spanish.

Outside of the field of education, a person with a major in a foreign language can find employment in several areas. First, there is the area of organizations more or less international in character. Because of the nature of its work, there is almost a constant demand at the United Nations Headquarters for men and women who are proficient in foreign languages.

The department of Modern Languages does not merely offer instruction but it also attempts to perfect students in the understanding, writing and reading of languages in order to communicate with others who speak them.

DIVISION OF NATURAL SCIENCES

BOOKER T. GRIFFITH, Ph.D., Chairman

The Division of Natural Sciences is proud of the record that it has made in helping young people find themselves in the scientific and mathematical world during the last quarter of a century.

DEPARTMENT OF BIOLOGY

Biology students observing professor Joseph Wortham dissecting animal.

The aims of the Department of Biology are (1) to provide for all students that knowledge which is essential to an understanding of the biological basis of living; (2) to train persons adequately through the media of advanced courses for entry into the professional study of dentistry, medicine, and nursing; (3) to prepare persons to teach the biological sciences in the secondary school or to continue study on the graduate level.

In addition to the required general courses, this department offers courses leading to the degree of Bachelor of Science with a major in biology. This department offers also a minor.

The Biology Department is proud of its achievements during the last several years. It takes great pride in reviewing the records of some of its graduates.

THE DEPARTMENT OF CHEMISTRY

The Department of Chemistry has grown by leaps and bounds in the past few years. The teaching staff, teaching space and equipment have been increased one hundred per cent.

The Department has been quite successful in obtaining funds from Chemical Societies and the National Science Foundation to sponsor several significant programs such as the In-Service Institute for teachers of Chemistry and General Science in secondary education and the Summer Science Program for selected high school students.

Many research projects are carried out by the students in cooperation with the department's active research program. The Department feels that research projects serve as good preparation for more highly developed and specialized research than the students will encounter in graduate school. The research program serves as an outlet of expression of the student's scientific interest and capabilities other than in the classroom and gives him experience in employing the scientific method in problem solving.

The Department of Chemistry provides basic training for higher education—work leading to the Master of Science and Ph.D. degree. In addition to this it provides all of the chemistry needed in pre-nursing, pre-dental and pre-medical education.

The curriculum has been revised so that the student will receive a substantial number of courses in mathematics, physics, and biology which will aid him in becoming a better Chemist.

The Department believes in creativity, freedom of exploration, productivity, hard work, and recreation.

Students do not only develop good relationship with their professors, but they also develop participation-relationships in research projects with professors. Dr. Charles Pratt and students discuss chemistry research findings.

THE DEPARTMENT OF MATHEMATICS AND PHYSICS

The operation of certain instruments is also taught to students in chemistry, mathematics and physics classes. Dr. Raut instructs student Jannie Singleton.

The Mathematics curriculum and courses are being continually revised to keep in step with the recommendations released by the School Mathematics Study Group in 1960. The textbooks, course outlines, and other materials are continuously being changed in order to meet today's challenge. The Physics courses are designed to give emphasis to the PSSC recommendations for college Physics.

The objectives of the department are not only to prepare better teachers of Mathematics and Physics, but also to provide them with the courses necessary to do further study in areas like linear programming and computing, statistical research, electronics, guided missiles, engineering, mathematics for various phases of industry research, actuary science and over twenty branches of governmental service.

DIVISION OF SOCIAL SCIENCES

ELMER J. DEAN, Ed.D., Chairman

The Division of Social Sciences offers two major programs for persons interested in the social sciences. Curriculum I leads to the B.S. degree in the social sciences with a concentration in history. Curriculum II leads to the B.S. degree in the social sciences with a concentration in sociology leading to the professional study of social work.

Persons who plan to teach social studies in the secondary school should enroll in the Teach Educational Program and pursue the B.S. degree in Education with a concentration in the social sciences.

Curriculum I is designed for persons interested in careers in: law, government, diplomatic service, general research, Young Men's Christian Association, and Urban League Work.

Curriculum II is designed for persons interested in careers as social workers, probation officers, vocational counselors, camp counselors, employment interviewers, juvenile court workers, welfare fund workers, and immigration service workers.

Dr. Reid instructing students in history class.

DIVISION OF TECHNICAL SCIENCES

CLYDE W. HALL, Ed.D., Chairman

The Division of Technical Sciences seeks to accomplish two major objectives: (1) to provide students with sufficient specialized training in engineering technology, technical home economics and industrial teacher education to meet entry employment requirements in these areas; and (2) to provide students with a broad liberal education which includes study in the general areas of communications, mathematics, the natural sciences, the behavioral and social sciences, and the fine arts.

In order to achieve the above objectives, the Division of Technical Sciences is organized into two departments which offer curricula leading to the Bachelor of Science degree. The Department of Engineering Technology offers programs in building construction technology, electronics technology, industrial arts education, mechanical technology and trade and industrial education, and the Department of Home Economics affords opportunity for students to major in foods and nutrition and institutional management, and textiles and clothing.

Individuals interested in careers in the technical sciences should be well grounded in the applied sciences. Such high school subjects as physics, algebra, plane geometry, trigonometry and industrial shop are very desirable for persons planning to pursue engineering technology curricula, and chemistry and home-making are essential for those interested in technical home economics.

Students entering the home economics program get actual experiences by working in close relation with their instructors.

Instructor (third from left) and students examine new developments in technology at technical science fair.

DIVISION OF HOME STUDY

E. K. WILLIAMS, Ed.D., Director

The Division of Home Study encompasses instructional programs in Business Administration, Economics, Education, English, Geography, Government, History, Humanities, Mathematics, Psychology, Social Science, and Sociology. These courses are offered for those persons who are interested in furthering their education, but are unable to do so in residence.

The Home Study Department is authorized to operate the following programs:

1. College Correspondence Study
2. Extension Classes

There are students enrolled in these courses living in all parts of Georgia, Florida, South Carolina, and Alabama; and we have students registered from New York, New Jersey, Washington, D. C.

The Home Study Department is directed toward two objectives: The first is to provide a service for those persons who cannot undertake residence instruction, and the second is to provide an enriching program for those who do not require residence instruction for personal growth and enrichment.

Extension classes are provided upon sufficient demand.

For information concerning credit, fees, examinations, textbooks, etc., you may write to: The Division of Home Study, Savannah State College, Savannah, Georgia.

Students are given adequate time and instructions in preparing for examinations.

ACTIVITIES

Savannah State College puts great emphasis upon a rich and varied religious life program. Through its religious activities, the College seeks to develop an understanding of and an appreciation for the place of religion in everyday living, to deepen spiritual insight, and to make the practice of Christian principle a vital part of the life of the well educated citizen.

Religious life activities are directed by the College Minister. The Sunday School, Y.M.C.A. and Y.W.C.A., the Newman Club, and the annual Religious Emphasis Week provide opportunities for religious growth and development under the supervision of the Religious Life Committee.

Savannah State College contributes to the attainment of a well-rounded education by providing many opportunities for students to participate in a wide range of organized groups. Programs are planned for the social, religious, and cultural advancement of the college community.

The Savannah State College Student Association, composed of representatives of all classes, works with the administration in the government of the College. It works also with the various campus organizations and sponsors projects for the general welfare of the student body.

The Tiger's Roar, official student newspaper, is published every six weeks by students under the supervision of the Public Relations Office.

The following organizations also provide media for expression of student interest: Art Club, Business Club, Camera Club, Collegiate Counselors, Creative Dance Group, Debating Club, Dormitory Councils, Economics Club, Newman Club, Savannah State College "Players by the Sea," Social Science Club, Student Loan Association, Tiger's Roar, Trade Association, Usher's Club, Varsity Club, Future Teachers of America (NEA), Home Economics Club, Veterans' Club, Y.M.C.A., Y.W.C.A., Women's Council, Boar's Head Club, Canterbury Club, and Tiger, student yearbook.

The following national social fraternities are organized on the campus: Alpha Phi Alpha, Omega Psi Phi, Phi Beta Sigma, and Kappa Alpha Psi.

The following national social sororities are organized on the campus: Alpha Kappa Alpha, Sigma Gamma Rho, Zeta Phi Beta, and Delta Sigma Theta.

The national honor societies, Alpha Kappa Mu, Beta Kappa Chi, and Alpha Phi Gamma, have chapters on the campus.

The Department of Health and Physical Education conducts a well-rounded intramural athletic program of seasonal activities for men and for women. Utilizing group games and various sports for their full educational values, the program features football, basketball, track and field hockey, and badminton.

A member of the Southern Athletic Conference, Savannah State College maintains competition in all sports sponsored by the conference.

The College also holds membership in two national athletic associations, N.C.A.A. and N.A.I.A.

To complement formal education on the campus, the college provides many activities for cultural enrichment. Student assemblies, institutes, motion pictures, lectures, art exhibitions, dramatics, forums, athletic contests, hobby groups, and tours contribute to the general welfare of the community.

Georgia's Governor, Carl E. Sanders, addressing students and faculty at an all-college assembly program for the dedication of six buildings on the college campus.

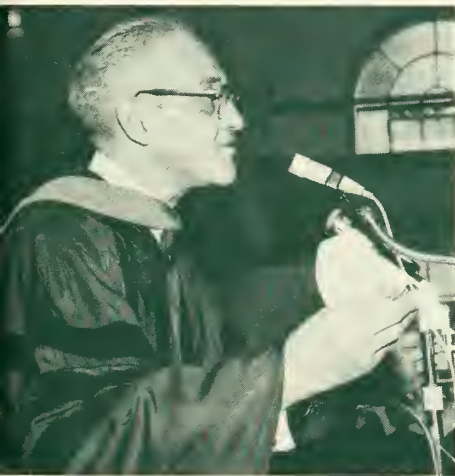

SSC, bound in a tradition of close college-alumni relationship, Dr. Howard Jordan, Jr., College President, accepts alumni gift to college from national alumni president Mrs. Josie B. Sessoms.

SPOT LIGHTING EVENTS

Students participating in college assembly program with college president and distinguished guests.

Raymond Pace Alexander, Judge of Common Pleas Court, Philadelphia, Pennsylvania.

Pianist Samuel Dilworth-Leslie.

Dr. George L-P Weaver, Assistant Secretary of Labor for International Affairs.

Karl Shapiro, noted Pulitzer Prize Poet.

Eric Moon, Editor of the LIBRARY JOURNAL, receiving the Savannah State College Library Award.

GENERAL INFORMATION

How to Get In

Persons who are at least fifteen years of age and who present evidence of good moral character, adequate ability, sound health, and interest in a specific course of study are eligible for admission to the several departments of the College.

Each candidate for admission is required to make formal application and thereafter submit such credentials as may be needed to support the application. Admissions correspondence should be addressed to the Director of Admissions. The application form with instructions may be obtained by writing the Director of Admissions. Inquiries should be made immediately.

Estimated General Expenses

For One Academic Year of Three Quarters

NOTE: Fees remitted by mail should be sent by money order, cashier's check, or certified check payable to SAVANNAH STATE COLLEGE. Fees paid in person will be accepted in cash, money order, cashier's check, or certified check.

	Per Quarter	Per Year
Matriculation Fee	\$ 85.00	\$255.00
Health Fee	5.00	15.00
Student Activity Fee	15.00	45.00
Student Group Insurance (voluntary)		
Total Charges—Day Student ..	*\$105.00	*\$315.00
Room, Board and Laundry	187.00	561.00
Total Charges—		
Boarding Students	*\$292.00	*\$876.00

The above table includes basic fees only. Other charges are assessed where applicable. Please see "Explanation of Fees." All matriculation charges, board, room rent, or other charges are subject to change at the end of any quarter.

Normal cost of books and supplies approximates \$30.00 per quarter. Students are required to secure all books, sup-

plies, and tools necessary for satisfactory completion of the courses for which they are enrolled.

All fees are due and payable at the time of registration. Students are required to meet financial obligations promptly. Persons granted scholarship or work-aid assistance will be duly notified in writing, and money accruing from these sources will be credited to their accounts.

Veterans coming to Savannah State College should bring with them sufficient funds to pay all fees as indicated on the Schedule of Fees.

Self Help Opportunities

Worthy and industrious students may help to meet college expenses through part-time employment, provided they maintain satisfactory scholastic averages. These work opportunities include such jobs as clerical and stenographic work, library work, waiting tables, washing dishes, pantry and kitchen work, skilled and unskilled work in the several trades and in maintenance.

Scholarships

A limited number of special scholarships are available to selected students who meet the required standards of scholastic merit, high character, general promise, and superior achievement in certain specific areas of the college program.

The aim of the National Defense Student Loan Program is to create at American Colleges and Universities loan funds from which needy students may borrow to complete their higher education. Students interested in National Defense Loan Funds, should write Chairman of Student Personnel Service, Savannah State College, Savannah, Georgia.

* Freshmen and Entering Students pay an additional \$10.00 General Deposit required of all students upon initial registration in any unit of the University System. In keeping with the vote of the student body in May, 1962, each student will be assessed a \$6.00 Yearbook Fee due and payable at Fall Quarter Registration or the student's initial registration. Please refer to the current college catalogue for a complete schedule of fees.

FROM THE ALUMNI
 PRESIDENT'S DESK

Dear Fellow Alumni:

As we near the end of another year it is altogether fitting and proper that we pause and review our activities in order to determine whether we have made progress toward our goals as we had hoped or need to speed up our actions. How has it been with you?

- (1) Have you sent in your Chapter roster and include the address, or your own name and address?
- (2) Have you completed and mailed the questionnaire which required so much time and postage to get out to you?
- (3) What about your Chapter meetings and activities? Your dues? Your scholarship donations?
- (4) Have you given your cooperation for the development of the kind of Chapter and Alumni Association you would be proud to claim as yours?

If you cannot answer yes to the above questions you have allowed things to pile up on you. Please take time to catch up. We need every Alumnus and every Chapter. To be a "Has Been" is an improper title for any Alumni of Savannah State. There is a new Chapter!! It is the Chicago Chapter. Isn't that wonderful? Can't give you details yet, but Congratulations and Best Wishes to them and a great big welcome from us all.

I regret that all of our Alumni could not attend the dedication of the six new buildings. There were many of faces and friends to be seen from far and near. It was thrilling to witness, one seemed to hear a small voice with saying "Savannah State College has been remembered last," and you wanted to play in the water to be sure you had a real swimming pool. For all of this we should be very proud and grateful. We should also be more determined to do our share for this is a great challenge to the Alumni of Savannah State College. Let us not forget our responsibility to our Alma Mater at this time when a strong Alumni group is needed. We have made progress but not enough. We have organized in three districts and last year were able to provide enough funds to assist in matching all funds allotted by the NDEA Scholarship Fund and to take advantage of Youth Corps Work Program. However, there is still much assistance needed for the Grant-in-Aid Program. With Armstrong State College also in Savannah, Savannah State College needs all of our support, now more than ever, moral and financial.

The Classes of 6's will be eligible for reunions this June. The Class of 1936 is planning a reunion and would like to hear from all members. Address mail to Mr. Prince Mitchell, Alumni Secretary, Savannah State College, Savannah, Georgia. Please write immediately.

An anonymous donor (not an alumnus) has offered to give \$1,000 or several thousands of dollars toward the Alumni Guest House which would also house Alumni Offices, whenever we decide to take up such a project. Think about it, and talk about it; we will get your reactions later.

We were saddened by the recent death of Mr. James Luten, late Principal of Tompkins High School, Savannah. The Alumni Association had space on the Funeral Program which was held Monday, March 28 at Speedwell Methodist Church, Sandfly.

Miss Lula Smith, our oldest Active Alumna, is ill; send her a card—518 East Henry Street, Savannah, Ga.

My sincere thanks to each person and Chapter for your cooperation. Come, let us join hands and pull together for

(Continued on Page 6)

New Placement Service Available To Alumni

According to N. R. Freeman, Placement Director, Savannah State College, in cooperation with College Placement Council, Inc., is making a new service available to SSC alumni. The purpose of this new service, known as the Graduate Resume Accumulation and Distribution (GRAD) system, is to make the qualifications of applicants known to thousands of prospective employers through the use of electronic data processing.

An alumnus interested in finding new employment communicates directly with the Savannah State College Placement Office. If the Placement Officer feels that the GRAD program will be of value to the individual in question, the candidate is given an instruction sheet and a four-page resume form. The alumnus has the resume completed and neatly typed since it will be photo-copied in its original form for distribution and sends it to the College Placement Council, Bethlehem, Pennsylvania, with a \$10.00 service fee. At the data center of the Council, each resume forwarded by an alumnus is analyzed both in terms of present and most recent employment and of previous experience. Twenty-one key factors are extracted from the information and entered into an electronic file. The original resume is microfilmed to be retrieved almost immediately upon receipt of an employer's request.

In many respects similar to the electronic systems which enable airline ticket offices to determine the availability of flight reservations, the GRAD system permits a search to be conducted in seconds. In a typical use, an employer may inquire for applicants on the basis of six or eight selectors—all in English since the system does not require codes. Hardly has his question been completed on the teletype when the machine reports that 83 alumni whose qualifications are in the system meet his specifications. The inquiry is restated with more stringent requirements and the number of qualifying applicants now drops to 17. If the employer is satisfied, an order is then typed to send resumes on the chosen candidates.

The use of the GRAD system is not available to just anyone. Since its designers were aware that misuse of the system for "looking-around" or job-hopping would detract from its value to employers, Placement Directors must

endorse each resume and attest to the fact that the applicant has received a four-year degree or higher. The resume remains in the active file for six months. If the alumnus has received a job while a resident in the file he may not return to the GRAD system for a full year. Those deleted from the file at the end of six months are advised as to the number of times their resumes were referred. In instances where alumni have been residents in the electronic file for six months and have attracted no offers, it is recommended that they communicate with their Placement Officer for suggestions as to the shortcomings which may be affecting their candidacy.

Special provisions have been programmed into the GRAD system whereby the applicant's current employer is blocked electronically from receiving resumes. Employers may make their electronic search of selector factors in terms of state of residence but not of city. Thus, the geographical selector does not reveal the present employer accidentally when the applicant is a resident of a "one-industry" town. Further confidentiality is provided by maintaining only in the College Placement Council data center file the names and addresses of alumni applicants and the identity and addresses of participating employers. In practice, each resume will be studied first to extract the most inclusive job descriptor. It will then be further assessed to determine 21 additional selector elements. Major items among these include: state of residence, marital status, major fields studied in college and type of degree received, class rank, present and required salary, area of job interests, geographic preference, language proficiency, and several others of lesser importance. Any combination of these may be used by the employer in making his search.

Some of the areas of study being considered are concentrations of employer interest in terms of specific qualifications, supply and demand by various classifications, salary trends, etc. Thus, the project not only places opportunities of an unparalleled scope before the alumnus but promises to make his Placement Office a prime information center for real manpower statistics. Perhaps equally important, the college will have available and sensitive to its own needs a manpower tool made possible by the latest developments in electronic data processing.

SSC Honor Societies Cited at President's House

College Gets Grant For OEO Project

The Office of Economic Opportunity approved a \$144,252 grant to Savannah State College for use in Project Upward Bound. The purpose of the program is to encourage students to continue their education on the college level.

Upward Bound, planned for June 20-August 12, will involve 100 boys and girls who are residents of Chatham County; have completed the tenth and eleventh grades; and meet the criteria for admission according to the guidelines established by the Office of Economic Opportunity.

During the period between September 17, 1966, and May 27, 1967 (33 Saturdays) curricular and co-curricular experiences will be provided for the 100 students.

Throughout the year students will receive intensive instruction in communication skills (reading, writing, speaking, and listening), mathematics, and in Great Issues. During the summer session one and a half hours will be allotted daily on a five-day weekly basis in each section of communication skills and mathematics. One hour daily will be given to classroom guidance and instruction on a three-times-a-week basis for "Great Issues" instruction, although there will be additional informal "get-togethers" with students. There will be approximately twelve students for every teacher in classroom activities. Classroom instruction will be confined to the morning hours and it will be largely initiated out of the experiences of the students.

During the afternoons of the summer session co-curricular experiences in music, art, drama, and dance will be provided along with such recreational activities as swimming, tennis, volley ball, and badminton. These will not be required, but students will be encouraged to participate in some of the activities. Various hobby groups will be promoted by the special events director with the assistance of tutor-counsellors. Principally in the evening hours of the summer session, students who desire special tutorial assistance will be aided by dormitory counsellors.

Various cultural experiences and field

trips will be provided for the participants throughout the school year. It is expected that the students will attend various cultural events which are sponsored on the campus.

Wilbur C. McAfee, Associate Professor of History, Savannah State College, will direct the program. Mr. McAfee has been associated with Savannah State College for the past three years. He has taught for sixteen years on the elementary, secondary, and college levels. Between 1960 and 1962, he was principal of the Horace Mann School in Blue Lake, Illinois. Prior to coming to Savannah, he served on the faculty of Southern University in Baton Rouge, Louisiana. Mr. McAfee obtained the B.Ed. degree at Southern Illinois University and the M.A. degree at the University of Illinois. He has completed most of the requirements for the Ph.D. degree at the University of Illinois.

A secretary, clerk-typist, chief counsellor, two dormitory counsellors, special events director, twelve instructors, and eleven student assistants will be associated with Mr. McAfee.

Mr. McAfee and his staff will work closely with the Economic Opportunity Authority for Savannah-Chatham County Area, Inc., and representatives of Armstrong State College, the Chatham County Board of Education, and the Savannah community in carrying out the objectives of the proposal. He and his staff will be advised by an Academic Policy Committee which consists of representatives of Armstrong State College, Savannah State College, and the Chatham County Board of Education. An Academic Policy Committee will give overall direction to the Upward Bound Program. Members of the Academic Policy Committee are Dr. Howard Jordan, Jr., President, Savannah State College, Dr. Henry Ashmore, President, Armstrong State College, Mrs. Ida Mack, Chairman, Chatham County PTA Council, Dr. Thord Marshall, Superintendent, Chatham County Board of Education, Sidney Raskin, Chairman, Economic Opportunity Authority, and two additional community leaders will be selected.

President Howard Jordan, Jr. enjoys remarks being made by Florida A & M University official.

First Ladies meet at Tallahassee, Florida. Mrs. Howard Jordan, Jr. of Savannah State College, and Mrs. George W. Go of Florida A & M University.

Dr. Edward Brice, Assistant to Assistant Secretary of Health, Education and Welfare, addresses SSC Press Institute.

Publications Receive Awards

Five of the College's publications received awards at the 42nd Annual Convention of the Columbia Scholastic Press Association. The convention was held at Columbia University in New York City. Listed below are the names of the publications and their ratings.

1st Place—TIGER'S ROAR

1st Place—SSC Bulletins (Homecom-

ing, Alumni, and Student Information)

1st Place—ALUMNI NEWSLETTER

2nd Place — PACEMAKER (produced by delegates of the Press Institute)

2nd Place—JOURNALIST (produced by participants in the Journalism Workshop)

Eight Religious Studies Fellowships For Summer

The Frank L. Weil Institute for Studies in Religion and the Humanities announces the availability, again in 1967, of eight (8) summer fellowships, \$2,200 each. The summer fellowships are available for post-doctoral faculty members to work on a publishable paper in the humanities (literature, art, history, philosophy, etc.) dealing with religion; the committee will not entertain papers dealing with religion only in the humanities only.

The main purpose of the grant is to enable the recipient (preferably in the lower academic ranks—Instructor and Assistant Professor) to forego teaching summer school so as to be able to further his research or writing, in connection with his paper, at a location of his choice. The paper should be an entity in itself and not a segment of a book, although it may eventually be incorporated in a book.

Application forms may be secured from the Weil Institute, Hebrew Union College-Jewish Institute of Religion, 101 Clifton Avenue, Cincinnati, Ohio 45220. The last date for submission of an application is October 1, 1966. Awards will be announced in November, 1966.

Federal Employment Opportunities

The Atlanta U. S. Civil Service Regional Office is accepting applications for Accountant and Auditor positions paying \$7,479 a year.

Applications will be accepted until the needs of the service are met. A written test is not required of applicants who qualify on the basis of education. Positions to be filled are located in the states of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee and Fort Campbell, Kentucky.

Application forms or information as to where such forms are available can be obtained from any post office (except the Atlanta, Georgia post office) or from the Atlanta Regional Office, U. S. Civil Service Commission, Merchandise Mart Building, 240 Peachtree Street, N. W., Atlanta, Georgia 30303. (To apply in person, call at the information desk, Federal Office Building, 275 Peachtree Street, N. W., Atlanta, Georgia.)

Further information and applications may be obtained from: Examiner-in-Charge, Board of U. S. Civil Service Examiners, Room 109, Main Post Office Building, Savannah, Georgia.

Willcox-Wiley Physical Education Complex

Willcox-Wiley Health and Physical Education Complex, one of the new constructions on Savannah State College campus, named in the memory of Professor Cyrus G. Wiley, second president of the College.

The infirmary on campus is now W. A. Harris Infirmary, named in memory of the late W. A. Harris, a local physician.

J. L. Lester Hall is named in memory of Miss Janie L. Lester. She served the College for more than 25 years as a teacher and as Dean of Women.

William Weston To Speak At Alumni Banquet

William N. Weston, a 1956 graduate of the College, will be the speaker for the Savannah State College National Alumni Association's Banquet on May 28. The banquet will be held on the campus. Classes ending in six will hold a reunion at this time.

Mr. Weston is a native of Savannah, and was educated in the local public school system. He served in the U. S. Air Force prior to entering Savannah State College.

After graduation, he was employed for a very brief period as a mathematics instructor in Liberty County, Georgia. Presently, he is employed as a Mathematician by the U. S. Naval Observatory, Washington, D. C.

He was transferred to NASA, Goddard Space Flight Center, Greenbelt, Maryland, as a Mathematician-Programmer. He served as a Group Leader for the Spacetask Track Input Analysis and Prediction Group.

Mr. Weston currently holds membership in Eureka Lodge No. 1, Savannah (Masonic Order); Washington, D. C. Chapter, SSC National Alumni Association; Alpha Nu Chapter, Alpha Kappa My (Savannah State College); and AAAS and ACM (professional associations).

In 1965, he was cited for rendering distinguished tutorial service to the "Future for Jimmy" program in Washington, D. C.

He serves as First General Assistant Superintendent of the Sunday School of Metropolitan Baptist Church in Washington, D. C. He is a former member of First Bryant Baptist Church, Savannah, Georgia.

Mr. Weston is pursuing special

President's Desk

(Continued from Page 2)

a greater Savannah State College, and a stronger Alumni Association numerically, morally, and financially. ASK NOT WHAT YOUR COLLEGE CAN DO FOR YOU BUT WHAT YOU CAN DO FOR YOUR COLLEGE.

Hope to hear from you soon. Hope to see you in June.

Sincerely,
Josie B. Sessoms, President
National Alumni Association
Savannah State College

George E. Varnedoe

Melvin B. Tolson Opens National Library Week

The distinguished American poet, Melvin B. Tolson, opened the celebration of National Library Week on the Savannah State College campus, with a lecture in the College Library on Sunday, April 17.

Born in 1900 in Moberly, Missouri, Melvin Beaunorus Tolson was educated at Fisk, Lincoln, and Columbia Universities. One of his long poems, "Dark Symphony," won a national poetry competition conducted by the American Negro Exposition at Chicago in 1940. Four years later his first book, *RENDEZVOUS WITH AMERICA*, was published. In 1947 he was named Poet Laureate of Liberia by that republic's President, William V. S. Tubman, who later decorated him with Liberia's highest award, the Star of Africa. For the Liberian Centennial and International Exposition in 1947, he was commissioned to write the *LIBERETTO FOR THE REPUBLIC OF LIBERIA* (1953); a section of this poem was published by *POETRY* (Chicago) in 1950. *POETRY* also awarded Mr. Tolson its annual Bess Hokin Prize in 1951 for his poem "E. & O. E." and published his poem "The Man From Helicarnassus" in its 40th Anniversary Issue of October 1952, which contained only solicited works. Mr. Tolson's latest book, *HARLEM GALLERY: BOOK I*,

studies at the University of Maryland, College Park, Maryland.

THE CURATOR (1965) is the first volume of a longer work, now in progress, the theme of which is to be the history of the Negro in America.

In June 1965 Mr. Tolson retired from Professor of Creative Literature at Langston University in Langston, Oklahoma, where he had been a member of the faculty since 1947. There he not only directed the university's Dust Bowl Theatre for many years but also served four terms as mayor of the city. For the academic year 1965-66 he occupied the Avalon Chair of the Humanities at Tuskegee Institute. Mr. Tolson and his wife have four children.

When Dr. Tolson was honored on the occasion of his retirement as Professor of English at Langston University last June, Karl Shapiro journeyed to the campus to praise Tolson's contributions to American letters. Had Robert Frost still been alive, he too would have been present, for he had expressed a desire to honor Dr. Tolson at Langston. All Tate, John Ciardi, and Stanley Hymowitz are also among Dr. Tolson's admirers.

Among his many achievements, Melvin B. Tolson was given an honorary doctor of letters degree from Lincoln University of Pennsylvania. Last fall he had the distinction of a request to read selections from his work before an invited audience in the Library Congress.

All Savannah poetry lovers were invited to hear this distinguished man read letters.

George E. Varnedoe, '51, Receives Honor

George E. Varnedoe, a 1951 graduate of the College, is listed in "Who's Who of the South and Southwest," volume one, 90th edition, 1965-66, page 947.

Mr. Varnedoe has been a Counselor at the Wayne County Training School, Milledgeville, Georgia, since September 1959, and was assigned full-time beginning the school year 1965-66.

He has done post graduate work at Atlanta University, and is currently writing his thesis for a Master's degree in guidance and counseling. He hopes to receive the degree in June or August of this year.

Mr. Varnedoe is a member of the following organizations: American Personnel and Guidance Association; Wayne County Teachers Associations; N.E.A.; and Georgia Teachers and Education Association (serves as Treasurer for the region XI guidance department). He is a Steward in the First ME Church, and a Mason. Since its formulation six years ago, he has been the advisor for the Explorer Scouts, Post 607.

He is married to the former Miss Lena Belle Wynn, and the father of four children. They reside in McIntosh, Georgia.

Nelson R. Freeman Receives Summer Intern Fellowship

Nelson R. Freeman, SSC Dean of Students and Placement Director, has received a Summer Intern Fellowship from Chas. Pfizer & Company of New York for the period June 13, 1966, to August 5, 1966, according to Dr. Howard Jordan, Jr., SSC President. Freeman will work in the Corporate Relations Division where he will have a chance to participate actively and observe their overall operating procedures.

The purpose of this program is to acquaint the College Placement Officer with various Corporate operating procedures and to establish a College-Industry relationship for job opportunities for quality graduates of Savannah State College.

Pfizer & Company is one of the largest manufacturers of pharmaceutical products in the world. Their work involves research, manufacture and sale of pharmaceuticals, chemicals, minerals, pigments and metals, veterinary and agricultural formulations, proprietaries, toiletries, cosmetics, and fragrances. The company was established in 1849 and employs 28,000 people with plants located throughout the United States and in about six foreign countries. The net assets of the company exceed 340 million dollars and their sales in 1965 exceeded 500 million dollars.

Civil Service

The Board of U. S. Civil Service Examiners, U. S. Army Missile Support Command, Redstone Arsenal, Alabama, has issued an examination announcement for Pharmacist, GS-7 and GS-9.

The examination announcement was issued on March 17, 1966, and is open continuous. This register will be used for filling vacancies at the U. S. Army Missile Command, U. S. Army Missile Support Command, U. S. Army Missile Munitions Center and School, Nike-X, and the George C. Marshall Space Flight Center, Redstone Arsenal, Alabama. Similar positions in other Federal agencies in the States of Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee may also be filled from this announcement when no appropriate examination for the specific position is announced.

The salary for Pharmacist, GS-7 is \$6269 a year; GS-9, \$7479 a year.

To qualify for these positions, applicants must possess the experience requirements as set forth in Announcement No. AT-35-13(66).

All qualified applicants will receive consideration for employment without regard to race, creed, color or national origin.

Application Form 57 will be accepted until the needs of the service are met and must be sent to the Board of U. S. Civil Service Examiners, U. S. Army Missile Support Command, Redstone Arsenal, Alabama.

COLLEGE AIDES HONOR GULF—Daniel G. Kean (second from left), Public Relations Representative of the Gulf Oil Corporation, receives a plaque from Thomas D. Dooley of the National Association of College Deans & Registrars, honoring Gulf "for its many contributions to the administration of higher education."

Plaque for "Distinguished Service to Education" is presented to Charles Pintchman (center), Assistant Director of Public Affairs for the Reader's Digest of Pleasantville, N. Y., by Wilton C. Scott, Director of Public Relations at Savannah State College, Savannah, Ga.

TEACHERS OF THE YEAR

Mrs. Eldora S. Green

Mrs. Eldora S. Green has been selected by her co-workers as "Teacher of the Year" of Moses Jackson School. This is the second time Mrs. Green has been so selected, having been selected by East Broad Street School when she taught there, as its Teacher of the Year.

Anyone knowing Mrs. Green can easily see why her co-workers regard her so highly. She is a teacher of the highest calibre, both professionally and academically. When she is at school, teaching comes first with her. She is truly a dedicated teacher. Her Principal often remarks that she places her with the top ten of the teaching profession.

Mrs. Green is the daughter of Mrs. Emily Stevens, and the wife of Mr. Joseph Green, Principal of Alfred E. Beach High School. She has one son, Joseph Green, Jr.

Mrs. Green has prepared herself well for her chosen profession. She received her early education locally. She earned her B.S. degree at St. Augustine's College, Raleigh, N. C. She has attended several local workshops and also a workshop conducted by the Association for Student Teaching at the University of Puerto Rico at San Juan. She has done advanced study at Atlanta University, Atlanta, Georgia.

Mrs. Green is a co-operating certified supervising teacher with the Teacher Education Program at Savannah State College.

Travel has been a great part of Mrs. Green's broadening experiences. She has visited many parts of the United States, Canada, and Mexico. One summer she did "island hopping" around the Caribbean. She says it was quite rewarding because it gave her a keener insight relative to the ways of life in many places. The experiences gained from her travels have been invaluable to her in her classroom situations.

Educationally and socially Mrs. Green has many affiliations. She is a member of Delta Sigma Theta Sorority, and a communicant of St. Matthew's Episcopal Church.

At present, Mrs. Green is very excited over her agenda for the coming summer. She has just received confirmation of her reservations for a tour of the Orient. Many interesting places will be visited by her. She expects to return with broadened horizons because of her many exciting experiences this summer.

James Sheppard

The faculty of John W. Hubert Junior High and Elementary School chose James Sheppard as its "Teacher of the Year." For the past four years he has served as an instructor of mathematics at Hubert. He has attended a Mathematics Workshop at Savannah State College, and is currently enrolled in a data processing course at the same institution. He presently serves Hubert School as a ninth grade co-ordinator, co-chairman of the Textbook Committee, chairman of the Budget Committee, and Parliamentarian of the P.T.A.

The honoree holds membership in the NEA, ATA, GTEA, and Kappa Alpha Psi Fraternity, Inc. He is very sports conscious and works with the Frank Callen Boys' Club, and the Chatham County Little Leaguers.

Mr. Sheppard is an Army veteran, having spent 18 months in Korea. He was discharged with the rank of sergeant.

He is married to the former Miss Mercida Walls, and is the father of two sons, Marion and Timothy.

Mrs. Magdalene H. Brown

Mrs. Magdalene H. Brown was chosen as "Teacher of the Year" for Pearl Lee Smith School, because she has exhibited at all times, sincerity, dedication, and conscientiousness toward her pupils, parents, and co-workers.

Mrs. Brown received her early education in the Catholic Schools. Later, she was the recipient of the Bachelor of Science degree in Elementary Education from Georgia State College, and the Master of Arts degree from Columbia University. She has done further study at the University of Minnesota and Atlanta University. She is a communicant of St. Benedict's Church.

She is very versatile in her educational training, and is certified in elementary education, foreign languages, special education, science, dramatics, and art.

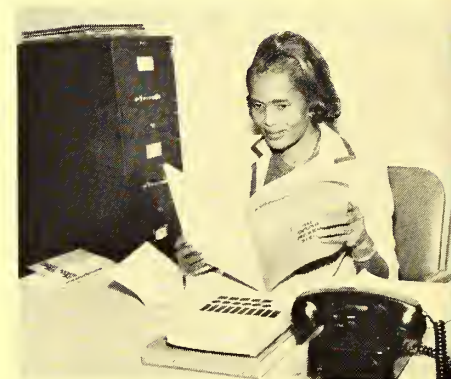

Her long experience in the teaching field has given her a wealth of knowledge that has aided the numerous pupils that have been under her supervision.

Mrs. Brown believes in continuous growth. She has had vast experiences in travel. She has traveled to California, New York, Michigan, the northern and southern routes going to California, Bermuda, Mexico, Texas, Florida, and states along the Atlantic Coast.

Alumna Directing First Head Start Program In Savannah-Chatham County

Mrs. Janette B. Hayes

George Weaver, Assistant Secretary of Labor for International Affairs, delivering speech at NAACP Convocation in Wiley Gymnasium.

Miss Jeanette Perry, graduate of Savannah State College, is newly appointed Assistant Attorney General for the state of New York.

Mrs. Janette B. Hayes, native Savannahian, Principal of Jackson Elementary School, was accorded the privilege last year of directing the first Head Start Program in Savannah-Chatham County. She was appointed to this position by the local Board of Education. The classes and faculties of the schools involved were integrated, which was a first in public education for this deep South city.

The very excellent job done by Mrs. Hayes and her staff with the Head Start Program was acknowledged by all concerned with it. This program was in the nature of a pilot program, and laid the ground work for other successful programs to follow.

Mrs. Hayes obtained her early education in our local public schools. She attended and was graduated from the Philadelphia High School for Girls, Philadelphia, Pa. She received her normal diploma from Savannah State College, then Georgia State College, later returning there and earning the B. S. degree.

Mrs. Hayes is a life member of the National Education Association, and is also a member of the National Elementary School Principals of the N.E.A. Her local and state professional memberships are also current.

For the past several years Mrs. Hayes has served as a member of the Executive Board of Greenbriar Children's Center. She is also a member of the Retirement Board of the Board of Public Education, and of the League of Women Voters. She holds membership in other civic and social organizations. She is a life long communicant of St. Matthew's Episcopal Church.

Mrs. Hayes' career with the Board of Education began in 1926 when she was employed as a third and fourth grade teacher of Springfield Terrace School. When Florance Street School was built in 1930, she was transferred there where she taught fifth, sixth, and seventh grades at various times during her twenty-five years' stay there. She was also selected as Florance Street School's first "Teacher of the Year," for 1955-56.

After serving two years as Principal of Harris Street School, Mrs. Hayes was appointed Principal of Moses Jackson School, in 1958, where she still serves in this capacity.

For several years Mrs. Hayes was in charge of the Adult Education Evening

classes at Florance School, under the supervision of Mr. Wilton C. Scott.

In 1960, Mrs. Hayes was the recipient of a Teacher's Medal of Honor and Certificate from the Freedom Foundation at Valley Forge, Pa.

Mrs. Hayes is the daughter of the late Mr. and Mrs. Mack B. Branham, and the widow of the late Gus Hayes, prominent business man of Savannah during his lifetime. She has two sons, Leigh Skipper by a former marriage, and Augustus Hayes, Jr. She is the very proud grandmother of two boys and one little girl.

By Mrs. Mary Mitchell,
Publicity Chairman,
Moses Jackson School

Mrs. Harriet H. Roberts Receives Scholarship

In September, 1965, Mrs. Harriet Harris Roberts was the recipient of a Child Welfare Educational Leave Scholarship from the Georgia State Department of Family and Children Services. Mrs.

Roberts has been employed as a Public Welfare Worker for the Chatham County Department of Family and Children Services for the past four years, and was granted leave from this agency to accept the scholarship for an academic year. Mrs. Roberts is presently attending the New York University Graduate School of Social Work, New York City. In May, 1966, she will complete one year of a two-year program leading to the Master of Social Work Degree.

Mrs. Roberts is a June, 1960 graduate of Savannah State College. She is a member of the following professional and social organizations: Student member A.C.S.W. (Academy of Certified Social Workers) and Delta Sigma Theta Sorority, Inc. She is a communicant of St. Matthew's Episcopal Church. Mrs. Roberts is the wife of Launey F. Roberts, Jr., and the mother of a five-year-old daughter, Karen.

SAVANNAH CHAPTER SSC ALUMNI SALUTES MISS LULA SMITH

By Leanna T. Wilcox and Ruby King

Flowers are the gift of nature,
Some are white, some are yellow,
and some are red;
We would rather have one while
we are living,
Than one hundred when we are
dead.

Thus the Savannah Chapter felt such high esteem for Miss Smith and the wonderful services rendered by her, that a gift tree was presented to her at her home on April 9, 1966.

Miss Smith was among the first graduates of Savannah State College, which she cherished dearly.

Her work with the Alumni has been most outstanding. She has at all times been an asset to the organization. The service that she has rendered in the office as treasurer has been unexcelled. In 1956, she was the honoree of "This Is Your Life" at which time she received a plaque and a book entitled "This Is Your Life," which contained some of the outstanding achievements of her life.

Her activities extended far beyond the confines of her home, for in the schools, churches, and civic organizations, Miss Smith was found delving into the problems of the community. She was always trying to bring sunshine into the lives of others. As the poet, Sam Walter Foss, says:

"But I turn not away from their
smiles nor their tears,
Both parts of an infinite plan;
Let me live in my house by the
side of the road,
And be a friend to man."

This was Miss Smith's daily motto.

A life full of service
Is hers to give
With Savannah State's Alumni
As long as she lives.

This tribute to Miss Smith
So touching, so kind
Is given to her
By our Saviour Divine.

The Savannah Chapter
Misses her smile,
And hopes for her recovery
In a very short while.

Miss Smith has been the Savannah Chapter's treasurer for many years, but due to her illness, she recently relinquished her duties.

Miss Lula Smith:
The Chapter needs more women
like you;
Women who are tried and true;
Women who will not shirk,
Women who will dare and work!

TELEGRAM

Public Relations Officer, Wilton C. Scott
Savannah State College, Savannah, Ga.

In behalf of the Savannah State College National Alumni Association may I extend congratulations and sincere appreciation to the Board of Regents for these contemporary achievements you have extended to Savannah State. While in executive session today may I urge you to give further consideration to the materialistic needs of the college in order that its status and productivity as well as the intrinsic qualifications of its students will be commensurate with any other four year institution in the University System.

BENJAMIN F. LEWIS,
Executive Vice President
Savannah State College National
Alumni Association

Track Team Wins In SEAC Meet

Savannah State College walked away with a first place trophy while competing with participants from Albany State, Edward Waters, Florida N and I, Morris, Paine and Claflin Colleges.

In the one and two mile runs, Savannah State, led by powerful William Alderman took both first places. Alderman ran the mile in 5.38 and the two mile in 10:54.2. Lewis of Paine College came in second place in both the one and two mile runs.

SSC's sprinter, James Woods, captured first place in the 100 and 200 yard dashes. Woods ran the 100 yard dash in 9.5, and the 220 dash in 22.1.

In the 440 yard dash Jones and Ructer, both of Edward Waters College, took the first and second places respectively. The time for this event was 52.5.

Savannah State's team, unified in their effort, also took first place in the 880 relay, which was run in 1:32.8. Second and third place winners were Albany and Florida Normal Colleges respectively.

In the field event, Newsom of Edward Waters was the first place winner in the discus competition, having thrown it 132' 6 $\frac{1}{2}$ ". Torain of SSC came in second and William of Paine was third.

Newsom gave Edward Waters another first place in the Shot Put competition by throwing the put 41' 1 $\frac{1}{2}$ ". Carter of SSC came in second place.

In the javelin competition, John Brown and Bradford Torain, both of SSC, came in first and second respectively. Brown came in first place with a distance of 160' 7 $\frac{1}{2}$ ".

A record was set in the pole vault competition, when Johnson of Edward Waters reached a high of 13 feet.

Miller of Edward Waters captured first place in the broad jump competition when he jumped 19' 11". Davis, another athlete from Edward Waters captured first place in high jumping with a high of 6' 6".

In the 220 low hurdle, Jones of Paine College captured first by a 27.2. Woods of Savannah State and Martin of Albany came in second and third respectively.

In overall competition Savannah won first place by 70 points; Edward Waters, second place, 64 points; and Paine College, third place, 21 points.

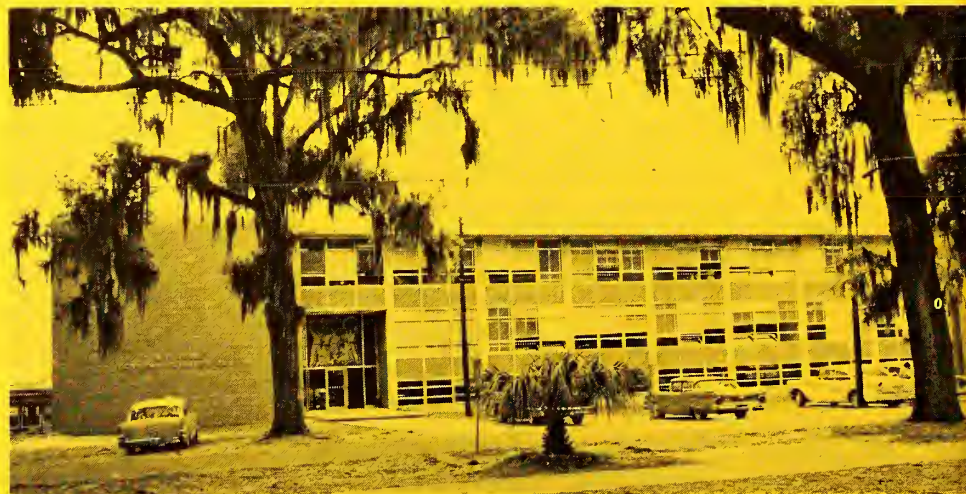

Officials for the annual event included Dr. Raymond Hopson, Leo Richardson, Richard Washington, John Mason, Frank Simmons, Otis Brock and Luther Bligen. The officials were assisted by student majors of the SSC Department of Health, Physical Education and Recreation.

Lockette Hall, a dormitory for 180 women, is named in memory of Professor John A Lockette and his wife, Eleanora Lockette. Professor Lockette served the College as Professor of Mathematics, and Dean of Men. Mrs. Lockette served as Director of Dormitories for Men and Women.

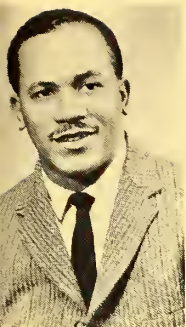

William K. Payne Hall. A classroom building named in the memory of Dr. William K. Payne, a native of Alabama, who spent more than a quarter of a century on the faculty of Savannah State College. He was head of the Department of Education and Dean of the Faculty from 1940 to 1949, and was President of the College from 1949 to the time of his death in July, 1963. Under the leadership of Dr. Payne, the institution was accredited by the Southern Association of Colleges and Secondary Schools.

Benjamin F. Hubert Technical Sciences Center is named in memory of Dr. Benjamin F. Hubert, who served the College as third president from 1926 to 1947. During his tenure, the academic program was reorganized and the institution became a four-year college.

ALUMNI - ALUMNAE

Clifford E. Bryant, '53, is employed as a Research Assistant at the Institute of Applied Biology in New York City. His wife, *Laura Tukes Bryant*, is employed as an L.P.N. They are members of the New York City Chapter, Savannah State College National Alumni Association.

Mrs. Delores Dorsey Stevens, '57, is employed at Youth House, Inc., Bronx, New York, as Head Supervisor. She is a member of the New York City Chapter, Savannah State College National Alumni Association.

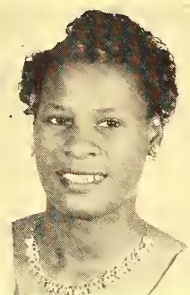

Albert B. Bryant, '60, is employed as a Case Worker with the New York City Department of Welfare. He is President of the New York Chapter of the Savannah State College National Alumni Association.

Mrs. Marian L. Walden Fields is employed as a Bookkeeper with the Association for Middle Income Housing in New York City. She is a member of the New York Chapter, Savannah State College National Alumni Association.

Mrs. Gwendolyn Dawson Roberts, '64, is a teacher at Moses Jackson School, Savannah, Ga. She is the mother of three children, and married to Sidney Roberts, employed at the Sugar Refinery.

Mrs. Rena W. Varnedoe, a graduate of Liberty County Training School and Savannah State College, has done advance study at Atlanta University and South Carolina State College.

She is employed by the Liberty County Board of Education in McIntosh, Georgia, as a Guidance Counselor for Liberty County High School.

Mrs. Varnedoe is married to George E. Varnedoe of McIntosh, Georgia. They are the parents of four children, Marjory, Franklin Lamar, Celestine, and Arnita Delores, ages fifteen, thirteen, nine, and three.

Clarence Groover, '62, has been offered employment as a GS-7 at Goddard Space Flight Center in Greenbelt, Maryland.

At the College, Mr. Groover majored in mathematics and minored in physics. He was a member of Newtonian Honor Society, and Alpha Kappa Mu Tutorial Society.

He served in the U. S. Army from January 16, 1963 to February 3, 1966. While in the service, he performed electrical and electronic maintenance on the Nike Hercules Air Defense Missile system, and served as an instructor of General Science at the U. S. Arms Force Institute in Europe.

Mr. Groover has worked toward the M.A. degree at the University of Southern California in Aerospace Management.

President and Mrs. Howard Jordan, Jr. entertain Honor Societies.

Peace Corps Publishes Overseas Job Directory

WASHINGTON—The Peace Corps this week published a directory listing some 120 training programs it is launching this Summer for 47 nations of Asia, Africa and Latin America. Directed at the Class of '66, the directory is being mailed to thousands of college seniors and graduate students across the United States.

The directory marks several advances in Peace Corps planning. It is the first guide of its kind published by the Peace Corps and its contents represent the largest number of training programs and the largest number of overseas job openings—over 7,000—in the organization's five-year history.

The directory contains descriptions of each program scheduled to the June, July, August training phase. The programs are listed by type and geographical region and are indexed by appropriate college major. They include:

Latin America—community development, education (teaching at all levels), technical and industrial education, rural education/community development, educational television/television literacy; public and municipal administration; food/agriculture/4-H, physical education, nursing/social work/pre-school, health, cooperatives, electrification, arts crafts and secretarial.

Africa—education, health, agriculture, land settlement, domestic arts and home improvement, community development, highway development, construction, fisheries, social welfare and adult and vocational education.

North Africa, Near East and South Asia—education, community development, rural literacy, food production/agriculture, health, family planning; youth work, public works, architecture/city planning, small industry development and warehousing.

Far East—education, educational radio and television, physical education and health.

Copies of the directory can be obtained from campus placement offices or by writing the Division of Public Information, Peace Corps, Washington, D. C. 20525.

Principal of Tompkins High School Dies

James E. Luten, Principal of Tompkins High School expired in Savannah, Georgia on Thursday, March 24.

Mr. Luten, a native of Savannah, Georgia, attended Haven Home Methodist School, and Beach-Cuyler High School. He attended Georgia State College High School, and graduated in 1939 with a B.S. degree in Agriculture. In 1953, he received the M.S. degree from Tuskegee Institute. He has done further study at New York University.

Mr. Luten was employed by the Chatham County Board of Education in September, 1939 as Vocational Agriculture Teacher. He served in this capacity for 16 years. In 1954, he was appointed Principal of Tompkins High School.

In 1956, Mr. Luten was appointed by F. C. Underwood to the Executive Committee on "bands for better schools." In 1960, he became Vice-Director of Region XI, Georgia Teachers and Education Association, in 1962 he was appointed Director. He was past-president of the Savannah State College National Alumni Association. He served in this capacity for four years. He was a member of Omega Psi Phi Fraternity, Inc. Mr. Luten was a member of Speedwell N. E. Church, Sandfly, Georgia.

Survivors include: Mrs. Edna Kemp Luten, wife; Mrs. Annie Mae Luten,

mother; Mrs. Viola Flynn, Miss Mary K. Luten. Mrs. Janie L. Blake, Mrs. Ann Richardson, sisters; Jack M. Luten, Norman W. Luten, Walter E. Luten, and Alexander S. Luten, brothers.

Leo Richardson Elected President of the SEAC

Leo Richardson, head football and basketball coach at the College became the first athletic official in the history of the College to be elected President of the Southeastern Athletic Conference. The meeting was held at Claflin College in Orangeburg, S. C.

Coach Richardson received the B.S. degree from Morris College, and the M.A. degree from Tuskegee Institute.

Another Savannah State College athletic official, Richard Washington, head track coach, was named Track Coach of the Year.

Members of the Southeastern Athletic Conference are: Morris College, Sumter, South Carolina; Paine College, Augusta, Georgia; Claflin College, Orangeburg, South Carolina; Florida Memorial College, St. Augustine, Florida; Albany State College, Albany, Georgia; Savannah State College, Savannah, Georgia; and Edward Waters College, Jacksonville, Florida.

Roberts Publishes Article in 'Negro Educational Review'

An article entitled "The American Educational System and the Negro," written by Launey F. Roberts, Jr., Assistant Principal, John W. Huber School, Savannah, Georgia, and Assistant Coordinator-Supervisor Chatham Savannah Adult Basic Education Program was published in the January edition of "The Negro Educational Review."

The article, which is a culmination of intensive research done by the author while in graduate school, is a critical analysis of tenets of our educational setup indicating many of the inequitable and iniquitous conditions boys and girls from culturally and intellectually deprived backgrounds have been subjected to through the years. The article lists recommendations and suggestions for improving and correcting these conditions.

Mr. Roberts received his Baccalaureate Degree from Savannah State College in August, 1959. In October, 1962 he received the Master of Arts Degree in Educational Administration from New York University. During the summer of 1963 he did advanced graduate study in Educational Administration at Atlanta University. Aside from his academic achievements and professional work, Mr. Roberts is affiliated with the following social and professional organizations: Alpha Phi Alpha Fraternity, Inc., Midtown Toastmasters Club N.E.A., G.T. & E.A., C.C.T.A., A.T.A. and is a communicant of Saint Matthew's Episcopal Church, Savannah.

Dr. Howard Jordan, Jr. receives plaque for institution from Coca-Cola Bottling Company.

The Honorable George Weaver was presented a Key to the City by the Mayor, during his visit to Savannah.

GRADUATE RETIRES FROM THE ARMY

Major Charles L. Holliman (Right)

Major Charles L. Holliman has left the battlefields and hospitals where he distinguished himself so greatly to take up a new career—that of a teacher. He hopes soon to join his brother, M. C. Holliman, a medical technician at Claxton Memorial Hospital, in Dublin, Ga., where he plans to teach in one of the local secondary schools.

The 1949 graduate of Savannah State College was awarded the Second Oak Leaf Cluster to the Army Commendation Medal in a ceremony held in the office of Brigadier General Philip W. Mallory, the Commander of Walter Reed General Hospital.

The ceremony marked the end of the major's twenty year career, first as an enlisted man in World War II, and later as an officer in the Korean War.

In this latest award of the Army Commendation Medal, the former American University student was cited for his "exemplary performance of duty" as the Administrator of Walter Reed's Pathology Service from June 1962 to March 1966.

The citation read in part: "Major Holliman formulated a new accounting system which enabled work units to be recorded and compiled in an accurate and meaningful tabulation. This enabled the need for laboratory services

to be more effectively adapted to the available space and personnel. This accounting system also was most useful and effective in demonstrating our requirements as to personnel, space and funds. Major Holliman was also very successful in insuring that changes necessitated by automation would increase the efficiency and output without affecting the morale of the personnel."

Major Holliman's previous Army Commendation Medals cited him for incidents which occurred at what he would consider to be the high points of his career.

His first award cited him for his care and treatment of 700 casualties during the Korean War. There were no doctors available, and Major Holliman, then a lieutenant, drew on his experience as a combat medic in World War II in order to treat them. To do so, he recalled he had to perform tasks which ordinarily would require a field surgeon. Of the 700 casualties, only one died.

His second award covered his service as commander of the 563rd Ambulance Company in Korea during the period 1951 to 1952.

Major Holliman's presence at General MacArthur's landing on Leyte in the Philippines highlighted his career as a World War II enlisted man.

Dr. Melvin B. Tolson, an eminent Negro poet, addresses poetry lovers during the celebration of National Library Week on the Savannah State College campus.

Western Electric Features Alumnus in Ad

Bobby Burgess, '62, is featured in a Western Electric advertisement. The upper part of the advertisement contains a picture of Mr. Burgess at work. The copy reads as follows:

"Know that Bell telephone on your table? It's made from copper, iron, zinc, gold and a variety of other materials. All must meet precise standards of quality and purity.

"Chemist Bobby Burgess at Western Electric's plant in Indianapolis tests the exact composition of such materials—before they can be put in your telephone.

"With a spectrograph Mr. Burgess can detect impurities as small as one millionth of an ounce. In fact, he has made valuable contributions to Western

Electric's cost reduction program by extending the use of the fast spectrographic techniques to replace lengthy wet chemical tests.

"Mr. Burgess gained his basic skills in chemistry at Savannah State College in Georgia. Now he is studying for a Master's degree in metallurgical engineering at Purdue University.

Western Electric relies on inventive, resourceful people like Bobby Burgess in the office, the lab and the plant. Keeping the cost of your telephone service down is as important to Western Electric as it is to your Bell telephone company. We are the same Bell System team. We have been since 1882, working together with the same purpose: to keep bringing you the world's finest telephone service at low cost."

Dr. Cornelius B. Troup, President of Fort Valley State College, motivates his audience at the Honors Day Convocation held at Savannah State College.

Assistant Secretary of Labor Weaver Spoke At Savannah State College

On Friday, March 25, at the regular all-college assembly, the Savannah State College Chapter of NAACP presented its annual assembly program. The speaker was the Honorable George L. P. Weaver, Assistant Secretary of Labor for International Affairs.

Mr. Weaver has had a distinguished career. He is the first American to be awarded the *Malaysian Panglima Mangku Megara*. The award, presented to him in person, September 7, 1963 by the Malaysian head of state in the capital of Kuala Lumpur, honors him for his distinguished contribution to the development of a democratic labor movement in that country. Mr. Weaver was also the recipient of the Eleanor Roosevelt key, in November 1961, for outstanding service to the world community. He was awarded an honorary Doctorate of Laws by Howard University, June 1962.

Formerly Special Assistant to then Secretary of Labor Arthur J. Goldberg, Mr. Weaver was named to his present post by President John F. Kennedy, July 21, 1961.

Born in Pittsburgh, Pennsylvania on May 18, 1912, Weaver received his elementary and secondary education in Dayton, Ohio. He later attended the YMCA school in Chicago (now Roosevelt University) and Howard University Law School. In 1941, Weaver went to work with the Congress of Industrial Organizations (CIO) as a member of the War Relief Committee. In 1942, he was named Assistant to the Secretary-Treasurer and Director of the Civil Rights Committee of the CIO. He served in both capacities until 1955 when the AFL merged with the CIO, at which time he was appointed Executive Secretary of the AFL-CIO Civil Rights Committee.

In October of 1950, Weaver was named Special Assistant to the Chair-

man of the National Security Resources Board. The following year he joined the Reconstruction Finance Corporation, helping in its reorganization and at the same time studying labor problems in the Far East and Southeast Asia for the International Confederation of Free Trade Unions (ICFTU).

In 1958, Weaver became the Assistant to the President of the International Union of Electrical, Radio and Machine Workers (IUE) and directed their political education program. His work with the CIO and the IUE was interrupted on several occasions when he was put on special assignment by the U. S. Government and the ICFTU.

Weaver also served as the U. S. Government representative on the Governing Body of the International Labor Organization and Chairman of the U. S. Delegation to the ILO Conference at Geneva, Switzerland.

He is a member of the NAACP, several clubs and the Omega Psi Phi fraternity.

Mr. Weaver addressed himself to the topic, "The Negro in International Affairs—Prospect for the Future."

Officers of the Savannah State College Chapter of the NAACP include: Ithamus Sturgeon, Engineering Technology major, senior, President; James Phillip Sapp, III, Social Science major, senior, Vice President; Clemontine Freeman, Physical Education major, senior, Secretary; Skelton Key, Business Administration major, sophomore, Treasurer; Roy Thomas, Social Science major, junior, Chaplain and James Dean, Business Administration, sophomore, Parliamentarian. E. J. Josey, Librarian and Associate Professor, serves as Faculty Advisor.

The public was invited to hear this great American statesman.

Burke County Chapter Reorganized

The Burke County Chapter of the Savannah State College National Alumni Association was reorganized October 28, 1965, in Waynesboro, Georgia. Plans were made for an effective organization under the leadership of the following officers, who were elected after giving all members sufficient time to assess their leadership abilities: G. Samuel Stone, President; Mrs. Eunice Childers, Vice President; Miss Queen Esther Griffin, Secretary; Mrs. Hattie Bland, Treasurer; and Tampa Brown, Reporter.

The members pledged to donate personal money for the scholarship fund. This \$50 was presented at the homecoming meeting by R. E. Blakeney, Principal, Blakeney High and Elementary School.

Directors for the group have been elected. These principals of various schools in the county, and persons with influence in the community, will help shape policy and influence members to participate fully in the association. They are: Mrs. Susan Berrien, Assistant Principal, Blakeney High School; Porter Hankerson, Principal, Girard Junior High School; George Williams, Principal, Midville Junior High School; Mrs. Ellen Anthony, Teacher, Palmer Elementary School; Julian Bell, Teacher, Cousin Junior High School; and Reverend C. I. Benefield, Principal, Cough Elementary School.

The membership is presently composed of 47 persons employed as teachers and principals, with the exception of G. Samuel Stone, President, who is employed as a County Agricultural Extension Agent.

To enhance the image of Savannah State College in the community, the organization presented the Savannah State College Men's Glee Club in concert on March 28, 1966. This was the major fund raising project for the year. From this project, the association will give scholarships to deserving students who matriculate at Savannah State College, and contribute to the scholarship fund. Another project is being planned.

The organization feels that the image of the College could be reflected in cultural programs, consisting of teas, lectures, forums, etc., and these are currently being planned. A banquet and ball in the spring featuring an outstanding speaker or artist will culminate the activities for the Chapter.

Fine Arts Center — Nearing Completion

Teachers of the Year

(Continued from Page 8)

Mrs. Emma D. Lindsey

The faculty and pupils of M. G. Haynes Elementary School selected Mrs. Emma D. Lindsey, an outstanding first and second grade teacher, as their "Teacher of the Year" for 1966-67.

The honor was bestowed upon Mrs. Lindsey because of her elementary and high school training in the local schools and her B.S. degree from Savannah State College. She continued her education at Columbia University, where she received her M.A. degree. She has attended workshops in foreign languages, science, mathematics, and art. She is chairman of the Junior Red Cross Club of Haynes School, and serves on the S.T.A. executive committee.

Mrs. Lindsey is affiliated with many professional and social organizations. She is a communicant of the St. Benedict Catholic Church, and a teacher in the Sunday School. She is a member of the Sigma Gamma Rho Sorority.

Ernest S. Brown

The faculty of Scott Junior High School chose Ernest S. Brown as its "Teacher of the Year."

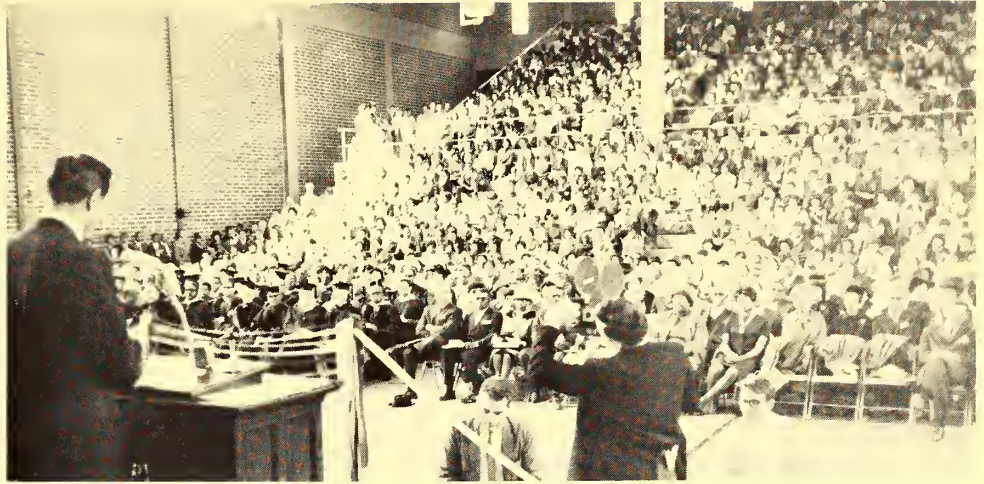

Mr. Brown is an excellent educator who has the esteem of the student body, as well as the faculty.

He is a member of several professional, social, and civic organizations. Some of them are: GTEA, CCTA, NEA, Omega Psi Phi Fraternity and Savannah State College Alumni Association.

Mr. Brown received his B.S. degree from Savannah State College and a master's degree from Bradley University in Peoria, Illinois.

He is an ardent member of St. Paul Baptist Church, where he serves in many capacities. Mr. Brown is the proud father of three children, and is married to the former Gloria Spaulding.

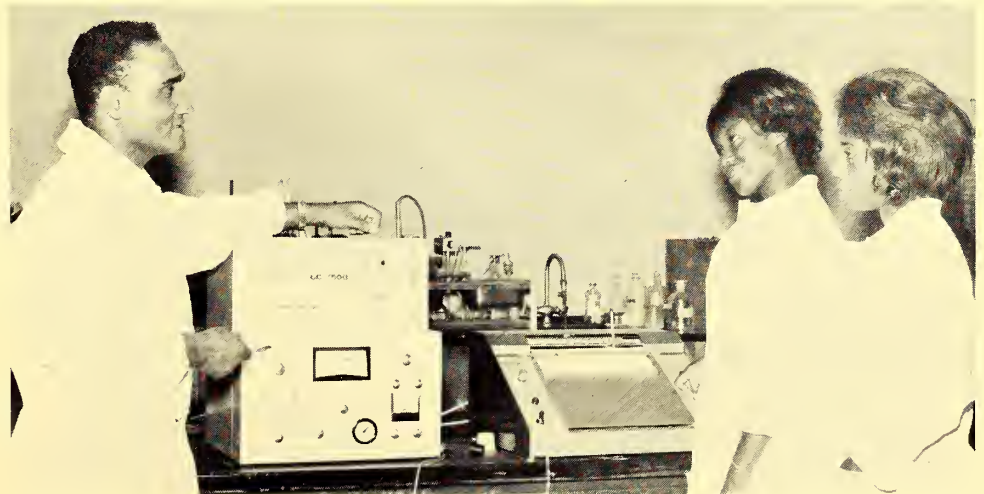

The faculty of Scott graciously entertained Mr. Brown with a dinner party at the Boar's Head. The principal, O. L. Douglas, presented a beautiful plaque to the honoree.

The Honorable Carl E. Sanders, Governor of Georgia, delivering the Dedicatory Address at a program of dedication for six newly named buildings at Savannah State College. The program was held in Wiley Gymnasium on the campus at 2:30 p.m., on March 9, 1966.

The Basketball Team won a first place conference trophy at the Southeastern Athletic Conference held recently at Albany State College. Dr. Howard Jordan, Jr. poses with team members after congratulating Carl Crump, a guard who was cited with recognition to the second conference team and all-tourney competition; Jerome Johnson, forward, co-captain; President Jordan; Charles Day, forward and co-captain; Frank Ellis, guard and co-captain, and Coach Leo Richardson, who was named Coach of the Year at the All-Conference Tournament.

Dr. Charles Pratt, Professor of Chemistry and Head, Department of Chemistry, explains to students how to use the Gas Chromatograph, a new instrument in the Chemistry Department.

SSC Presents Awards To Two Outstanding American Librarians

The staff of Savannah State College Library presented awards to two outstanding American librarians during National Library Week.

In a letter to Eric Moon announcing the award, E. J. Josey, Librarian of Savannah State College indicated that "The Savannah State College Library Staff feels that your rapid rise in the Bowker Company to the Board of Directors is a clear indication of the kind of leadership that you are giving to one of the oldest and greatest publishing houses, dedicated to service for the library profession. Not only have you advanced librarianship through the position as Editor of *Library Journal*, but you have signally sensitized the library profession to many of its neglected obligations, including the democratization of the American Library Association, and pointing up many unexplored areas of librarianship that are not problems, but golden opportunities."

Mr. Moon has had an illustrious career. He came to *Library Journal* from Newfoundland, where he has been director of public library services for the Province and secretary-treasurer of the Newfoundland Public Libraries Board. Mr. Moon went to Canada in 1958 from England, where he had served in five public library systems and was prominent among young leaders of the profession. He served on a Canadian Library Association committee to compare U. S., Canadian and Commonwealth library education and qualifications.

Mr. Moon entered library work in 1939 in the Southampton Public Libraries, then served in the Royal Air Force in Britain, India and Singapore. He studied at the Loughborough School of Librarianship, and is a specialist in historical bibliography. He organized the first bookmobile service in the Hertfordshire County Library, set up a reader's advisory service and a public relations program at the Finchley Public Libraries, was deputy chief librarian at Brentford and Chiswick Public Libraries and became head of bibliographical services at the Kensington (London) Public Libraries before moving to Newfoundland.

Mr. Moon has lectured at library training institutions in England. He was for several years an officer of the Association of Assistant Librarians and is a past chairman of its Greater London Division. He was the first editor of the British Library Association's magazine, *LIAISON*, started in 1957, has contributed frequently to professional publications and has written reviews and historical pieces for Canadian magazines and script for the Canadian Broadcasting System. He is very active in the American Library Association and the New York Library Association. He was recently elected to the Board of Directors of the Bowker Company.

The second award will go to Dr. Virginia Lacy Jones, Dean, School of Library Service, Atlanta University, Atlanta, Georgia.

In a letter to Mrs. Jones it was pointed out that the staff is presenting this award "for your outstanding contribution to library education and for the signal honor and distinction which you recently received as being the first Negro to become President-Elect of the American Association. You have made the Atlanta University Library School one of the great library schools in the country. Savannah State College is honored to bestow this award to such a distinguished person as yourself."

Considered to be one of the leading library educators in the country, Mrs. Jones, who in private life is the wife of Dr. E. A. Jones, Professor of French at Morehouse College, has had a long and distinguished career as a librarian and library educator.

Born in Cincinnati, Ohio, Mrs. Jones was educated at Hampton Institute, University of Illinois and received the Ph.D. degree from the University of Chicago. She has served as Librarian of Louisville Municipal College and Hampton Institute. She has served as Director of the Department of Library Science at Prairie View State College and as Catalog Librarian at Atlanta University. Since 1945, she has been Dean of the School of Library Service at Atlanta University. She is very active in the American Library Association,

the NAACP, the Association of Library Schools and Delta Sigma Theta Sorority. Mrs. Jones has contributed articles to many professional magazines. Under her leadership, the Atlanta University School of Library Service received a grant of more than \$300,000 to improve the school. Today, the Atlanta University School of Library Service is considered one of the leading library schools in the country.

Previous award winners were, in 1964, Milton Byam, Deputy Librarian, Brooklyn Public Library and in 1965, Miss Ruth Walling, Associate Director of Libraries, Emory University.

The awards were presented by Dr. Howard Jordan, Jr., President of Savannah State College with Dr. Robert D. Reid, the Dean of the college, reading the citation, at the annual National Library Week Convocation which was held on Friday, April 22.

In his acceptance speech, Mr. Moor stated, "I am not normally very enchanted with awards, but around National Book Awards time I can get positively cynical and liverish about the whole subject. At such times, it seems to me that awards are too often token appreciation for sheer staying power i.e., seniority (in the most liverish moments, I think *senility*, or for extreme orthodoxy).

"Somebody once said that a man is known by the company he keeps." As I look at the names of the other winners of this award—Milt Byam, Ruth Walling, and my friend Virginia Lacy Jones—I must tell you that I am both delighted with the company and flattered that you should place me in it.

"Let me add also that I am pleased to be here in your company. You, librarian, is not just a friend but, in my view, one of the most courageous librarians in the country. We have fought side by side in the past, and will doubtless do so again. Somebody, most certainly, should give *him* an award."

"For mine, thank you very much. I will try to live up to it."

TEXT OF REMARKS

By Governor Carl E. Sanders at the dedication of six new buildings at Savannah State College in Wiley Gymnasium on the campus at 2:30 p.m., Wednesday, March 9, 1966.

PRESIDENT JORDAN, REVEREND MR. WILKINS, MR. SOLMS, CHAIRMAN DUNLAP, CHANCELLOR SIMPSON, CHAIRMAN LOVETT, MAYOR MACLEAN, MAYOR GILREATH, MEMBERS OF THE BOARD OF REGENTS, DISTINGUISHED GUESTS, AND MEMBERS OF THE FACULTY AND STUDENT BODY OF SAVANNAH STATE COLLEGE:

This is a banner day for higher education in Savannah, and it has been my pleasure to share it with you here at Savannah State and over at Armstrong.

As Governor of Georgia, I have stressed over and over again the importance of education. I have urged the people of Georgia to invest in the future of our State by making our educational programs adequate.

It is thus with a deep sense of satisfaction that, as the first Governor of Georgia to visit Savannah State College, I come to dedicate six beautiful, functional, and impressive buildings for this outstanding educational institution.

To build an exceptional educational program we must move forward on many fronts. We need determined and eager students. We need an able and enthusiastic faculty and administration. And we need a good physical plant, because you cannot prepare a 20th Century student to live in a 21st Century world in 19th Century buildings.

The Governor and the Legislature very properly are expected to refrain from day-to-day involvement in academic affairs. We are, however, frequently asked to set aside state moneys for academic affairs, and this the Government of Georgia has done.

In the four years of my Administration, we will have financed \$163-million worth of college construction. This is \$40-million more than the total of funds spent for college construction during the entire 32 years of the University System's previous existence.

Earlier today I dedicated the new campus of Armstrong College, which was a total investment of \$3-and-one-half million, with about \$2-and-a-quarter million coming directly from the State.

And now, it is my privilege to dedicate six buildings here at Savannah State which will represent only part of the more than \$3,000,000 worth of construction which this Administration is financing at your growing and expanding college.

In the seventy-four years since it was located at this site, Savannah State College has produced many fine educators, and the buildings we name today are dedicated in their honor. Today we officially dedicate:

—A classroom building named for the late Dr. William K. Payne whose 25 years of service to Savannah State brought many improvements, as well as accreditation by the Southern Association of Colleges and Secondary Schools.

—Two women's dormitories, housing 280 women with one building named for the late Dean of Women, Janie L. Lester, and the other in memory of the late Professor and Mrs. John A. Lockette, who served, respectively, as Professor of Mathematics and Director of Dormitories.

The library is named for the late Professor Asa H. Gordon, a former Dean of the College and Director of Research and Publications.

The Technical Sciences Building is dedicated in memory of the late President Benjamin F. Hubert, who was president from 1926 to 1947.

And finally, we dedicate a new annex, containing a swimming pool, to the Willcox-Wiley Gymnasium, which already has been formally named.

I join with you in thanking the members of the families of these distinguished faculty members for their presence today.

And I urge every student here, and every faculty member, to make the best possible use of these facilities. The State can provide the brick and mortar, but it must be your efforts and your willingness to learn and teach that will make them worthwhile.

The college student of today, in one sense, has a harder task than when I was in school or when your faculty members were in school. In another sense it is easier because America and our own State of Georgia have come to realize that without education our people are doomed to poverty and poor health and poor jobs. Without the information and the processes of thought and accomplishment that quality education can give, our people would be barred forever from the bright promise of the future.

But with education, the doors to the future are opened wide, and through them can march a confident and united people.

This march has begun, and with it comes our long-sought promise of tomorrow.

To each of you, I wish good luck and Godspeed.

Thank you.

The above Savannah State College beauties were competitors for the title of "Miss SSC" for the 1965-66 school term. Left to right are Jacquelyn Mack of Savannah, a junior business administrative major; Yvonne Le Counte of Midway, a junior English major; and Dorothy McPhalter of Sylvania, a junior elementary education major. Miss Le Counte was elected by SSC's more than 1400 students to wear the crown of "campus queen."

During charm week at Savannah State College, the Mantle of Honor for the Junior woman with the highest scholastic average is passed to Miss Vivian McMillan by Miss Louise Tarber, the last year's recipient. Miss Tarber is the highest ranking Senior woman at Savannah State College.

Patricia V. Brown of Metter, Ga., a senior Sociology major and Miss Savannah State College, delivers address to students, faculty and visitors at an annual Mother's Day Vesper honoring the mothers of SSC students during the college's 20th annual Charm Week program. "Women on the Move" was the theme for the annual Charm Week celebration.

SAVANNAH STATE COLLEGE
STATE COLLEGE BRANCH
SAVANNAH, GEORGIA 31404

OFFICE OF
THE PRESIDENT

GREETINGS TO ALUMNI AND FRIENDS ON HOMECOMING, 1966

As always, I am happy indeed to welcome our Alumni who have come back home to share with us this gala 1966 Homecoming Celebration. It is a distinct pleasure, too, to welcome all of our friends to the expanding Savannah State College campus. Your presence here, today, expresses to us your interest, support, and goodwill. Continuation of the kind of enthusiastic support which you have given over the years will make it possible for Savannah State College to move further ahead towards excellence in the academic world.

This year, we are happy to report the largest enrollment in the history of the college. Our student body now numbers over sixteen hundred students. Higher academic standards, long range vision and planning, and striving for excellence in all of our activities are our commitments, as we strive to make a bigger and better SAVANNAH STATE COLLEGE. We invite you to visit with us as often as you find it possible.

We are especially happy to host our good friends from our sister institution at Fort Valley State College. I am sure that our athletic competition on the gridiron will be an outstanding example of fine sportsmanship. We look forward with enthusiasm to many such meetings in the years ahead.

Mrs. Jordan and I hope to have the opportunity of greeting each of you personally after the game.

Best wishes and please drive carefully on your way back home.

Sincerely,

Howard Jordan, Jr.

OFFICE OF PUBLIC RELATIONS

STATEMENT FROM THE PRESIDENT

GREETINGS FROM THE FORT VALLEY STATE COLLEGE

It is a pleasure to extend greetings from the F.V.S.C. to Savannah State College for this Homecoming game. There has always existed a friendly rivalry between these sister institutions. Fair play and good sportsmanship have always characterized athletic contests between our two institutions. May the better team win.

Cordially yours,

W. W. E. Blanchet

W. W. E. Blanchet
Acting President

**SAVANNAH
STATE
COLLEGE
IN
CAPSULE**

Savannah State College, founded in 1890, is located in the historic city of Savannah, Georgia, which is the oldest and chief seaport of the state as well as the first capital.

A unit of the University System of Georgia, Savannah State College is a four-year accredited college of arts and sciences, teacher education, business administration and technology.

Savannah State College has one of the most beautiful campuses in the South. The campus comprises 136 acres of matchless natural beauty. Attractive new buildings are constantly being built. Put into use last year was Lockette Hall, an air-conditioned dormitory for 180 women students; Wiley-Willcox Physical Education Complex, which houses a swimming pool; and W. K. Payne Hall, an air-conditioned classroom building.

The John F. Kennedy Fine Arts Center will be put into use during the Winter Quarter of this school term.

Another dormitory for 180 male students is in the final stages of construction.

For the Biennium of 1966-68 Savannah State College has requested from The Board of Regents the following facilities: A Dining Hall-Cafeteria; A Natural Science Building; A Technical Home Economics Building; A Nursery School for Early Childhood Education, and a Student Union Building.

Savannah State College offers courses leading to the baccalaureate degree with a major in each of the following fields: Accounting, Biology, Chemistry, Building Construction Technology, Economics, Elementary Education, Electronics Technology, English, Foods Nutrition and Institution Management, General Business Administration, Mathematics, Mechanical Technology, Secondary Education, Secretarial Science, Social Sciences, and Textiles and Clothing.

Teacher education programs in the following fields at Savannah State College have been approved by the Georgia Division of Teacher Education and Certification: elementary education; secondary education, with a concentration in business education, English, French, general science, industrial arts education, mathematics, social studies, Spanish, trade and industrial education, grades 1-12, art education, health and physical education, music education, and teacher-librarian.

Two-year programs of study are offered in Secretarial Science and Dressmaking and Tailoring. Upon satisfactory completion of the program, the student is awarded a certificate of proficiency.

bridge, Georgia, majoring in
mathematics.

SAVANNAH STATE COLLEGE

SAVANNAH, GEORGIA

*If thou beest he—but o, how fall'n! how changed
 From him who, in the happy realms of light,
 Clothed with transcendent brightness, didst outshine
 Myriads, though bright. If he, whom mutual league,
 United thoughts and counsels, equal hope,
 And hazard in the glorious enterprise
 Joined with me once, now misery hath joined
 In equal win, . . .*

PRESIDENT'S MESSAGE

SAVANNAH STATE COLLEGE
STATE COLLEGE BRANCH
SAVANNAH, GEORGIA 31404

OFFICE OF
THE PRESIDENT

November 9, 1968

GREETINGS ALUMNI:

I am happy to extend greetings and a warm welcome to all of our alumni and friends as you come to Homecoming of 1968. I especially want to express my sincere and grateful appreciation for the excellent manner in which you have supported the program of the College during the past year.

During the past year, I have had the opportunity to meet and talk with alumni in many parts of our State and of the country. It is a source of genuine pride, stimulation, and inspiration to witness the interest, enthusiasm, and support that Savannah State College men and women have for their Alma Mater.

This year, with the creation of our Development Office, and with an alumnus, Mr. Robert L. Bess, as Development Officer, we will make a greater effort to contact larger numbers of our alumni. We urge you to support the new Development Officer in his new activities.

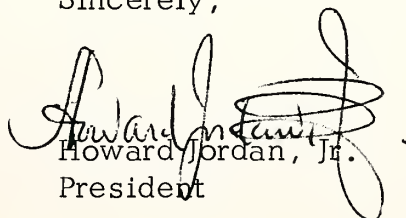

We are happy to welcome you to our new Stadium, and it is our sincere hope that you will come back often to the new home of the TIGERS.

It is always a pleasure to have Fort Valley State College students, faculty, and staff on our campus. We extend a warm welcome to all of them.

We hope that this alumni Homecoming weekend will be an enjoyable one for all of you--renewing old acquaintances and meeting new friends. When this weekend is over, we hope that you will be happy that you came. Please plan to visit with us often.

Have a safe trip home, and remember that you carry with you our best wishes and prayers.

Sincerely,

Howard Jordan, Jr.
President

PRESIDENT'S MESSAGE

**Dr. W. W. E. Blanchet, President
Fort Valley State College**

FORT VALLEY STATE COLLEGE
FORT VALLEY, GEORGIA

The Fort Valley State College extends greetings to Savannah State College and is pleased to share in your Homecoming Day Festivities. The warm spirit of friendship which exists between our institutions, both on and off the field of athletic competition, is a source of gratification. We trust that this fine relationship will continue to grow through the years. May the better team win.

W. W. E. Blanchet

MISS SAVANNAH STATE COLLEGE AND COURT

Left to right: Valerie Ash, sophomore attendant; Mary Eady, junior attendant; Linda Williams, Miss SSC; Gilda Dawson, freshman attendant; and Jacqueline Dorsey, senior attendant.

*The Isles of Greece, the Isles of Greece!
Where burning Sappho loved and sung,
Where grew the arts of war and peace,
Where Delos rose and Phoebus sprung!
Eternal summer gilds them yet
But all, except their sun, is set.*

Byron, ISLES OF GREECE

MISS FORT VALLEY STATE COLLEGE

Lee Ann Mitchell is a senior majoring in elementary education from Smithville, Georgia.

*But now at last the sacred influence
of light appears, and from the walls of Heaven
Shoots far into the bosom of dim night
A glimmering dawn.*

Milton, PARADISE LOST

CLASS QUEENS

MISS SENIOR. Betty Grant, from Fitzgerald, Georgia, is majoring in elementary education.

*The tale of their own deeds will witness to their doon,
Whilst thou, to all men justified, canst say
That of thy loneliness thou mad'st a boon.*

SSC: AN ISLAND OF PARADISE

*Where Savannah meets the sea,
Where grassy plains and palms abound,
Where the flowers are gems of loveliness,
There S.S.C. is found.*

Savannah State College, a unit of the University System of Georgia, is a four-year accredited college of arts and sciences, teacher education, business administration, and technology. A graduate program in elementary education was started during the summer quarter, 1968.

Founded in 1890, Savannah State College is located in the historic city of Savannah, the first capital of Georgia, and the second largest city of Georgia.

Savannah State College offers courses leading to the master's degree in elementary education and courses leading to the baccalaureate degree with a major in each of these areas of concentration: accounting, biology, chemistry, civil technology, dietetics and institution management, economics, elementary education, electronics technology, English, general business administration, mathematics, mechanical technology, secondary education, secretarial science, social sciences, and textiles and clothing.

*A mind is not to be changed by place or time;
The mind is its own place, and in itself
Can make a heaven of hell, a hell of heaven.*

Milton, PARADISE LOST

Teacher education programs in the following fields have been approved by the Georgia Division of Teacher Education and Certification: elementary education, secondary education, with a concentration in business education; English, French, general science, industrial arts education, mathematics, social studies, Spanish, trade and industrial education, grades 1-12; art education, health and physical education, music education, and teacher-librarian.

Two-year programs of study are offered in Secretarial Science, and Dressmaking and Tailoring. Upon satisfactory completion of these programs the student is given a certificate of proficiency.

Savannah State College has one of the most beautiful campuses in the South. The campus comprises 136 acres of matchless natural beauty. Attractive new buildings are constantly being built. Put into use recently were the John F. Kennedy Fine Arts Center and A. E. Peacock Hall.

The John F. Kennedy Fine Arts Center, constructed at an approximate cost of \$500,000, contains a Little Theatre, offices, classrooms, and laboratories for music, art, ceramics, and sculpture.

Peacock Hall, a dormitory for 180 male students, is a modern three-story building which contains 90 bedrooms of the studio type; a lobby, recreational areas, an apartment for the house director; barber shop, room for TV viewing, and a laundromat. This dormitory is completely air-conditioned, and was constructed at an approximate cost of \$600,000.

A new stadium was put into use at the beginning of the 1968 football season.

For the Biennium of 1966-68, Savannah State College requested from the Board of Regents the following facilities: a Dining Hall-Cafeteria, a Natural Sciences Building, a Technical Home Economics Building, a Nursery School for early childhood education; and a Student Union Building. The dining hall, student union, science building, and dormitory for 200 students have been approved at a total cost of 2.7 million dollars.

For further information write: Director of Admissions, Savannah State College, Savannah, Georgia 31404.

ACADEMIC PROCESSION FOR AUGUST COMMENCEMENT. Vernon Clay, marshal; Dr. Vivian W. Henderson, president, Clark College, Atlanta, Georgia; Dr. Howard Jordan, Jr., president, Savannah State College; Dr. E. K. Williams, director, Summer School; Dr. Calvin L. Kiah, dean of faculty; and other members of the faculty and graduating class.

PLATFORM GUESTS AT THE JUNE COMMENCEMENT EXERCISES. Left to right: Rev. Samuel Williams, College Minister and Dean of Men; Father Harry Nevels, Rector, St. Matthew's Episcopal Church; Mrs. Josie B. Sessoms, President, Savannah State College National Alumni Association; Dr. Raymond S. Scruggs, Personnel Director—Urban Affairs, Personnel Relations Department, American Telephone & Telegraph Company, New York; Dr. Howard Jordan, Jr., President, Savannah State College; Dr. Calvin L. Kiah, Dean of Faculty; and Wiley A. Perdue, Registrar.

ALUMNI

MISS NATIONAL ALUMNI AND ATTENDANTS. Left to right: Mrs. Zelma Gordon, a native of Florence, South Carolina; Miss National Alumni, Mrs. Eloise E. Alston, a native of Crawfordsville, Georgia; and Mrs. Velma Zeigler, a native of Savannah, Georgia.

Daniel Washington, the newly elected President of the Savannah State College National Alumni Association, addresses the alumni.

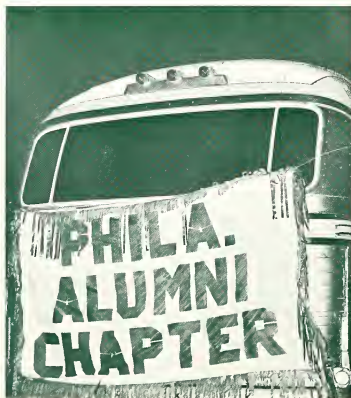

R. Wilbur Campbell was recently appointed Financial Aid Officer at the college. He received the B.S. degree from Savannah State College, and was formerly employed by the Chatham-Savannah Board of Education as a teacher.

Benjamin F. Lewis, Executive Vice-President of the Savannah State College National Alumni Association, presents a plaque to Mrs. Josie B. Sessoms, former President of the SSC National Alumni Association.

Robert Bess was recently appointed Development Officer at the college. He received the B.S. degree from Savannah State College, and M.A. degree from Indiana University. Mr. Bess was formerly employed by the Chatham - Savannah Board of Education as a Vocational School Counselor.

DEDICATION. Last year the Philadelphia Chapter of the Savannah State College National Alumni Association chartered a bus to Savannah in order to attend all of the Homecoming activities.

*Of man's first disobedience, and the fruit
Of that forbidden tree, whose mortal taste
Brought death into the world, and all our woe,
With loss of Eden, tell one greater man
Restore us, and regain the blissful seat,
Sing, heavenly muse, . . .*

Miss Savannah Chapter Alumni

MISS SAVANNAH CHAPTER ALUMNI AND ATTENDANTS. Left to right: Mrs. Daisy B. Alston, attendant to "Miss Savannah Chapter" and a teacher at Haven Elementary School; Miss Ruby King, "Miss Savannah Chapter" and teacher at Bartow Elementary School; and Mrs. Elsie A. Brewton, attendant to "Miss Savannah Chapter," a teacher at Effingham County School.

MISS SAVANNAH ALUMNI. Miss Ruby Lee King, a 1939 graduate of Savannah State College, possesses characteristics of a master teacher. She received her M.Ed. degree from Atlanta University in 1951, and a Professional Diploma from Teachers' College, Columbia University in 1961. Miss King is known for her outstanding contributions in school, civic and community activities. She served as secretary for ten years of the Savannah State College Alumni Association. She is a member of Greenbriar Children's Center, Inc., Y.W.C.A., Y.M.C.A., local, state and national professional organizations. Besides being a member of Asbury Methodist Church, Miss King is Church School teacher, choir member and member of the Commission on Finance. At present Miss King holds offices of Chaplain of Paulsen P.T.A., and Basileus of Zeta Phi Beta Sorority.

General Information BULLETIN 1970

State College Savannah, Georgia

... in perspective

This BULLETIN is presented in order to give an overview of Savannah State College—its facilities, its academic program and its activities. If it has not already been planned, very soon it will be necessary for students and parents to decide where the student will continue his education.

The importance of this decision cannot be over emphasized. Why not supplement the information contained in this BULLETIN by visiting the campus and by talking with present and former students of Savannah State College, a college which places primary emphasis upon quality education.

"College By the Sea"

The College is located in Chatham County, and in the metropolitan city of Savannah, Georgia's oldest city and chief seaport.

PROFILE: *The President*

SAVANNAH STATE COLLEGE
STATE COLLEGE BRANCH
SAVANNAH, GEORGIA 31404

OFFICE OF
THE PRESIDENT

GREETINGS TO ALL PROSPECTIVE STUDENTS:

It is my pleasure to extend greetings to all of you who are prospective students and to introduce you to Savannah State College.

Savannah State College was founded on November 26, 1890 and since that time has been sincerely concerned with developing a strong program of liberal education, teacher education, business administration, the fine arts and the technical sciences. Today, all evidence points to the fact that the college has a strong educational program, an excellent faculty and staff and modern facilities for study, research, residence, recreation and relaxation.

Evidence of growth is all around us at the college. Last year the college had its highest enrollment—2,400 and the largest full-time faculty and staff—156. Construction on roadways, recitation halls and dormitories is going forward as a part of the fourth year of the ten-year development plan. The faculty was very productive—more books, articles and research projects were conducted than ever before in the history of the college. More federal, state, and private grants were made to the college during any other year in our history. All of this is evidence of the viable program of education which is being conducted at the college.

The following pages depict graphically the offerings and facilities of the college. It is our hope that this Bulletin will provide you with many answers to your questions about the college and its work.

WE INVITE YOU TO JOIN THE SSC FAMILY AND SPEND FOUR OF THE MOST EXCITING AND PROFITABLE YEARS OF YOUR LIFE.

Sincerely,

Howard Jordan, Jr.
President

PROFILE: The College

Savannah State College, a unit of the University System of Georgia, is a five-year accredited college of arts and sciences, teacher education, business administration, and technology. A graduate program in elementary education was initiated during the summer of 1968.

Founded in 1890, Savannah State College is located in the historic city of Savannah, the first capital of Georgia, and the second largest city in Georgia. Savannah State College offers courses leading to the master's degree in elementary education, and courses leading to the baccalaureate degree with a major in each of these areas of concentration: accounting, biology, chemistry, civil technology, dietetics and institution management, economics, elementary education, electronics technology, English, general business administration, mathematics, mechanical technology, secondary education, secretarial science, social sciences, textiles and clothing, and criminal justice.

Teacher education programs in the following fields have been approved by the Georgia Division of Teacher Education and Certification: elementary education, secondary education, with a concentration in business education; English, French, general science, industrial arts education, mathematics, social studies, Spanish, trade and industrial education, grades 1-12; art education, health and physical education, music education and teacher-librarian.

Two-year programs of study are offered in Secretarial Science, and Dress-making and Tailoring. Upon satisfactory completion of these programs, the student is given a certificate of proficiency.

Savannah State College has one of the most beautiful campuses in the South. The campus comprises 136 acres of matchless natural beauty. Attractive new buildings are constantly being built. Put into use recently was the John F. Kennedy Fine Arts Center, A. E. Peacock Hall, and a new athletic stadium.

Recently a new student center and food service building was constructed. This building features a dining room equipped to handle 1,200 students and will house all student activities. A bookstore, snack bar, lounges, game and meeting rooms, and administrative offices are also included in this building.

Savannah State College has requested from the Board of Regents the following facilities: a Natural Sciences Building, a Technical Home Economics Building, and a Nursery School for early childhood education. The science building, and a dormitory for 200 female students have been approved and are presently under construction.

For further information write: The Registrar, Savannah State College, Savannah, Georgia 31404.

PROFILE: The Student

If you are considering applying for admission to Savannah State College you might have questions about the people who will be sharing undergraduate life with you.

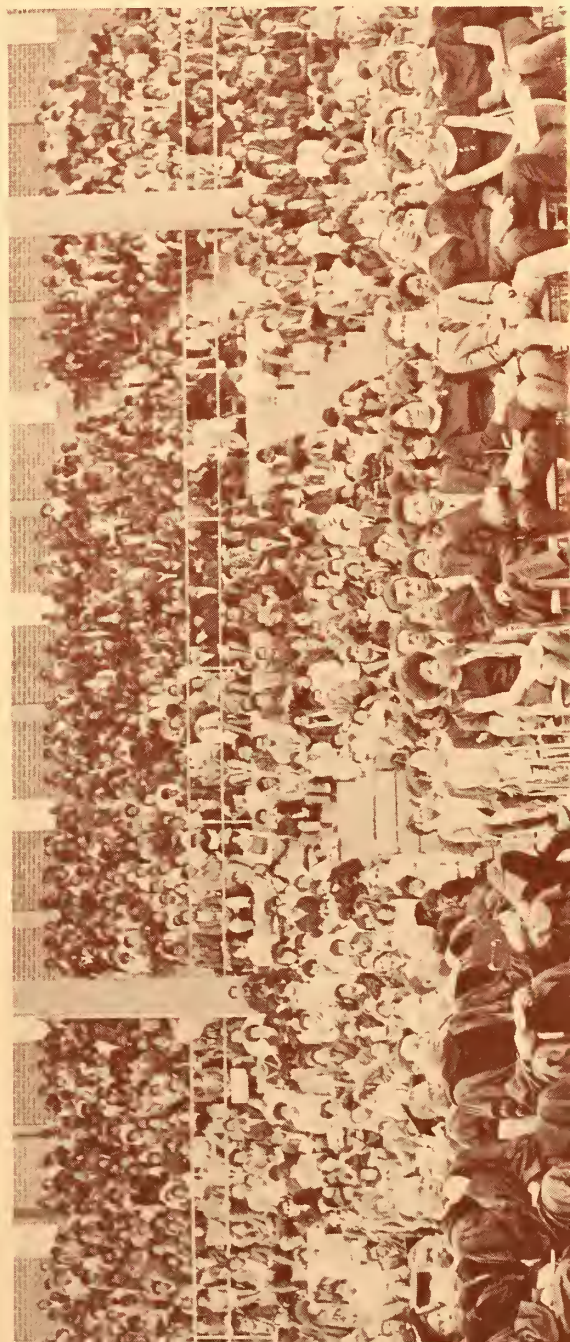

Savannah State College with its antebellum-modern style campus in an urban setting is an academic meeting ground for hundreds of persons of all ages; typical Americans—the teen-ager just out of high school; the commuter who might be working his way through college; the housewife who has decided to further her education; the military veteran who realizes how much a college education means—all pursuing the common goal: Education.

As a result of its urban character Savannah State College is an integral part of the community. College students and residents of the city and its suburbs frequently attend college events, such as the annual Coed Week Activities and the Library Lecture Series sponsored by both the Student Government and the Lyceum Lecture Series Committee.

Savannah State College undergraduates quickly find that education does not come from textbooks alone, but is gained in seminars, lectures, discussion groups, research, general campus activities, social life and association with other students, faculty and administrators.

With its unique Student Government, organized to work constructively to promote the general welfare of the student body and the college, undergraduates have an opportunity to participate in a democratic environment.

Each undergraduate is represented in Student Government. There are class representatives as well as delegates from every formal club and organizations on campus. These representatives, as well as the officers of Student Government, are elected by the students.

DIVISION OF HUMANITIES

The Division of Humanities, as its name implies, is concerned primarily with transforming the individual into a human and humane person. The technique for realizing this aim is that of serious study of the human heritage as it has been recorded in literature, music, art, and philosophy. In this manner the student deepens his appreciation, sharpens his intellect, enhances his critical powers, and incorporates himself in the mainstream of the best that has been thought and felt.

The Division of Humanities provides opportunities for majoring in English, music, the fine arts, French, and Spanish. The curricula in these areas are designed also to prepare teachers. Thus students who elect to teach become purveyors of the humanistic tradition. The College provides a means also for meeting the national need for persons trained in foreign languages. As future linguists and/or teachers, students have an unusual opportunity at Savannah State College. A strong faculty in modern languages, in addition to a recently installed laboratory assures the students the means of thoroughly preparing themselves in this area.

ART

The rewards can be great for a person with or without "artistic talent." To gain these rewards, one needs only the desire to learn and a good place in which to learn. The Art Department at Savannah State College provides students with an adequate environment for learning. If one has the desire, then he can progress at Savannah State College.

The Art Department is located in new quarters, especially designed and equipped with modern studios and lecture rooms making it possible to teach the latest use of books and methods in lithography etching, serigraphy, ceramics, sculpture, and painting.

Students who have studied art at Savannah State College have reaped many rewards. Some have won large sums of money in art competition. Some are enjoying the success of exhibiting their art at qualified galleries. One former student is in the Pentagon in Washington, D. C., where he is using the knowledge of art acquired here. Others have successful careers as teachers of art. And, still others have gone on to more advanced studies in schools throughout the country.

Art students at Savannah State College occasionally have opportunities to get first-hand experience, as a number of art jobs of short duration come into the Art Department. There are some jobs of more permanent nature waiting to be fulfilled.

The Art Department is prepared and eager to help students in many ways. The rewards can be plentiful for those who are seeking; and when they acquire a Bachelor of Science Degree in Art Education, will find that rewards other than salary, position, dignity, or fame await them. They may learn, ultimately to enrich their lives with things which do not pass so quickly; for, to know and to be able to enjoy knowing is indeed a divine reward.

MODERN LANGUAGES

The Department of Modern Languages offers instruction in three languages: French, German, and Spanish. The primary aim of the members of the Department is to teach the student to understand, speak, read and write these languages so that he may communicate with others who speak them. This instruction is carried on in daily recitations in the classroom and also in a modern twenty booth laboratory where the student can increase his proficiency by listening to and repeating exercises of various types especially prepared for this purpose. For students who wish to develop more than an elementary proficiency in

French or Spanish, the Department offers courses leading to a minor in either language. It also offers courses leading to the degree of Bachelor of Science in Education with a concentration in French or Spanish.

Outside of the field of education, a person with a major in foreign language can find employment in several areas. First, there is the area of organizations more or less international in character. Because of the nature of its work, there is almost a constant demand at the United Nations Headquarters for men and women who are proficient in foreign languages.

MUSIC

In the area of music, the Department of Fine Arts at Savannah State College offers a major program leading to the degree of Bachelor of Science in Music Education and two minor programs—one for prospective teachers in the secondary schools and a nonteaching program. All of the curricula have been approved by the three national accrediting agencies—The Music Teachers National Association, the National Association of Schools of Music and the Music Educators National Conference, as well as by the State Board of Certification and the Board of Regents of the University System of Georgia.

Courses include intensive work in theory, history and literature, performance, applied music, conducting and music education. Although 75 hours are required for state certification, a total of 82 hours constitutes the four-year music requirement at the College. Previous training of at least two years in any applied area is required of all prospective majors, but skilled aptitude is recognized and accepted in lieu of this requirement if necessary. Most majors must pursue four years of training in piano, voice, or another instrument, as well as the same amount of time in their applied area. In addition to the music courses, all candidates for a degree take a large complement of courses in general education and the professional sequences.

The five musical organizations—The Marching Band, The Concert Band, The Choral Society, The Women's Glee Club, and The Men's Glee Club—are each directed by a full-time faculty member and provide ample opportunity for students inside and outside of the department to receive experiences in public performance which range from programs on the campus at assemblies, church services, vespers, and special programs, to local television appearance, concert in the community, athletic games away from home, and concert tours in several states.

One of the most important operations in this department is the awarding each year of a number of scholarships, called grants-in-aid, which are given to capable, worthy applicants in all organizations upon recommendation of the department. Depending upon the aptitude, academic standing and financial need of the student, these awards are sufficient at times to provide tuition for a full year. Grants are made, however, only to applicants who file the necessary forms, are recommended by the department, and are approved by the Committee on Scholarships. Recipients, encouraged to apply in the spring, are usually notified during the summer, well in advance of the opening of the Fall Quarter.

The present facilities provide space for classes, organizational rehearsals, practice periods, listening room, and offices. Pianos are provided for practice, and band instruments are provided, both without charge. Complete uniforms, robes, stoles, and blazers are also furnished to members of the various organizations.

For any additional information concerning the Department, please feel free to address your inquiries to Dr. Coleridge A. Braithwaite, Chairman, Department of Fine Arts, Savannah State College.

DIVISION OF NATURAL SCIENCES

DEPARTMENT OF BIOLOGY

The aims of the Department of Biology are: (1) to provide for all students that knowledge which is essential to an understanding of the biological basis of living; (2) to train persons adequately through the media of advanced courses for entry into the professional study of dentistry, medicine, and nursing; and (3) to prepare persons to teach the biological sciences in the secondary school or to continue study on the graduate level.

In addition to the required general courses, the department offers courses leading to the degree of Bachelor of Science with a major in biology. This department offers also a minor.

The Biology Department is proud of its achievements during the last several years. It takes great pride in reviewing the records of some of its graduates.

DEPARTMENT OF CHEMISTRY

The Department of Chemistry has grown by leaps and bounds in the past few years. The teaching staff, teaching space and equipment have been increased one hundred per cent.

The Department has been quite successful in obtaining funds from Chemical Societies and the National Science Foundation to sponsor several significant programs such as the In-Service Institute for Teachers of Chemistry and General Science in secondary education and the Summer Science Program for selected high school students.

Many research projects are carried out by the students in cooperation with the department's active research program. The Department feels that research projects serve as good preparation for more highly developed and specialized research that the students will encounter in graduate school. The research program serves as an outlet for the expression of the student's scientific interest and capabilities other than in the classroom and gives him experience in employing the scientific methods in problem solving.

The Department of Chemistry provided basic training for higher education—work leading to the Master of Science and Ph.D. degree. In addition to this it provides all of the chemistry needed in pre-nursing, pre-dental and pre-medical education.

The curriculum has been revised so that the student will receive a substantial number of courses in mathematics, physics, and biology which will aid him in becoming a better Chemist.

The Department believes in creativity, freedom of exploration, productivity, hard work, and recreation.

THE DEPARTMENT OF MATHEMATICS AND PHYSICS

The Mathematics curriculum and courses are being continually revised to keep in step with the recommendations released by the School Mathematics Group in 1960. The textbooks, course outlines, and other materials are continuously being changed in order to meet today's challenge. The Physics courses are designed to give emphasis to the PSSC recommendations for college Physics.

The objectives of the department are not only to prepare better teachers of Mathematics and Physics, but also to provide them with the courses necessary to do further study in areas like linear programming and computing, statistical research, electronics, guided missiles, engineering, mathematics for various phases of industry research, actuary science and over 20 branches of governmental service.

DIVISION OF SOCIAL SCIENCE

The Division of Social Sciences offers two major programs for persons interested in the social sciences. Curriculum I leads to the B.S. degree in social sciences with a concentration in history. Curriculum II leads to the B.S. degree in the social sciences with a concentration in sociology leading to the professional study of social work.

Persons who plan to teach social studies in the secondary school should enroll in the Teacher Education Program and pursue the B.S. degree in Education with a concentration in the social sciences.

Curriculum I is designed for persons interested in careers in: law, government, diplomatic service, general research, Young Men's Christian Association, and Urban League work.

Curriculum II is designed for persons interested in careers as social workers, probation officers, vocational counselors, camp counselors, employment interviewers, juvenile court workers, welfare fund workers, and immigration service workers.

DIVISION OF HOME STUDY

The Division of Home Study encompasses instructional programs in Business Administration, Economics, Education, English, Geography, Government History, Humanities, Mathematics, Psychology, Social Science, and Sociology. These courses are offered for those persons who are interested in furthering their education, but are unable to do so in residence.

The Home Study Department is authorized to operate the following programs:

1. College Correspondence Study
2. Extension Classes

There are students enrolled in these courses living in all parts of Georgia, South Carolina, and Alabama; and students have registered from New York, New Jersey, and Washington, D. C.

The Home Study Department is directed toward two objectives. The first is to provide a service for those persons who cannot undertake residence instruction, and the second is to provide an enriching program for those who do not require residence instruction for personal growth and enrichment.

Extension classes are provided upon sufficient demand.

For information concerning credits, fees, examinations, textbooks, etc., write: The Division of Home Study, Savannah State College, Savannah, Georgia.

DIVISION OF TECHNICAL SCIENCES

The Division of Technical Sciences seeks to accomplish two major objectives: (1) to provide students with sufficient specialized training in engineering technology, technical home economics and industrial teacher education to meet entry employment requirements in these areas; and (2) to provide students with a broad liberal education which includes study in the general areas of communications, mathematics, the natural sciences, the behavioral and social sciences and the fine arts.

In order to achieve the above objectives, the Division of Technical Sciences is organized into two departments which offer curricula leading to the Bachelor of Science degree. The Department of Engineering Technology offers programs in building construction technology, electronics technology, industrial arts education, mechanical technology, and trade and industrial education.

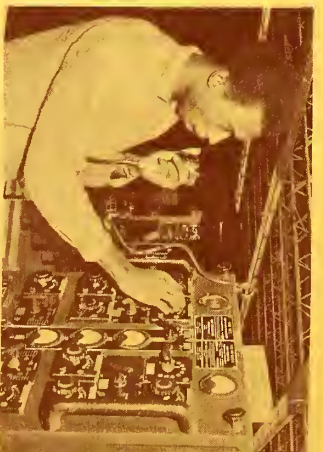

The Department of Home Economics affords opportunity for students to major in dietetics and institutional management. This four-year program is approved by the American Dietetic Association.

This pre-professional dietetic course which leads to the Bachelor of Science degree prepares the students for immediate internship. The internship is a required fifth-year of on-the-job training. The twelve-month internship may be taken in hospital dietetics, medical dietetics, food clinic dietetics, public health and social agencies, college institutional food administration.

The undergraduate curriculum in dietetics contains a minor concentration in chemistry. If desired, students may be prepared for laboratory careers in scientific food research, or in new food and recipe development for civilian and army consumers.

The Home Economics Department also offers the opportunity for students to major in textiles and clothing.

Individuals interested in careers in the technical sciences should be well grounded in the applied sciences. Such high school subjects as physics, algebra, plane geometry, trigonometry, and industrial shop are very desirable for persons planning to pursue engineering technology curricula. Chemistry and homemaking are essential for those interested in technical home economics.

GRADUATE PROGRAM

The Master of Science degree program is designed to further the professional growth and competency of persons choosing a career in public education. Specific skills and competencies; to expand their professional and cultural backgrounds; to further their knowledge, appreciation, and to deepen their appreciation and performance in scientific investigation.

For admission to the graduate program an applicant must comply with the general requirements prescribed by the University System. In addition, the applicant (1) must have earned a bachelor's degree from a regionally accredited college; (2) must hold or become eligible for, a professional certificate in the area in which graduate study is contemplated; (3) must have earned a minimum score of 450 on the National Teachers Common Examinations; (4) must have submitted two official transcripts of all courses attempted at the undergraduate level as well as previous graduate study; and (5) must have received the approval of the Chairman of the Division of Education.

Admission is restricted to include only those students whose academic records indicate that they can successfully undertake graduate work. For admission as a regular student in full graduate standing, a minimum undergraduate average of 2.5 (C) is required.

Students who apply for admission to a program leading to a graduate degree are classified as degree students. Students who wish to enroll in a course or courses without regard to degree requirements are classified as non-degree students.

The graduate program in education consists of sixty quarter hours. These include twenty hours of professional education and research, twenty-five hours in a specialized field, and fifteen hours of electives. The fifteen hours of electives are taken either in subject matter courses or professional education, or distributed between these two subject areas, subject to the needs and wishes of the student and to the approval of the advisor(s).

The program breakdown is as follows:

- 20 hours — Professional Education and Research
- 25 hours — Specialized Content
- 15 hours — Electives (Professional, subject matter, or both)

Twenty hours in professional education and research is required. These courses briefly described, include (1) Advanced Studies in Human Development and Learning or The Nature and Conditions of Human Learning; (2) Curriculum Planning; (3) Social Foundations of Education; and (4) Educational Research or Field Project.

The twenty-five hours of specialized content are designed to assist the teacher toward becoming a master teacher through the mastery of meaningful sequential concepts and skills related to specific fields of knowledge. The Division of Education is working with academic Divisions to encourage their development of courses that may be selected by elementary teachers as areas of concentration. The science department has begun developing several such courses. According to present and prospective staff strength, areas of concentration are planned in (1) social sciences; (2) science; (3) reading, speech, and linguistics; (4) foreign languages; (5) mathematics and science; and, (6) art and music.

The fifteen hours of electives are planned for increasing the student's overall competency either through (1) adding further strength to a developed interest area, or (2) developing an additional interest outlet, or (3) compensating for identified needs. Electives may be selected from among professional education, subject matter courses, and suggested elective areas.

Upon admission to the graduate program, the student is assigned an advisor who guides the student in developing his program. Not later than mid-point in his program, or by the time that thirty quarter hours have been earned, the student is required to file an application for admission to candidacy.

Approval of that application is a certification that the student has made satisfactory progress to that point and that he is being granted candidacy admission subject to the conditions that follow:

Certification by his advisors that (a) he had made satisfactory progress in all courses pursued; (b) that he has received a satisfactory score on the National Examinations; and (c) that he has earned an undergraduate degree from an approved institution in a program which meets the approval of the Division of Education of the College.

ORGANIZATIONS AND ACTIVITIES

Savannah State College puts great emphasis upon a rich and varied religious life program. Through its religious activities, the College seeks to develop an understanding of and an appreciation for the place of religion in everyday living, to deepen spiritual insight, and to make the practice of Christian principles a vital part of the life of the well-educated citizen.

Religious life activities are directed by the College Minister. The Sunday School, Y.M.C.A., Y.W.C.A., Newman Club, and the Annual Religious Emphasis Week, provide opportunities for religious growth and development under the supervision of the Religious Life Committee.

Savannah State College contributes to the attainment of a well-rounded education by providing many opportunities for students to participate in a wide range of organized groups. Programs are planned for the social, religious, and cultural advancement of the college community.

The Savannah State College Student Government Association, composed of representatives of all classes, works with the administration of the College. It works also with the various campus organizations and sponsors projects for the general welfare of the student body.

The Tiger's Roar, official student newspaper, is published every six weeks by students under the supervision of the Coordinator of Student Publications.

The following organizations also provide media for expression of student interest: Art Club, Business Club, Camera Club, Collegiate Counselors, Creative Dance Group, Debating Club, Dormitory Councils, Economics Club, Newman Club, "Players by the Sea," the dramatics group; Social Science Club, Student Loan Association, "Tiger's Roar," Trade Association, Ushers Club, Varsity Club, Future Teachers of America (NEA), Home Economics Club, Veteran's Club, Y.M.C.A., N.A.A.C.P., Women's Council, Boar's Head Club, Canterbury Club, "Tiger," student yearbook; and numerous civic and Civil Rights programs.

The following national sororities are organized on the campus: Alpha Kappa Alpha, Sigma Gamma Rho, Zeta Phi Beta, and Delta Sigma Theta.

The Department of Health and Physical Education conducts a well-rounded intramural athletic program of seasonal activities for men and women. Utilizing group games and various sports for their full educational values, the program features football, basketball, track, field hockey, and badminton.

A member of the Southern Athletic Conference, Savannah State College maintains competition in all sports sponsored by the conference. The College also holds membership in two national athletic associations, N.C.A.A., and N.A.I.A.

To complement formal education on the campus, the college provides many activities for cultural enrichment. Student assemblies, institutes, debates, motion pictures, lectures, art exhibitions, dramatics, forums, athletic contests, concerts, hobby groups, and tours, contribute to the general welfare of the community.

ATHLETICS AND PHYSICAL EDUCATION

The Department of Health and Physical Education conducts a well-rounded intramural program of seasonal activities for men and women in Wiley-Willcox Complex. Utilizing group games and various sports for their full educational and health values, the program features football, basketball, track, tennis, boxing, golf, baseball, softball, volleyball, field hockey, swimming and badminton.

In intercollegiate athletics, Savannah State College is a member of the Southern Intercollegiate Athletic Conference, and maintains competition in all sports sponsored by the conference. The College also holds membership in two national athletic associations: NCAA and NAIA.

GENERAL INFORMATION

REQUIREMENTS FOR ADMISSION

Persons who are at least fifteen years of age and who present evidence of good moral character, adequate ability, sound health, and interest in a specific course of study are eligible for admission to the several departments of the College.

Each candidate for admission is required to make formal application and thereafter submit such credentials as may be needed to support the application. Admissions correspondence should be addressed to the Director of Admissions. The application form with instructions may be obtained by writing the Director of Admissions.

ESTIMATED GENERAL EXPENSES

For One Academic Year of Three Quarters

Note: Fees remitted by mail should be sent by money order, cashier's check, or certified check payable to SAVANNAH STATE COLLEGE. Fees paid in person will be accepted in cash, money order, cashier's check, or certified check.

	Per Quarter	Per Year
Matriculation Fee	\$105.00	\$ 315.00
Health Fee	7.00	21.00
Student Activity Fee.....	15.00	45.00
Student Group Insurance (voluntary)		
Total Charges—Day Student.....	*127.00	*\$ 375.00
Room, Board and Laundry.....	217.00	651.00
Total Charges—Boarding Student.*	\$344.00	\$1,026.00
Non-Residents of the State of Georgia, Matriculation Fee is \$135 per quarter.		

The above table includes basic fees only. Other charges are assessed where applicable. All matriculation charges, board, room rent, or other charges are subject to change at the end of any quarter.

Normal cost of books and supplies approximates \$50.00 per quarter. Students are required to secure all books, supplies, and tools necessary for satisfactory completion of the courses for which they are enrolled.

All fees are due and payable at the time of registration. Students are required to meet financial obligations promptly. Persons granted scholarships or work-aid assistance will be duly notified in writing, and money accrued from these sources will be credited to their accounts.

Veterans coming to Savannah State College should bring with them sufficient funds to pay all fees as indicated on the Schedule of Fees.

SELF HELP OPPORTUNITIES

Worthy and industrious students may help to meet college expenses through part-time employment, provided they maintain satisfactory scholastic averages. These work opportunities include such jobs as clerical and stenographic work, library work, waiting tables, washing dishes, pantry and kitchen work, skilled and unskilled work in trades and maintenance.

SCHOLARSHIPS

A limited number of special scholarships are available to selected students who meet the required standards of scholastic merit, high character, general promise, and superior achievement in certain specific areas of the college program.

The aim of the National Defense Student Loan Program is to create at American Colleges and Universities loan funds from which needy students may borrow to complete their higher education. Students interested in National Defense Loan Funds, should write the Dean of Students, Savannah State College, Savannah, Georgia 31404.

*Freshmen and Entering Students pay an additional \$10.00 General Deposit required of all students upon initial registration in any unit of the University System. In keeping with the vote of the student body in May, 1962, each student will be assessed a \$6.00 Yearbook Fee due and payable at the Fall Quarter Registration, or the student's initial registration. Please refer to the current college catalogue for a complete schedule of fees.

Alumni Secretary Writes . . .

The following is a copy of a speech delivered by Robert Bess, Alumni Secretary, to the North Jersey Chapter of the Savannah State College National Alumni Association, during their installation ceremonies on Sunday, April 12, 1970 in Newark, New Jersey.

As we pause here today to pay tribute to your inauguration as a new chapter of the Savannah State College National Alumni Association, I feel compelled to begin by stating that the state of the College, at present, is excellent. I say this in this way because as you can imagine in this day of open rebellion, student unrest and revolt, the demands and pressures placed on an institution of higher learning both internally and externally are almost insurmountable. From mixed faculties representing old and new points of view in regards to the whole matter of educational objectives, purposes and organizational structure, to a very aggressive new student who is no longer willing to accept a back seat in regards to relevance of subject matter—from an active and productive alumni association whose views in regards to student activities and regulations might differ radically from the views of the students involved, to a contributing community who constantly raises the question of the economic feasibility of two state supported four-year institutions operating in the same community.

I'm happy to report that both because of, and in spite of the pressures from all sources Savannah State, your Alma Mater, is still a thriving, growing productive institution of higher learning, presently making greater strides than at any past period in its 80 year history. We presently boast a student population of approximately 2,500, a faculty of 115, with 30% holding the doctorate degree and an active contributing alumni Association. We have had a sixty-nine percent increase in student enrollment over the last five years, approximately 14% per year and projections indicate that this trend will continue. We are presently in the 5th year of a 10 year building program with 8 new buildings having been added to our campus within the last 6 years, with five more either presently under construction or scheduled to be started within the next two to four months. In addition, there are others scheduled to be placed on campus within the next five years. During the late winter quarter, we witnessed the completion of sidewalks, a sewerage and drainage system, and an over hauled heating system. We are presently involved in the first organized beautification program on campus that will cause shrubbery to be placed on campus according to a landscape design.

In spite of our growth, in spite of our progress, in spite of our optimism this afternoon, or maybe even because of these, the needs of the institution are greater today than ever before. Yes, the demands for services, the demands for the best by way of total student preparation force us into continued efforts to provide quality educational programs and services for the youth we serve. As you might well expect we need additional funds. While we are a state

"assisted" institution, public funds are never sufficient to provide a truly great institution; they provide the basis but funds for the creation and maintenance of the margin of excellence must come from the private sector. We need funds for student assistance—to help capable, deserving students, who cannot afford the price of an education, defray the cost of their training. Last year through the N.D.E.A. Scholarship Matching program, Savannah State College provided \$141,207 in financial aid to 392 students, \$17,995 of which had to be provided by the college. While this might appear to be a large number receiving such aid, it is safe to add that less than 50% of the students needing and qualifying for assistance were able to receive it. Funds are needed for our Athletic program to assist in providing a strong team capable of competing with the very powerful opponents in the new conference, the SIAC; the state does not provide funds for athletics. Funds are needed for faculty development, for research, for a better equipped band and for general unrestricted operating expenses.

In addition to the need for funds, the college needs well qualified, capable students. We need to attract and recruit a greater percentage of students graduating from high school in the upper quartile. This kind of student can do much to enhance the image of the institution. We need Friends—individuals from all walks of life who are willing to support the institution in all respects and most especially to sing the praises of the college—to talk positively about the college and the things we do. And most importantly, we need *you* and other alumni like you.

Now that you understand to a degree the state of the college and now that you have a slight idea as to our needs, I feel the urge to take one additional minute to challenge you to the realization of the responsibilities that you undertake as a new chapter. But first let me congratulate you and thank you for becoming an organized group of conscientious supporters. I'm encouraged today by many of the things that I see happening in the Alumni Association—the dawn of a new spirit—the awakening of a new conscious. In February we installed a new chapter and were very impressed with their progress. Two nights later I met with a new group in Detroit who wanted to know just what do we have to do in order to become an organized affiliate. They held their organizational meeting two weeks later and I expect to present their charter in the very near future. Last week I met with a new group in Miami, they held their organizational meeting on Friday night, and here today we're with you.

It is then in this spirit of optimism that I charge you as a new chapter with the responsibility of working cooperatively together in the true spirit of Savannah State College, remembering and maintaining at all times the lofty ideals of your Alma Mater—I charge you with the responsibility of putting aside individual wishes when they do not coincide with those of the majority, I charge you with the responsibility of maintaining an abiding faith in and love for Savannah State College and the National Association, and finally I charge you with the responsibility of selection and recruitment of the worthy sons and daughters of North Jersey and for supporting your Alma Mater and National Association both morally and financially.

Throughout this discourse, I have continuously alluded to my habitual stance of optimism and positive movement, may I conclude on the same note. Without doubt this philosophy has been influenced by the thinking of Oliver Wendell Holmes who is given credit for the following statement: "I find the great thing in this world is not so much where we stand, as in what direction we are moving." For Savannah State College and the alumni association there must be only one direction—Forward!

NATIONAL PRESS INSTITUTE HELD AT SSC

WORLD FAMOUS HONOREES

The honorees featured at the Awards Luncheon included: The Honorable Carl Stokes, Mayor of Cleveland, who received an award for Outstanding Service in Political Affairs; The Honorable Michael Collins, Assistant Secretary of State for Public Affairs (Astronaut), for Outstanding Service in Public Affairs; The Honorable James Farmer, Assistant Secretary for Administration, HEW, for Outstanding Service in Human Rights; and Robert Joiner was presented the Outstanding Student Journalist Award.

RENOWNED CONSULTANTS

Consultants and Resource Persons for the Press Institute were: Madeline R. Gill, Yearbook Coordinator, Howard University; John V. Fields, Professor of Journalism, University of Michigan; Elizabeth Deal, Supervisor of English, Chatham County; W. Eugene Nichols, Associate Professor of Journalism, Georgia State University; Louis Corsetti, Head of the Journalism Department, West Liberty State College; Marion Jackson, Sports Editor, Atlanta Daily World; Alan Bussel, Director of Public Information and Publications, Clark College; Doris C. Vaughn, Director of Publications, Southern University; Archie Whitfield, City Manager, Savannah Morning News; Thomas Coffey, Assistant to the City Manager, City of Savannah; Lawrence Bryant, Sales Representative, American Yearbook Company; Mrs. John V. Fields, University of Michigan; Otto McClarrin, Director of Public Relations, Howard University; Lester Johnson, Instructor, Savannah State College; and many others.

EDITORS-IN-RESIDENCE

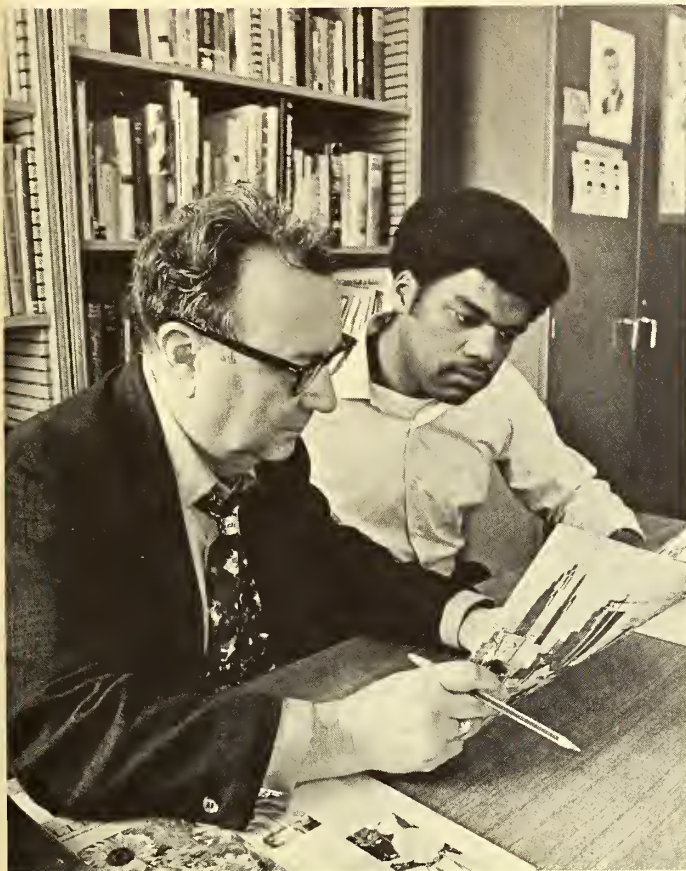

The Institute was favored with the presence of four outstanding editors who served as Wall Street Journal Editors-in-Residence. They were: Sylvan Meyers, Editor, Miami News; James P. Brown, Editor, Saginaw News; Patrick Kelly, Editor, Winston-Salem Journal; and Ralph Langer, Editor, Dayton Journal Herald.

HONORARY CHAIRMEN

Dr. Howard Jordan, Jr., President of Savannah State College served as the Honorary Chairman. The Honorary Vice-Chairmen included: J. C. Lewis, Jr., Mayor of Savannah; Jack P. Nix, State Superintendent, State Department of Education; State Representatives, Joseph Battle, Morris W. Elliss, Arthur Funk, Alan S. Gaynor, Bobby L. Hill, and George N. Whaley; County Commissioners, Robert F. Lovett, T. E. Clifton, Edward S. DuFour, John P. Rousakis, and L. Scott Stell, Jr.

Chief Advisor to the *Pacemaker*, a newspaper published by the participants of the Press Institute, was Robert Joiner, a graduate journalism student at the University of Michigan and a former All-American Editor at Savannah State College. Joiner was the only student editor to win All-American honors from the Educational Press Association, U.S.A.

Newspapers and yearbooks were judged by the staffs of the *Savannah Morning News* and *Savannah Evening Press*. Awards were given for the most outstanding publications in the junior and senior college divisions, junior and senior high schools, and elementary schools.

The 19th Annual Savannah State College National School Press Institute and College Communications Workshop was held at the DeSoto Hilton Hotel on February 19-21, 1970. "THE SCHOOL PRESS: A LOOK AT THE 70's" was the theme. Wilton C. Scott, Director of Public Relations and Continuing Education, Savannah State College, directed the three-day meeting. The Press Institute was open to all publication advisers and publication staff members. Delegates representing 46 colleges and high schools from a cross-section of the United States attended. The National Press Institute is affiliated with the Columbia Scholastic Press Association and numerous national school-press agencies.

The Keynote Address was delivered by Donald M. Wendell, Special Assistant Secretary for Administration, Department of Health, Education and Welfare, Washington, D. C., on Thursday, February 19th at 9:00 a.m. at the DeSoto Hilton.

Dr. E. Frank Ellis, Director of Public Health and Welfare, Cleveland, Ohio, delivered the public address at the assembly on Friday, February 20th at 10:20 a.m. at Savannah State College in the Wiley-Willcox Gymnasium. The Awards Luncheon speaker was the Most Rev. Gerard L. Frey, Bishop of the Savannah Diocese. The Luncheon was held at 1:00 p.m. on Friday, February 20th, in the Grand Ballroom of the DeSoto Hilton.

SSC'S DEAN'S LIST FOR WINTER QUARTER

Dr. Calvin Kiah, Dean of Faculty at Savannah State College, announced that 115 students made the Dean's List during the winter quarter. Each person has attained an average of 3.50 or higher on a full program. They are: David L. Akins, Bainbridge, Ga.; Daisy Alexander, Elberton, Ga.; Johnnie M. Allen, Helena, Ga.; Cynthia Anderson, Savannah, Ga.; Bennie Arkwright, Savannah, Ga.; Peggy D. Atcherson, LaGrange, Ga.; Caesar A. Austin, Attapulgus, Ga.; Paul Bailey, Jesup, Ga.; Jerome Baker, Savannah, Ga.; Willie Benyard, Savannah, Ga.; Tom Bolden, Lyons, Ga.; Wilmotine Brisbane, Savannah, Ga.; Jacqueline Brock, Montezuma, Ga.; Janie Brown, Savannah, Ga.; Maxine A. Brown, Savannah, Ga.; Sharaveen Brown, Miami, Fla.; Doris Bryant, Macon, Ga.; Calvin L. Butts, Sparta, Ga.; Bobby S. Carlyle, Millen, Ga.; Gloria Carroll, Harlen, Ga.; Marietta Carter, Lownors County; Ronald Clark, Newark, N. J.; Lamar Clarke, Chicago, Ill.; Shirley Crawford, Savannah, Ga.; and Carolyn David, Savannah, Ga.

Also Roseman L. Deas, Georgetown, S. C.; Harold Ector, Griffin, Ga.; Tommy Elder, Covington, Ga.; Barry Ellis, Broxton, Ga.; Elizabeth Fields, Savannah, Ga.; Freddie L. Florence, Brunswick, Ga.; Eloise C. Formey, Appling County; James Fowler, Jr., Warrenton, Ga.; Joyce Gease, Atlanta, Ga.; Nathaniel Golden, Perkins, Ga.; Michael N. Greene, Savannah, Ga.; Juanita Harris, Washington, D. C.; Thomas Harris, Sandersville, Ga.; Ann Hayes, Thomasville, Ga.; Aurico Hill, Macon, Ga.; Claudia Howell, Savannah, Ga.; Udella Huckaby, Moultrie, Ga.; Patricia Hunter, Savannah, Ga.; Dazola Jackson, Savannah, Ga.; Gloria E. Johnson, Savannah, Ga.; Charles C. Jones, Riceboro, Ga.; Debra Jones, Lithonia, Ga.; Dorothy Jones, Savannah, Ga.; James S. Jones, Savannah, Ga.; Mary A. Jones, Statesboro, Ga.; Oliver Jones, Statesboro, Ga.; Samuel Jones, Savannah, Ga.; Lillie Mae Key, Cedartown, Ga.; Karen L. Lashley,

Cheraw, S. C.; Andrew Lewis, Harlem, Ga.; Charles E. Ling, Savannah, Ga.; Brenda Logan, Savannah, Ga.; Percy A. Mack, Savannah, Ga.; Clarence Martin, Baxley, Ga.; Shirley Mathis, Atlanta, Ga.; Josephine Maxwell, Savannah, Ga.; Elijah McDuffie, Savannah, Ga.; and James P. McLendon, Washington, Ga.

Also Sandra Meachum, Savannah, Ga.; Ronald Mikel, Hagan, Ga.; Wiletha E. Mills, Savannah, Ga.; Shirley A. Mims, Savannah, Ga.; Singh Mohinder, Savannah, Ga.; Johnny Morant, Georgetown, S. C.; Linda Morgan, Boston, Mass.; Carolyn D. Mosley, Swainsboro, Ga.; Solomon Myers, Edward E. Oglesby, Tallahassee, Fla.; Beverly B. Outler, Savannah, Ga.; Ivy D. Page, Jerelene Parrish, White Oak, Ga.; Robert Patillo, LaGrange, Ga.; Joyce Perry, Augusta, Ga.; Michelle J. Perry, Atlanta, Ga.; Beverly Pickett, Alma, Ga.; Joseph Pickett, Jr., Alma, Ga.; David Plair, Jr., Millen, Ga.; Margaret Powell, Savannah, Ga.; Michael Pratt, Savannah, Ga.; James Price, Girard, Ga.; Celestine Pringle, Georgetown, S. C.; Carletha Quarterman, Savannah, Ga.; Mary Reddick, Riviera Beach, Fla.; David Roberson, Savannah, Ga.; and Gloria Roberts, Riceboro, Ga.

Also Willie Roberts, Terrence Romanski, Gary, Ind.; Jacqueline Ross, Tifton, Ga.; Geraldine Russell, Gray, Ga.; Lena Scream, Dublin, Ga.; Brenda G. Shoultz, Savannah, Ga.; Joan Simmons, Savannah, Ga.; Andrea Smith, Savannah, Ga.; Stanley C. Smith, Savannah, Ga.; Edward Stinson, Naranja, Fla.; Emily Tait, Savannah, Ga.; Doris E. Walker, Savannah, Ga.; Freddie M. Walker, Savannah, Ga.; Sophia D. Wayne, Kingsland, Ga.; Geneva White, Patricia White, Savannah, Ga.; Annie Williams, Lexington, Ga.; Charles U. Williams, Savannah, Ga.; Jacqueline Wyatt, Atlanta, Ga.; Shirley Young, St. Petersburg, Fla.; and Betty Zeigler, Savannah, Ga.

SAVANNAH STATE SHORTS

NEW COURSES ADDED TO CURRICULUM

The following new courses have been added to the curriculum:

Education: Seminar in the Teaching of Foreign Languages—Discussion of various methods of teaching foreign languages with special emphasis on the audiolingual method, discussions, etc.

English: Journalism—To create opportunities for professional evaluation and guidance; to aid the participant in acquiring and improving scholastic newspaper and curriculum offerings, to develop an appreciation for the printed word and its influence on the reader. It will be offered during the Fall quarter for five credit hours.

English: Journalism 431—Practice in writing for newspapers, radio, TV, business publications, and other media. Five class hours a week during the winter quarter, the course will be offered, for five quarter hours.

English: Journalism 432—Writing and merchandising of the non-fiction feature for Sunday magazine supplements, newspapers, and magazines. The course will be offered for five hours a week during the Spring quarter for five hours credit.

Sociology 460, Sociological Perspectives on Black Culture; Sociology 462, The Black Man in the Third World; Biology 414, Radiation Biology is under consideration by the Department of Biology.

ATHLETIC ASSOCIATION REACTIVATED

The Savannah State College Athletic Association, inactive since its founding in 1964, was reactivated during a recent meeting of the Board of Directors. According to Mr. John McGlockton, President, the Association was reactivated to assist the athletic program at Savannah State College to become competitive in the new SIAC Conference.

The Athletic Association was granted a Charter in January 1964. One of the major purposes of the association as stated in the Charter is "to provide facilities of every kind for the conduct of athletic activities, games, exhibitions and contests by and for the benefit of Savannah State College."

At the initial meeting the group decided that membership dues would be set at \$50 for all members. All Alumni Century members would automatically be considered members of the Athletic Association because of their contribution to the Century Club (\$100 or more). Mr. McGlockton stated that membership in the Association is open to any of the general public who are interested in promoting the athletic program at Savannah State College.

According to Mr. McGlockton, goals of the Association are: securing one hundred new members, lights for the football stadium, completing the east side of the stadium, and providing at least \$5,000 in funds for athletic scholarships for the 1970-71 school year.

Persons interested in additional information should contact Mr. John McGlockton, President (234-6807); Dr. Prince Jackson, Secretary (354-5717, Ext. 332), or Mr. Robert Bess, Development Officer (354-7865).

The Graduate Program at Savannah State College

I feel that the graduate program at Savannah State College is doing an excellent job in preparing master teachers for the jobs we are now engaged in. We are living in a changing society, and this program is an incentive in helping us to cope with these changes.

I have been benefited by this new program at Savannah State and if there are any inconsistencies, I am sure they will vanish as the program grows. I am hoping that this will eventually become a graduate school in all areas.

— Edith S. Brown

S. S. C. Alumni in D. C.

The Eastern Region of the Savannah State College National Alumni Association held its annual meeting, Saturday, December 18, at Marlboro Plaza in Washington, D. C. The D. C. Chapter was host to the delegates and officials of the College.

In attendance were: Dr. Howard Jordan, Jr., President of Savannah State College, who delivered the principal address; Dr. Prince Jackson, Jr., Chairman, Division of Natural Sciences and Alumni Secretary; Robert L. Bess, Development Officer; Daniel Washington, National Alumni President; Miss Mettella Maree, President of Savannah Chapter; Mrs.

Rozlyn Blakeney, of Philadelphia Chapter; Mr. and Mrs. Raymond Knight, and Mrs. Margaret Grant, of New Jersey.

James O. Thomas, Vice-President of the Eastern Region, presided. He indicated the need for unified effort to update the calibre of athletics at Savannah State College. Those in attendance were welcomed by Dr. Julius Gooden, President of D. C. Chapter. Among the alumni members and guests were Alfonso McLean, Michael Angelo Grahani, Mr. and Mrs. Howard Lee, Ellis M. Trappio, Cleveland Brown, Julius Smith, Mrs. Velma Zeigler, Mrs. Ora Washington, Miss Frances Shellman and Milton Brown.

Physical Changes at SSC

Savannah State College is at present undergoing a few physical changes: foremost of these is the construction of a dorm for 200 female students, eleven faculty homes, and a proposed natural science building.

The new dorm is being constructed adjacent to Lester, Camilla Hubert and Lockett Halls. The dorm is being built by the Walter Strong Company of Savannah. It will be five stories high, and costs \$925,000.

The \$1.1 million science building, which will include a low-radiation nuclear laboratory, will be located in the vicinity of the Kennedy Fine Arts Building and the stadium on the north side of the present campus access road, and will be constructed by the Reeves E. Worrell Company of Savannah. The two-story structure will be of yellow brick exterior similar in style to the Kennedy Fine Arts Building.

The low-radiation laboratory will be on the second and will have a special safety wall and an enclosed section to be used as a Geiger scale counting room. An additional 10 laboratories on that floor will include bio-chemistry, chromatography, instrument and dark room, and other special laboratories for chemistry and physics. Only one lecture room is to be placed on the second floor.

The first floor will house the biology department with seven larger laboratories, a small laboratory for distilling, sterilization and incubation, an electron microscopy laboratory, a laboratory with constant temperature, live animal range and a special men's room adjacent to it, six instructors' offices with private laboratories adjoining.

A colorful decorative tile frontispiece will be placed over the doorway on the north, or access road side. The south side of the building also will have frontal appearance because in plans for future campus development a proposed campus perimeter roadway will skirt the site on the south. A mall is proposed with additional buildings to be constructed in the area where the present access road is located.

In addition to these buildings, a warehouse maintenance building, and eleven faculty homes will be constructed east of the football field. The College is now in the initial stages of planning for a new library.

All of these improvements and accomplishments are indeed a tribute to the president of our fine institution, Dr. Howard Jordan, Jr.

Henry Collier, Chairman of the SSC Scholarship Drive presents Distinguished Service Plaque to Mrs. Madeline Hannah during Alumni Weekend Festivities.

Dr. and Mrs. Howard Jordan, Jr. pose for photographer during Senior Reception in Peacock Hall lobby.

SSC students board the train to begin journey to Africa as a part of the African Seminar program at the college.

SSC Initiates Degree In Criminal Justice

Savannah State College has been approved to offer a program in Criminal Justice. This is one of the few 4-year programs in the country and it leads to the Bachelor's Degree upon completion. It is open to all persons who are engaged in a field of activity related to law enforcement on either a full or part-time basis.

To encourage prospective enrollees to enter the program, a limited number of loans and grants are available. Interested persons should contact R. Wilbur Campbell, Director of Admissions and Financial Aids Officer, Savannah State College.

Alumni Enjoy Gala Weekend

Approximately two thousand alumni joined students, parents and friends of Savannah State College during the Alumni Homecoming weekend on October 25, 1969. Many alumni and friends lived at the Manger Hotel in downtown Savannah during their stay here for the weekend activities. Those participating began the weekend with the Annual National Alumni meeting held in the A.V. Center of Gordon Library on Friday night. The meeting was followed by alumni and friends returning to the Manger Hotel for hospitality sponsored by the National Association. Saturday began with Savannah State College's parade at eleven o'clock a.m., followed by the game between the SSC Tigers and the Clark College Panthers (the Tigers won by a score of 32-16). At six p.m. the banquet began with several awards being given for sustained service to the Association during the sixties and the awarding of certificates to the Century Club members. The banquet was followed by the annual dance during which several people won prizes; the first prize, a 1970 Rambler-Hornet, was won by Mrs. Elizabeth Hall, Savannah; second prize, a portable color TV, won by Robert Mullen of Chicago, Ill.; and third prize, a transistor radio, won by Asay A. Eaddy, also of Chicago.

The homecoming weekend this year proved to be a success in every way. Mr. James Thomas, '56, of Washington, D. C., seemed to have expressed the sentiments of all alumni when he said, "this was without doubt the best homecoming I have witnessed since I left Savannah State."

Exchange Courses Taught

Dr. Calvin L. Kiah and Dr. Dean Propst, the Deans of Faculty at Savannah State College and Armstrong State College, announced that the two respective Callaway professors will conduct the initial courses between Savannah State College and Armstrong State College.

The Callaway professors are Dr. Joseph Killorin, Professor of Literature and Philosophy at Armstrong State College, and Dr. James Kelsaw, Professor of Sociology at Savannah State College. The courses to be exchanged are: Natural Right: History of an Idea—Plato to Martin Luther King, to be conducted by Dr. Killorin at Savannah State College, and Perspectives on Black Experience in the United States, which will be offered at Armstrong State College and taught by Dr. Kelsaw.

Dr. Densler Named Alumnus of Month

Dr. James F. Densler, '54, an Atlanta practicing physician, has been designated "Alumnus of the Month" for January by the Atlanta Chapter of the Savannah State College Alumni Association. Dr. Densler, a native of Savannah, Georgia has many significant achievements to his credit; a few of them are listed: received the Bachelor of Science Degree from Savannah State College in 1954, received the M.D. with the top rank in the class of 1961 at Meharry Medical College in 1954, internship and residency in General Surgery was completed at the USPHS Hospital, Staten Island, New York. Diplomat, American Academy of Pediatrics, received an "Outstanding Soldier" Award in 1956 at Tripler Army Hospital in Honolulu. He is a member of a number of professional organizations, and a member of the Kappa Alpha Psi Fraternity. Dr. Densler's wife, Mabel Wesley Densler, received the R.N. and M.S. degrees from Meharry Medical College and Boston University respectively. They are the parents of two active children, James, Jr., and Duane.

Dr. Densler holds appointments at the following Atlanta hospitals: Hughes Spalding Pavillion, Georgia Baptist, St. Joseph's, McIendon's, and Holy Family.

The Atlanta SSC Alumni are pleased to designate Dr. Densler as an outstanding physician who is making a significant contribution to the progress of the Gate City of the South.

SSC Mourns the Loss of Dr. Griffith

Dr. Booker T. Griffith, chairman of the Division of Natural Science and head of the biology department at SSC for the last twenty-five years, died on Sunday evening, February 15. Dr. Griffith was a native of Prentiss, Mississippi. He received the Bachelor of Science, Master of Science and the Doctor of Philosophy degrees from the University of Pittsburg.

Dr. Griffith has served as Divisional and Departmental chairman at New Orleans University, Clark College and Fort Valley State College before coming to SSC. After twenty-five years of service and dedication to Savannah State College, he retired with the honor of Professor Emeritus of Biology, July 1st, 1969. He was the first professor in the history of the college to receive this distinction.

He is survived by two sons, Booker T. Griffith, Jr., Edgar Henry Griffith, and one brother, Theodore R. Griffith of Tyler, Texas.

Funeral services were held on Wednesday, February 18th at the Butler Presbyterian Church.

Attention Kappas!!!

*Dr. Prince Jackson, National Secretary
Savannah State College Alumni Association
Savannah State College
Savannah, Georgia*

Dear Dr. Jackson:

I have been in contact with Joseph Bristow, San Bernardino, California, and J. Franklin Wells, Miami, and we would like to contact all the Charter members of Gamma Chi Chapter of Kappa Alpha Psi Fraternity. This Chapter was set up in 1950 and it is our thinking that it would be appropriate to get together for a twenty year reunion.

I have written Julius Williams, Polemarch of the Savannah Chapter, but just in case he may not react immediately, I am asking for whatever help you may be able to offer.

I am listing the names of the members other than those listed above: Randolph Dennis, Billie A. Johnson, Henry Lockhart, Russell R. Mole, William P. McLemore, Oliver Murray, Leon Schmidt, Walter Strickland, Solomon Bynes, Emerson Walker.

I believe this is the complete roster; however, there may be others. If possible, one of the undergraduate members of the Chapter there may examine the Charter for additional names.

We are aware of the limited time to get things arranged, but we trust that we can reach as many as possible. Probably we could arrange the date during the week of Commencement Activities.

I trust that they have not been as negligent as I have about the Alumni Association and have remained active. There are some twenty alumni living here in this area. Each time we mention the Association they are all interested but when you call a meeting no one will show up, nor will they respond to notices or communication.

Looking forward to hearing from you, I remain

Respectfully yours,

Outstanding Teacher

Frances McBride

Mrs. Frances Eberhardt McBride, daughter of the late Mr. and Mrs. Lucius B. Eberhardt, Sr., is a native of Athens, Georgia. She is one of seven children, all of whom are graduates of the Athens High and Industrial School, recently renamed Burney Harris High School. Her parents are cited as having exerted the greatest influence on her life.

She attended Savannah State College, graduating with a B.S. in Home Economics. She received the M.A. Degree from Atlanta University. She has done further graduate work at Atlanta University and the University of Georgia.

Mrs. McBride is very active in the civic-social-religious and educational life of Athens, where she now lives. In 1958 she was named "System Teacher of the Year."

She is a member of the Local, Region, State and National GTEA, NEA, PTA; a member of the American Association of University Women, Ebenezer Baptist Church, Bon Bon Club, American

Civil Liberties Union, Girl Scouts of America, Young Women's Christian Association, Light of the World Church Club, Silhouette Club of Athens Alumni Chapter of Kappa Alpha Psi Fraternity.

She has served in the following positions of leadership:

Vice-President of Clarke County Unit of GTEA, President of Region Four ACT, Vice-President Elect of State Association of ACT, Vice-President of Clarke Junior High PTA (2 years), Chairman of Social Science Committee at Alps Road School, Chairman of Awards Committee for Social Science Fair, participant on Professional Day Programs, served local organization in following positions: Secretary 4 years, Chairman of Program Committee 2 years, member of Legislative Committee, member of Social Committee, worked on local Salary Committee 1968-1969, served on local Merger Committee 1968-1969, and a member of the National ACT Advisory Council.

Places of responsibility (excluding professional educational organizations) in organizations of which the teacher is a member are as follows: Sunday School Teacher, Ebenezer Baptist Church; Director of Junior Ushers, Ebenezer Baptist Church; President of Silhouette Club of Athens Alumni Chapter of Kappa Alpha Psi Fraternity; Girl Scout Leader; Chairman of Hospitality Committee, American Association of University Women; Chairman, Hospitality Committee, Ebenezer Baptist Church.

Participants in the Teacher Education Workshop listen to one of the various lecturers during the one-day meeting.

Members of the Savannah State College Art Club work on their prize winning entry into the Savannah Arts Festival "Paint A Car Contest." Members of the club took first prize honors over Armstrong State College.

Dr. Coleridge Braithwaite plays the new organ, which is a recent addition to the Department's musical equipment.

ALUMNI - ALUMNAE

Alphonso McLean Selected Among D. C. Black Men of the Year

Washington, D. C.—Alphonso S. McLean, a 1961 graduate of Savannah State College, was honored as one of “Washington’s Great Black Men,” at an awards presentation sponsored by the Sophisticated Socialites Club recently.

McLean is President of the A. E. McLean Company, Inc., Washington’s first Black Business Furniture, Interior Design and Office Supply firm. The certificate of award presented cited Mr. McLean, “In recognition of sincere service and dedication to the community action efforts of the Washington Metropolitan area for 1970.”

Other outstanding honorees included: The Honorable Mayor of Washington, Walter E. Washington; U. S. Congressman from Detroit, John B. Coyers, Jr.; D. C. Councilmen, Joseph P. Yeldell, Sterling Tucker and Stanley Anderson; Dr. Paul Cooke, President of D. C. Teacher’s College; Reverend David Eaton and Walter E. Fauntroy; Actor Jaye Williams of the Great White Hope Production; Housing Developer, Reverend Channing Phillips.

McLean is a native of Savannah, Georgia and was a Business Administration major at Savannah State. His firm has projected one million dollars in sales for 1970. McLean has done additional graduate study at the American University in Washington.

Isaiah McIver Initiated Into International Fraternity

Isaiah McIver, an instructor in the History Department at Kankakee Community College, and a doctoral candidate at Loyola University, will be initiated a charter member of Phi Delta Kappa Fraternity at Loyola University, Chicago, Saturday evening, April 18, at a formal dinner at the university.

Phi Delta Kappa is an international professional fraternity for men in education. Membership is composed of recognized leaders in the profession and students whose leadership potential has been identified in the classroom, in educational research, or in educational administration. Members must have earned the baccalaureate degree and have attained a scholarship level acceptable for admission for candidacy for a graduate degree in the Chapter University. The organization’s purposes are to promote quality education, develop and maintain the democratic way of life, and implement a high quality of educational leadership through research, teaching, and other professional services concerned with, and directed toward the improvement of education.

McIver taught in the Massachusetts public school system and served as an assistant professor of social sciences at Savannah State College before assuming the deputy directorship of the Kankakeeland Community Action Program in 1966. In 1969-70 he was listed in Personalities in the West and Mid-West, was one of 10 recipients in 1970 of the Kankakee VFW Post 2857 Community Service Awards, and was invited by the Graduate School of Education at Loyola University to design, develop, and teach the first graduate course in the History and Theory of Afro-American Education to be introduced at a major American university in recent years.

McIver was recommended for charter membership by Dr. G. L. Gutek, Chairman of the Department of History and Philosophy of Education and by Dr. J. M. Wozniak, Dean of Loyola’s Graduate School of Education.

Board of Regents Appoint Clifford E. Hardwick, III

Hardwick poses with wife.

The Board of Regents of the University System of Georgia, appointed Clifford E. Hardwick, III, as an Assistant Professor at the University of Georgia, effective April 15, 1970. Hardwick serves as the Director of the Inner City Education Center which is cooperatively sponsored by Savannah State College, Georgia Southern College, Armstrong State College, and the University of Georgia. This program is located in the Model Cities Neighborhood, and has offices at 1314 Drayton Street, Savannah, Georgia.

The purpose of the Inner City Education Center, as stated by Dr. Howard Jordan, Jr., President of Savannah State College, who is serving as chairman of the executive board for the Center, is two fold: (1) To establish a pilot project whereby educational projects can be designed and offered to the people in the Model Cities area; (2) To serve as a seed-bed for educational research, which can provide clues for certain basic questions about deprived adults in an urban setting.

The program objectives are as follows: (1) To establish an organizational structure which will link relevant human and material resources to the educational needs of people in the program area; (2) To determine the problems and needs of people in the program area, establish priorities, and select the most appropriate courses of action; (3) To formulate educational programs and services that will meet the problems and needs identified; and (4) To seek active involvement of the institutions of higher education and relevant agencies in the formulation, implementations and evaluation of educational programs.

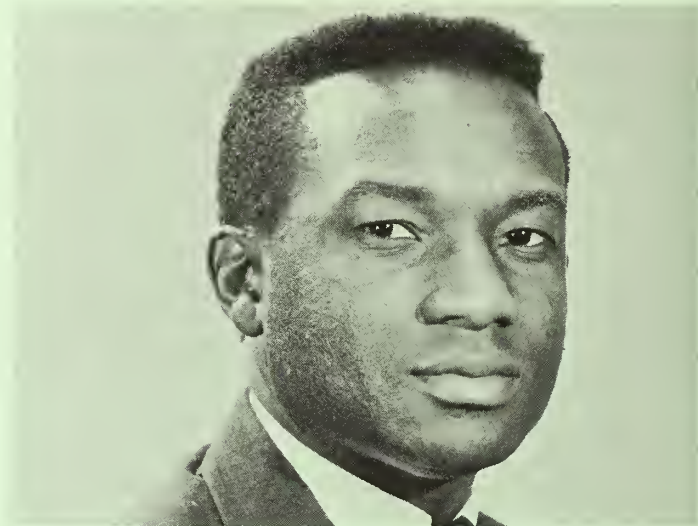

The other members of the committee include: Dr. Henry Ashmore, President of Armstrong State College; Dr. J. W. Fanning, Vice President of the University of Georgia, and Dr. John E. Eidson, President of Georgia Southern.

The University System, and the cooperative colleges, are delighted to have the services of an able educator such as Mr. Hardwick, to serve as the Director of this project. Mr. Hardwick received his early education in the public schools of Savannah, Georgia, the B.S. Degree from Savannah State College, and the M.S. Degree from the University of Pittsburgh. He has had additional graduate study at Howard University, North Carolina College, Atlanta University, and the University of Georgia. In 1969, Mr. Hardwick attended a six-week course at the Mott Leadership

Institute in Flint, Michigan, under a Mott Foundation Scholarship for Community School Directors. With the Savannah-Chatham County Board of Public Education, Mr. Hardwick has served as Chairman of the Biology Department of Alfred E. Beach High School, Supervisor of Secondary Education, and is presently serving as Director of Community Education. He is President of the Chatham County Teachers Association, and holds membership in numerous professional organizations on local, State, and National levels. Mr. Hardwick is listed in *Who's Who in American Education*, *Outstanding Personalities of the South*, *Community Leaders of America*, and *Creative and Successful Personalities of the World*. Mr. Hardwick is married to the former Beautine Williams, and is the father of two sons.

Operation of the Inner City Education Center is expected to begin immediately.

James Presents Paper

Christopher James

Christopher James, son of Mrs. Lizzie James of Woodbine, Ga., and a protein chemist at the U. S. Department of Agriculture's Northern Regional Research Laboratory, Peoria, Ill., presented a paper before the national meeting of the American Association of Cereal Chemists in Chicago, Ill. Mr. James, who appeared on the program Thursday morning, May 1, described the research work that he and his associates had done in studying some of the chemical changes that occur in proteins during the processing of corn to manufacture starch. To loosen this starch from the protein, the corn kernel is soaked in a sulfur dioxide solution. Mr. James determined the nature of the chemical changes that occur in the protein that cause it to be dissolved by the sulfur dioxide. He found that sulfur dioxide attacks the protein called glutelin.

This work is of special interest since in a new type of corn-high-lysine corn-glutelin is present in larger amounts than in ordinary corn. The new corn that is high in lysine—an essential amino acid—is an important development because it contains more nutritious protein. This research on the chemical evaluation of cereal grains is part of the program being conducted at the Northern Laboratory to increase the use of corn.

Mr. James is a graduate of Ralph Johnson Bunche High School in Woodbine. He received his B.S. degree in chemistry from Savannah State College, Savannah, Ga., in 1964. After two years of service in the U. S. Army, he joined the staff of the Northern Laboratory in 1966.

BLACK DEAN PLOWS TOUGH ROW

Assistant Dean Leonard

Reprint, *Harvard Law Record*

By Oliver Henry

From ploughman on a tenant farm to Assistant Dean of Harvard Law School—a long road—but one travelled by Walter Leonard.

Born during the depression in Alma, Bacon County, Georgia, Dean Leonard was fatherless by the time he was two years old, a fact which might account for him quitting high school in his sophomore year to join the Coast Guard. And while in the Guard, Leonard spent nearly four years as a messmate on a cutter patrolling the North Atlantic.

After leaving the Coast Guard, Leonard enrolled in Savannah State College where he became involved in the kind of activities and commitments to which good students and campus leaders fall heir: president of the college chapter of the National Association for the Advancement of Colored People, student reporter for the local newspaper, and a fraternity. But Savannah proved perhaps a little too small for the young man from Bacon County, so he left.

Dean Leonard completed his undergraduate education at Morehouse College and continued his studies at Atlanta University. While in Atlanta, he was involved in the life of that southern metropolitan city. In the premier city of Henry Gray's "New South," Leonard established the Leonard Land Company, a real estate venture which handled \$200,000 in business during its first full year of operation. This prowess in business earned for him a feature length article in the *Wall Street Journal*, the first Negro so noted by that "establishment" organ.

In 1965 Dean Leonard relinquished his Atlanta life and moved to Washington, D. C., where he entered Howard University Law School, commencing a new phase in a life which had begun on a Georgia tenant farm.

While a student at Howard, Leonard made *The Howard Law Journal*, was the first National Chairman of the Student Forum on International Order and World Peace, and served as a research assistant to then dean Clarence Clyde Ferguson, who, according to Leonard, "represents a sort of hero of mine." And upon his graduation in 1968, this relationship resulted in the dean offering to him the position of Assistant Dean of the Law School, a new post.

Leonard did make a contribution at Howard, for while assistant dean, he established an annual alumni giving program. Another project initiated at Howard was an alumni publication, *The Howard Lawyer*. Until the establishment

of this sheet, "the school only had the *Howard Law Journal* and the student newspaper, *The Barrister*. The *Lawyer* aided us in the development program and gave the alumni some means of communication to and about the school."

Work with development and alumni affairs were not the only areas of concern to Leonard while at Howard. "I attempted to involve myself in student affairs. It all goes back to how I see a university: it is a community made up of two kinds of people—senior scholars and junior scholars. The senior scholars are the faculty members because of age and experience while because of their searching and inquisitive minds the students represent the junior scholars. In this community each group in search of knowledge must work with the other because both have something to offer."

When Howard Law School was racked by a student strike, this view of the university fortified Leonard. "I didn't find that I was not with it because I had opened a dialogue with the students. They had been made to feel that they were important, had something to contribute. I felt as though I had been successful in this," he said.

With all of this success, one wonders why he chose to leave the mecca of the Negro legal profession for the predominantly white climes of Cambridge? For while at Howard, not only was he a ranking administrator, but he taught classes in Land Finance, Mortgages, and Real Estate. Seemingly, Leonard combined administration with teaching, a sometimes unusual ability. Only when confronted with this question does the short, cautious man in the conservative gray Herringbone appear hesitant.

So, the man who has travelled a long road resolved a dilemma that increasingly confronts talented Negroes: whether to remain within institutions in the larger society, perhaps, as important in the long run.

Being the first Negro anything involves a certain amount of ambiguity, but Leonard is quite comfortable in being first. Before coming to the Law School, he was the first Negro appointed to the summer session faculty of the University of Virginia Law School. And he is one of a very few Negroes involved in the mutual fund industry serving as a director of Investment Opportunities Fund, Inc., a no-load fund with a 50 million dollar capital authorization.

With this background, Dean Leonard feels that he can be of service to "the present number of black students at Harvard and to the increasing numbers certain to come." He feels strongly that he "can share with students an experience and observation in the business world and relate that to their legal education." Leonard makes it quite clear that he "won't be a spokesman for black students because his responsibilities at the Law School—as director of the first year financial aid program and assistant director of admissions with responsibility for all recruiting, not just blacks, involve all students."

Still he has some concern for Law School Negro students. "I am very impressed with the students here, especially the black students. These students have a right to demand someone on the administrative staff with whom they can relate on the basis of life style, color and, hopefully, commitment."

In some respects, the Law School's new dean is the stereotype of the successful man on the move, one who just keeps "trying to do an effective job on the goals" he sets for himself. But, in any case, Dean Leonard exemplifies a variation on that theme, for being a Negro, the trek from Bacon County to Chestnut Hill was somewhat more difficult, a bit more arduous than, perhaps, it had to be. But to all students, Dean Leonard says, "I'm here."

Lassiter Manages Clothing Store

Clarence Lassiter, a 1948 graduate of Savannah State College is presently manager of the Erie Clothing Company, Chicago, Illinois.

Lassiter received the B.S. degree in Agriculture Education. He has done further study at Chicago State Teachers College.

Lassiter has held positions as county agricultural agent, Walton County, Monroe, Georgia; salesman, Afro American Life Insurance Company, Atlanta, Georgia; salesman, Fuller Products Company, Chicago; salesman, Erie Clothing Company, Chicago; Assistant Manager, Benson Rixon Company, Chicago.

Presently, Lassiter's staff includes two cashiers, four full time salesmen, one window display man, tailor, four part-time salesmen and stockboys.

Lassiter was chosen as one of Chicago's ten Best Dressed Men in 1960 by one of the top social clubs in the city. He was also selected as one of the fifty most eligible bachelors by Ebony Magazine June 1969.

Civically, Lassiter is affiliated with the Auburn Park Businessmen's Association; Chicago Chapter, Savannah State College Alumni Association; Junior Chamber of Commerce, and the NAACP.

Serving Our Country . . .

U. S. Air Force Technical Sergeant Leon W. Schmidt, Sr., son of Mrs. Annie Bowman of 933 W. 38th Street, Savannah, Ga., has arrived for duty at McClellan AFB, California.

Sergeant Schmidt is a radio maintenance technician with a unit of the Aerospace Defense Command which protects the U. S. against hostile aircraft and missiles. The sergeant, who previously served at Hamilton AFB, California, is a 1946 graduate of Beach High School. He attended Tuskegee Institute and received his B.S. degree in 1950 from Savannah State College.

* * * *

Airman First Class John F. Harris, Jr., son of Mr. and Mrs. John F. Harris, Sr., of 13305 White Bluff Road, Savannah, Ga., is a member of a unit that has earned the U. S. Air Force Outstanding Unit Award.

The 437th Military Airlift Wing at Charleston Air Force Base, S. C., was cited for meritorious service from July 1968 to July 1969 for its support of military operations. This marks the fourth time in five years the wing has been honored as an outstanding unit.

Sergeant Airman Harris, a supply specialist in the 437th, will wear the distinctive service ribbon to mark his affiliation with the unit.

The organization is part of the Military Airlift Command which provides global airlift for United States military forces.

The sergeant airman, a 1964 graduate of Sol C. Johnson High School, received his B.S. degree in mathematics in 1968 from Savannah State College.

* * * *

Alfred L. Mullice, son of Mr. and Mrs. Samuel P. Mullice, Sr., Route 1, Richmond Hill, Georgia, was recently promoted to Army sergeant while serving with the United States Army Material Command near Zweibrucken, Germany.

Assigned with the command, he entered the Army in February 1968 and completed basic training at Ft. Benning, Georgia. He was last stationed at Ft. Lee, Virginia.

The 24-year-old soldier is a 1967 graduate of Savannah State College where he received a B.S. degree. He is also a member of Alpha Phi Alpha Fraternity, Inc.

Leila Butler to Attend Institute

Leila Butler

Mrs. Leila Butler, former Miss Savannah State College National Alumni and local teacher was appointed by Dr. W. L. Williams, Director of Math Institute at University of South Carolina as a Research Assistant for the summer. The Research program is designed to investigate relationships between a teacher's effectiveness and his knowledge of mathematics.

Mrs. Butler will be doing the Research work at the University of South Carolina.

Graduate Program of SSC

Growth of the Graduate Studies Program

The purpose of the Graduate Studies program is to offer advanced preparation to those teachers who serve in elementary schools.

In June, 1968, fifty persons were admitted in the initial group of graduate aspirants. Much was done by the committee in charge of admissions to see that the students selected were able to do graduate work.

The fifty students selected were composed of seven men and 43 women.

All of the courses were new. However, the students were very energetic in carrying out assignments. From the start of the program, it could be seen that these were individuals quite capable of doing graduate work.

From time to time, during the first quarter, the students were given the opportunity to evaluate both the courses and teachers. Many helpful suggestions were received.

At the end of the first quarter, there were many survivors. Thus, the program was well on its way.

During the fall quarter of 1968, 13 additional students were admitted. These students were seven women and six men. It can be readily seen that the percentage of men had increased tremendously.

During this quarter three courses were offered. These courses seemed quite enough for the number of students enrolled.

The winter admissions for the year 1968-69 were fewer than for any other quarter. Three were men while nine were women.

For this quarter two courses were offered. One was held on Saturdays and the other during the evenings.

Admissions to begin study during the spring quarter reached a total of 17. This was an increase over both the fall and winter quarters. As usual, there were more women than men. There were 14 women and three men.

During this quarter, three courses were offered. One was scheduled on Saturdays and the other two were scheduled during the evenings.

After just one year, the program had grown from 50 to 92 persons. It is interesting to note that the students who entered during the first year completed their undergraduate work at 21 different colleges and universities. However, the majority of these students were graduates of Savannah State College.

The number of persons enrolled in the program indicated two things. First, there was a need for such a program. Second, enough interest was shown for the continuation of such a program.

The program continued to mushroom during the summer quarter. A total of 81 new students were admitted. This brought the total number of students admitted since June, 1968 to 173.

The persons admitted during the summer of 1969 represented 17 different schools. Savannah State College was included in this number.

The three quarters of the school year 1969-70 showed a gradual increase in the number of students admitted to the program.

It is interesting to note here, that during the winter quarter of the 1968-69 school year, two graduate courses were offered. Just one year later, the winter quarter of 1969-70, five graduate courses were offered. One class had an enrollment of over forty persons. The other classes had an average of 18 persons.

During the spring of 1970, the program had grown well over 200 persons. The interesting point is persons are constantly applying to the program.

From the program's beginning two years ago, it has operated on a part-time basis. Because initially the program was set up to serve in-service people, evening classes were scheduled during the fall, winter, and spring quarters. A regular program was followed only during the summer quarters.

After two years, the program can be acclaimed a great success.

Dynamic leadership has been provided by the Director of the program, Dr. James A. Eaton, as well as the Chairman of the Division of Education, Dr. Thelma M. Harmond.

FIRST PERSONS ADMITTED TO CANDIDACY FOR M.S. DEGREE

In July, 1969, Dr. James A. Eaton, Director of Graduate Studies, announced that seven persons had been admitted as candidates for the M.S. degree.

They were: Carolyn Anderson, Gloria S. Brown, Otis Cooper, Jr., Lillie Ellis, Musetta Martin, Velma Simmons, and Dorothy Vaughn.

Each candidate was officially welcomed into the program by the Chairman of the Division of Education, Dr. Thelma M. Harmond.

The following persons have finished requirements for the Master of Science Degree in elementary education, and will receive degrees on June 7, during the commencement exercises.

Carolyn S. Anderson

Gloria Spaulding Brown

Lillie K. Ellis

Mrs. Adlene W. Kennedy

Velma G. Simmons

Mrs. Dorothy B. Vaughn

Carolyn S. Anderson, a native of Savannah, Georgia, received her high school diploma from Alfred E. Beach High School and bachelor of science degree from Savannah State College.

Her experience includes teaching positions at Brize-Norton, England, Bentwaters, England, and Fort Walton Beach, Florida. She is presently teaching first grade at White Bluff Elementary School in Savannah.

She is a member of St. Paul's Baptist Church, Alpha Kappa Mu Honor Society, Kappa Delta Pi Honor Society and Alpha Kappa Alpha Sorority.

She is married to Walter Anderson, Jr., and they have two children, Alana and Davie.

Gloria Spaulding Brown is a native of Savannah, Georgia. She is the daughter of the late Mr. Lee Spaulding and Mrs. Sarah Spaulding.

Mrs. Brown received the Bachelor of Science Degree from Savannah State College, Savannah, Georgia. She was among the first students at Savannah State College to be listed in Who's Who in American Colleges and Universities. She graduated Magna Cum Laude, ranking second among the students graduating.

Mrs. Brown has worked in the field of education for ten years. Six years, she served as a primary teacher in Chatham County. For the past four years, she has served as a school librarian. She was the first full time librarian of Bartow Elementary School. She now serves as librarian of Port Wentworth Elementary School, where she was the first full time librarian.

Mrs. Brown is a member of several professional organizations.

She is also a member of Delta Sigma Theta Sorority, Alpha Kappa Mu Honorary Society and a charter member of the newly organized Kappa Delta Pi Educational Honor Society.

She is a communicant of the Second Baptist Church.

She is the mother of four adorable children: Ernest Leigh, nine years old; Carolyn Deidre, eight years old; Reginald Vernon, five years old; and Yolanda Pearllette, three years old.

Gloria S. Brown is president of the first graduate class at Savannah State College.

Lillie K. Ellis was born in Savannah, Georgia. She is the daughter of Mrs. Jessie Kyles and the late Frank Kyles, Sr.

She is a 1966 graduate of Savannah State College, where she majored in English education.

Lillie is married to Frank Ellis, Jr.

She attends Mt. Tabor Baptist Church, and is an assistant to the chairman of the Sunday School Program Committee. She is treasurer of the Theta Mu Chapter of Kappa Delta Pi National Honor Society; vice-president of Eta Alpha Mu Graduate Chapter of Alpha Kappa Mu National Honor Society; recording secretary of the graduate class at Savannah State College; and a member of Delta Sigma Theta Sorority.

Mrs. Adlene W. Kennedy received her B.S. degree in elementary education from Savannah State College in 1965.

Prior to her attendance at Savannah State College, she attended the New York Institute of Dietetics from 1956-1958.

Mrs. Kennedy has served as a dietitian for the Jewish Chronic Disease Hospital Agency in Brooklyn, New York; and for the Manhattan General Hospital in New York City.

She holds membership in the following organizations: The National Education Association, the Georgia Teachers and Education Association, the Chatham County Teachers Association, and the Classroom Teachers Association.

Mrs. Kennedy is presently teaching at Florance Street School in Savannah.

Mrs. Velma G. Simmons is a product of the local public schools. She is a graduate of Spelman College in Atlanta, Georgia. At Spelman she chose English as her major field and music as her minor field of concentration.

As the recipient of a grant-in-aid from the Georgia State Department of Education, she studied on the graduate level at Tuskegee Institute in the summer of 1963. In addition, she has enriched her career as an educator through periodic study at Savannah State College.

Mrs. Simmons has twenty years of teaching experience. This experience includes teaching English and music at Risley High School in Brunswick, Georgia; serving as an itinerant music teacher for kindergarten pupils; tutoring pupils in grades 5 and 6; and teaching grades 3, 4, 5, 6, and 7 in the Savannah-Chatham County Public School System. Currently, she serves as a teacher at Florance Street School.

In the year 1961, she was selected by her co-workers and the members of the PTA as "Quality Teacher of the Year." This unique honor was sponsored by the Board of Public Education and the Chamber of Commerce. In the year 1968, she was chosen "Teacher of the Year" by her co-workers.

Her other activities include all of the professional associations, such as CCTA, GTEA, NEA, and the Department of Classroom Teachers. Mrs. Simmons is a communicant of the St. John Baptist Church. She is also a member of the Savannah State College Chapter of the Kappa Delta Pi Honor Society and a member of the Les Soeurs Secretes, a quality club for women.

Mrs. Simmons is the daughter of Mrs. Maggie M. Graham and the late Mr. John B. Graham. She is the mother of one daughter, Velma Evelyn.

Mrs. Dorothy B. Vaughn was born in Springfield, Georgia. She is the daughter of Mrs. Jessie Burnett and the late Mr. Warren Burnett.

She is married to Mr. Robert Vaughn. They are the parents of one son.

Mrs. Vaughn's elementary and high school training were done at the local public schools.

She received her Bachelor of Science Degree from Savannah State College in 1958.

She is a member of a number of organizations. These include Chatham County Teachers Association, Georgia Teachers and Education Association, National Education Association, Delta Sigma Theta Sorority, a charter member of Kappa Delta Pi Educational Honor Society and the Les Jeune Dames Social and Civic Club.

Mrs. Vaughn is a communicant of the True Love Baptist Church.

Presently, she is employed as a first grade teacher at the Florance Street School.

OTHER STUDENTS ADMITTED TO CANDIDACY

DR. JAMES EATON
Program Director

Otis Cooper, Jr. was born in Sylvania, Georgia. He was reared between Sylvania and Savannah. He finished high school at the age of 16 and entered Georgia State College. He also matriculated one year at Morehouse College.

He has served in the armed forces. He spent three years overseas: 12 months as a clerk and two years as a supply officer.

He graduated from Savannah State College in 1951 with a Bachelor of Science degree in Social Science.

He has taught in the field of Social Science in Bryan County since 1958.

* * * *

Musetta B. Martin was born in Beaufort, South Carolina. She is the daughter of the late Daniel Webster and Gertrude Lawrence Bee, and the eldest of seven children.

Her elementary and high school education was completed at Robert Smalls High School, Beaufort, South Carolina.

In 1965 she completed her undergraduate work at Savannah State College.

She is presently employed as principal of the Matthew E. West Elementary School, Hardeeville, South Carolina.

After reading the news concerning the graduate program, I was thrilled, just to think, here was my alma mater initiating a graduate program, a tremendous need in this area. To me it was a dream come true.

* * * *

Constance H. Nash is a native of Savannah, Georgia. Received her early education in the public schools of Savannah, and graduated from Alfred E. Beach High School. She received the B.S. Degree from Savannah State College, graduating Cum Laude with a major in Elementary Education in June 1967.

She was among the first students to enter the graduate program at Savannah State in the summer of 1968, and is presently working toward the M.S. Degree in Elementary Education, completing requirements in August of 1970.

Presently she is a third grade teacher at Anderson Elementary School and is married.

* * * *

Virginia Baker Whitehead was born in Kingsland, Camden County, Georgia. She is the daughter of Mr. and Mrs. Robert Baker, Sr.

She received her early education in the public schools of Camden County.

Virginia is a 1968 graduate of Savannah State College where she majored in elementary education.

Virginia is married to the Rev. W. W. Whitehead, and is the mother of one daughter, Jannah Juliett. Virginia is a member of the Conndis Temple Baptist Church.

She is presently employed as a first grade teacher at the Charles Ellis Elementary School, Savannah, Georgia.

* * * *

Mary Catharine Brown was born in Harlan County, Ky. Graduated from George Peabody College, Nashville, Tenn. Married to a Civil Engineer. Mother of two sons. Librarian at Wilder Junior High School. Member of Isle of Hope Baptist Church.

I feel that the graduate program has been initiated with careful consideration of present needs and future expansion. I have been pleased with both the faculty and student body.

* * * *

Martha Bishop Collidge was born in Dooly County, Georgia. Attended the University of Georgia. Graduated Cum Laude from Armstrong State College. Married to an attorney. Mother of three children. Presently employed as the assistant librarian at Sol C. Johnson School. Member of St. Paul Lutheran Church.

I have been well pleased with the graduate program. The faculty and student body have shown such enthusiasm that I'm sure the future success of the program is assured.

Edith S. Brown was born in Blackville, South Carolina May 21, 1934. She attended the public schools in Jasper County, South Carolina, and in 1961 received a B.S. degree from Savannah State College in Elementary Education. Presently she is employed by the Jasper County Board of Education as a teacher in mathematics and science at M. E. West Elementary School, Hardeeville, South Carolina.

She is a member of Fishers Chapel United Methodist Church, St. Catherine Chapter No. 46 O.E.S., The National Funeral Directors and Morticians Association, South Carolina Education Association, National Education Association, and the Jasper County Teachers Association.

She is married to Isaiah Brown, and they have two adorable children, Valeria and Isaiah, Jr.

* * * *

Mary Evans Roberts, a product of the public schools of Savannah and a graduate of Savannah State College.

Presently employed by Savannah Public School System. Teaches English and serves as Chairman of the English Department at Sol C. Johnson.

Married to Enoch Roberts and is the mother of one son, Phineas Lenardo.

Affiliated with NEA, GTEA, CCTA professional organizations. Social affiliations include Jack and Jill of America, Inc., and Leisurettes Club.

Honored as Teacher of the Year at Sol C. Johnson in 1965.

I feel that the Graduate School at Savannah State is an asset to the community and the state. The program has enhanced the growth of education for all persons who have become a part of it. The courses offered in the Graduate Studies Program have furthered the professional growth and competency of persons choosing a career in public education.

It is my sincere wish that the program continues to expand the professional and cultural background of its students.

SSC Announces Commencement Calendar

Dr. Calvin L. Kiah, Dean of Faculty at Savannah State College, has released the following calendar of events for June graduates:

On May 24, Senior Vespers will be held at 5:00 p.m. in Meldrim Auditorium. The President's Reception for Seniors will be held in the lobby of Peacock Hall at 7:30-10:00 p.m. on Wednesday, May 27.

Seniors will be honored during the Annual Senior Class Day Exercises which will be held in Willcox-Wiley Gymnasium on Thursday, May 28 at 10:20 a.m.

On May 28, seniors will leave for Miami Beach, Florida on their annual three-day trip.

Commencement exercises will begin at 3:00 p.m. on Sunday, June 7 in Willcox-Wiley Gymnasium, at which time Dr. Samuel Proctor, Director of the Black Studies Program at Rutgers University, will deliver the commencement address.

Following the commencement exercises the President's Reception for graduates, parents, alumni, faculty and visitors will begin at 5:30 p.m. in the Martin Luther King-Varnetta Frazier Complex.

Dr. Jordan Receives Award

The 1970 Liberty Bell Award was presented jointly to the Presidents of Savannah State College and Armstrong State College at the Law Day Ceremonies in Johnson Square on May 1.

The award was made by the Savannah Bar Association to honor those members of the non-legal community who contribute to the community's understanding of the workings of the law.

In this citation to our distinguished president, Dr. Jordan, the Savannah Bar Association commended his guidance and direction to follow that course of redress provided by the laws of this land.

It further cited Dr. Jordan's administration for the proper relationship between the individual rights of those whom he represents and the rights of the people at large.

Following the Law Day theme, "Law—Bridge to Justice," the citation said that the law is the bridge leading to the promised land we all seek: Liberty, Freedom, Justice For All.

The citation to the President of Armstrong State College, Dr. Henry Ashmore, is identical.

Russell Beseiged by Admirers.

Bill Russell Wows SSC Audience

Bill Russell

In a very informal and relaxed manner, Bill Russell, ex-player coach of the Boston Celtics, wowed a Savannah State College audience of over 4,000 by his address during the First Annual Co-Ed Festival observance.

There wasn't an inattentive ear as Russell expounded on several major political, social and economic problems, which Americans, "the now generation," face today.

In the vernacular of the "now generation" Russell stated that he was "embarking on a journey to find out about the hip generation. In other words, I'm in search of America." Russell stated that he believed that this generation was turned in on people and not things. "If you're not part of the solution, then you're a part of the problem."

Russell touched on the ever-growing narcotics problem, when he said that "I do not advocate smoking weeds or grass." However, he felt that not enough was being done to adequately alleviate the problem. He felt that the same way he came into Savannah on Thursday evening, without ever having been in the city before, and could have been turned in by some pusher, so could the police find and ascertain the same information.

Russell stated that "I have tried marijuana before, and I got high, and although I'm not saying whether this grass is good or bad, but the same person who sells you marijuana would sell heroin to an eight-year-old kid, because that person has no concern for people."

In a very amusing manner Russell attacked the Viet Nam war as being "alright except that it was immoral, illegal, unfounded and underclassified."

Russell's amusing formula for ending the draft was to set up three qualifications, which were that the draftee must be 40 years of age or older, make a salary of 15,000 dollars or more a year, and be elected to or holding political office, the latter of which were to be classified as IA Top Priority. Russell stated that "the best way to fight communism was not by war but by practicing the Constitution."

His views on the desegregation of schools was that "The nation does not do what it can, but what it wants to do. It took us only 9 years to put two men on the moon, but 15 years filled with Supreme Court decisions and we can't get a child across town to attend a desegregated school."

Russell gave his reason for leaving the profession of basketball as "The game was beginning to become one played for mercenary reasons and not professional." He stated that when asked if he was a basketball player, his answer was "No, I'm a man that plays basketball."

SSC Hosts EPDA Conference

Mrs. Abbie Jordan, Instructor of Reading at Savannah State and Director of the EPDA Institute in Reading in Savannah, announces that on Wednesday, February 11, Savannah State was host for a conference called by the United States Office of Education.

Invited to attend were Directors of Educational Personnel Development Act Institutes in five states; the Directors from the University of Georgia, South Carolina, Nebraska, Florida and Tennessee; State Coordinator of Title I; and Area School and Title I Officials. Also attending were Dr. Bruce Gaardner, Chief, Division of Basic Studies, and six other representatives from the Office of Education.

The purpose of the conference was to get the Directors of federally funded projects to unite their resources in order to become stronger as a whole.

After summarizing the efforts of the conference, Dr. Gaardner said that of the meetings his office has held recently this one was the most "singularly fruitful."

Mrs. Jordan served as chairman of the conference.

Fifty-two Alumni Join Century Club

The Savannah State College National Alumni Association initiated its first Annual Century Club during a fund raising campaign that began during the Spring of 1969, and fifty-two members responded to the appeal. The purpose of the campaign as stated in the brochure was "to aid the college in establishing a broad base for annual gifts from alumni, parents and friends of the college." The funds will be used for scholarship purposes to open the door of opportunity for deserving students; to aid the college in meeting the many incidental expenses that are necessary for academic excellence and to strengthen the development of a strong athletic program.

Under the leadership of Dr. Henry M. Collier, Jr., Alumni Campaign Chairman, the following members contributed \$100 or more and received Century Club certificates at the National Alumni banquet during the homecoming weekend on October 25, 1969.

Mr. and Mrs. Robert Bess, Mr. and Mrs. Frank Bynes, Mr. and Mrs. R. Wilbur Campbell, Dr. and Mrs. Henry M. Collier, Jr., Mrs. Nancy Collier, Mr. and Mrs. Robert DeLoach, Mrs. Carolyn Dowse, Mr. Isaac Dowse, Mr. and Mrs. Norman Elmore, Sr., Mr. and Mrs. James Fisher, Mr. and Mrs. Eugene H. Gadsen, Dr. and Mrs. Clyde Hall, Mrs. Madeline V. Hannar, Mrs. William Harris, Dr. Thelma Harmond, Mr. and Mrs. Gardner Hobbs, Dr. and Mrs. Howard Jordan, Dr. and Mrs. Prince Jackson, Jr., Mr. and Mrs. William C. Jackson, Mrs. Dorothy Jamerson, Dr. and Mrs. Calvin L. Kiah, Miss Ruby King, Mr. Leonard D. Law, Sr., Mr. and Mrs. Benjamin Lewis, Mr. William Ludden, Mr. and Mrs. Joseph Manning, Mr. and Mrs. T. McBride, Dr. and Mrs. S. M. McDew, Mr. and Mrs. Willie McBride, Mr. Alphonso McLean, Jr., Mr. and Mrs. Raleigh Macon, Mr. and Mrs. Enoch Mathis, Miss Mattella Maree, Dr. and Mrs. Carlton H. Morse, Dr. and Mrs. Kamalakar Raut, Mr. C. W. Reed, Jr., Mr. Arthur Roberts, Mr. and Mrs. Moses Robinson, Dr. and Mrs. Herman W. Sartor, Mr. and Mrs. Wilton C. Scott, Mrs. Josie B. Sessoms, Mr. and Mrs. Walter B. Simmons, Sr., Mr. and Mrs. James O. Thomas, Mr. Daniel Washington, Mrs. Nancy Walker, Mr. William Weston, Dr. and Mrs. J. W. Wilson.

Chicago Alumni Meet

Robert Bess, Development Officer and Alumni Secretary at SSC was guest recently at a social meeting of the Chicago Chapter of the SSC National Alumni Association. The meeting was held at the home of Mr. and Mrs. George James on February 25. Mr. Bess showed slides of the changes taking place at the college, to the amazement of most of the alumni present, things had really changed.

Members present were: Alette Wiggins, Paul Long, Dennis Williams, Alfred Garner, Rose Barker, Arthur and Mary Terry, George and Susie James, Fred and Myrtice Quillin, and Clarence Lasseter, responsible for arranging the meeting.
